QUALITY SPECIMEN TREES

Dear Valued Customer,

February 2019

Welcome to Leafland's 2019 Tree Catalogue. We trust that this year will be a prosperous and enjoyable year for all our loyal customers. Our start to the year has all the signs of being a very busy year. It is great to see the scope of development throughout the breadth of NZ and long may it continue. This all has a positive flow-on effect for the economy.

Thank you for taking the time to view our 2019 Catalogue. We trust that you find it helpful, inspirational, and an informative reference. Keep it close at hand for easy future browsing. It is also available online from our website, but the web version isn't priced, so that you can direct your clients to the website to view pictures without showing them the cost. The Leafland website includes more in-depth descriptions and pictures of each tree that we supply. It also has a search feature so if you want to look at a certain range of trees like Edibles or Hedging then the search feature will bring them up.

The Leafland Tree Catalogue is easy to read, with all the different trees being listed alphabetically by their botanical names. If you are unsure what the correct botanical name is, then there is also a list of common names and edibles to help, or just call us and we will try our best to help.

Leafland is operating from two sites: our original block in 1 Roberts Line, where we have approximately 10 acres of trees, and our new 20 acre block at Whakarongo which is approximately 3 km away. This does bring logistical challenges, but is only 3 minutes drive away. Our long term plan is to move the entire nursery to the Whakarongo site. We have again increased our stock levels as we have experienced good demand for the past 12 months. When we analyse our sales, most of the top sellers are trees that we sold out of in 2018!

One of Leafland's initiative is the air-prune side slot pot growing system (see the Pro-Pot video on our website). We feel it is a greener and greater way to grow trees. The concept is that the plastic pots have many air holes around the perimeter, which draw the roots out, and then when the roots reach the air, they stop running and spread new roots, effectively making a fibrous root system which establishes quickly into its new site. At the point of dispatch, we will take off the pot (which are reusable) and ship out the trees in a decomposable biodegradable hessian transport bag, so the tree planter has no rubbish to dispose of. We are very keen to get trees growing in these and are willing to take forward orders for 2019 and grow trees on contract, so please contact us to discuss this ground breaking sustainable idea.

Our staff number is around 20 staff now, and we have been fortunate to have on our team many experienced nursery workers. Jude Macdonald, Mary Robertson, and Natalie Hyslop are in the sales/admin/dispatch team with Joel Currie and Ben helping out. Joshua and Natalie look after marketing while Douglas, Edward, Regan, and Lachie work in dispatch. Gareth and Elisara take care of trimming and spraying. André manages the Whaka site while Poutasi Sefo 'Junior', Salafai, Tasi, Telefoni, Toetu, Mafutaga, Lalopau, and a few others all help in the production side of the nursery.

We would take this opportunity to thank all our loyal customers for your on-going custom and support in the past years and we look forward to supplying you with quality specimen trees in the near future.

All the best for 2019,

Ben Currie & all the Team at Leafland Tree Nursery

ABOUT US

Leafland is a family run wholesale tree nursery based in Palmerston North, New Zealand. Leafland started in 2001 after we purchased the tree side of Sunshine Environmentals. We have around 20 full time staff. Our mission is to provide quality specimen trees throughout NZ with outstanding service and professional advice. We seek to be the best grower of large grade trees in NZ. We specialise in Exotic, Edible, and Native species and sell over 500 different varieties, species, and sub-species. Our property spans over many acres and three different locations, accommodating over 100,000 individual trees. Our stock is continually turned over, and at different stages of growth. The smallest bag size we sell is PB18 (Pint Bag 18 = 18 Pints of volume), and the largest bag is 1000L.

Leafland trees are unique in that they are grown on our property in a typically windy Palmerston North. We are also subject to cold winters and this environment helps make a hardier plant, compared to one grown in a sheltered environment. Typical Leafland customers include councils, property developers, landscapers, tree surgeons, golf courses, and schools.

Our mission: To provide quality specimen trees throughout New Zealand with outstanding service and advice.

Leafland's Fruit Trees

Common	Botanical
Apple	Malus
Apricot	Prunus mume
Cherry	Prunus avium
Chestnut	Castanea sativa
Crabapple	Malus
Feijoa	Feijoa
Fig	Ficus
Guava	Guava
Lemon	Citrus lemon
Lemonade	Citrus lemonade
Lime	Citrus lime
Loquat	Loquat
Macadamia	Macadamia
Mandarin	Citrus mandarin
Mulberry	Morus nigra
Nectarine	Nectarine
Olive	Olea
Orange	Citrus orange
Peach	Peach
Pear	Pyrus
Persimmon	Persimmon
Plum	Prunus
Stone pine	Pinus pinea
Walnut	Juglans regia

TREE TERMINOLOGY

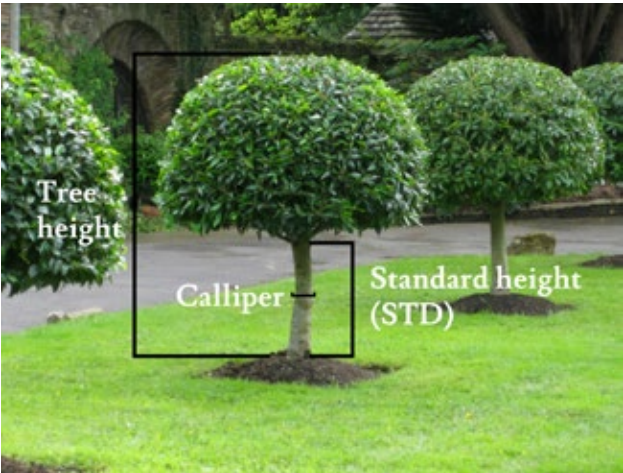

Our trees are planted in bags or pots with various grade sizes.

P18 Bag = 18 Pints
60L Bag = 60 Litres
1 Pint = approx. 0.57L

Calliper: The thickness or diameter of the trunk.

Standard (STD): Refers to the height from the base to the first branch.

We supply trees in grade sizes from P18 to 1000L.

PRO-POTS ADVANCED GROWING SYSTEM

View our informative video at leafland.co.nz/pro-pots

Leafland is aware of the need to look more closely at container growing methods used for advanced grade trees in NZ. We understand how important it is that a tree has a good healthy root system which will quickly establish to ensure the tree won't fail.

Our growing method had to be the most practical, sustainable, and cost-effective way to grow advanced grade trees that will also meet the customers expectations and remain price competitive. The search resulted in our development and use of Pro-Pots. These pots produce an air pruned root system, which prevents curling root systems. They are easy to use as no assembly is required. Leafland grows trees in 25L, 35L, 45L, 60L, and 100L Pro-Pots. At dispatch, we remove the trees from the pots and put the root ball into a biodegradable hessian easy-lift bag for planting. These hessian transport bags can be planted into the ground and will decompose within a few months. The pots will be washed and recycled, making this system a far superior and sustainable way to grow advanced grade trees.

HOW IT WORKS

From left to right: 35L, 45L, 60L, 100L

Above fibrous root structure from a plant potted in a Pro-Pot. Roots grow outward rather than being tangled around the plant as in a bagged plant.

A - Z TREE CATALOGUE

Grade sizes shown are available as at 1st March 2019 and are subject to availability. All prices exclude GST and are subject to change without notice. Tree heights and standard heights are indicative only and may vary. Heights shown in descriptions are the approx. 10 year height. Height of man in tree graphics is approx. 1.8m. Free feel to request photos of any of our stock. We have other grade sizes available that are not shown and further stock that is coming on. Please enquire if interested.

PVR: Plant Variety Rights
L/W: Low Work

Abies concolor - (White Fir)

Forms a tall pyramidal tree with spreading branches that fall to the ground. Bluish green needles. A slow grower, preferring a cooler climate. Ideal in containers or as a bonsai subject. (Evergreen 12m)

	25L	0.8				
--	-----	-----	--	--	--	--

Acacia baileyana "Purpurea" - (Purple Fernleaf Wattle)

Greyish green ferny leaves with all new growth a striking purple colour. A mass of golden yellow flowers through winter. Grows best in dry or stony soil with perfect drainage. An outstanding foliage and flower tree. (Evergreen 5m)

	25L	2				
--	-----	---	--	--	--	--

Acacia floribunda - (Sallow Wattle)

A graceful spreading bushy tree with an open form. A slender willow like habit with narrow leaves. Pale yellow fragrant flowers in fluffy balls through late summer. Tolerates poor dry soils. Grow in full sun. (Evergreen 4m)

	100L	3				
--	------	---	--	--	--	--

Acacia howitii - (Weeping Sticky Wattle)

Designer plant. A narrow grower with stiffly weeping side branches. Tolerates both dry soils and moist well drained. Fragrant pale yellow flowers. (Evergreen 1.5m)

	35L	1.4				
--	-----	-----	--	--	--	--

Acacia melanoxylon - (Blackwood)

Prized for it's beautiful marbled timber. Quick growing hardy shade/shelter tree. Dense round headed tree with pale yellow flowers in winter/early spring. Tolerates high rainfall. (Evergreen 20m)

	P28	1.5				
	80L	3				

ACER (MAPLE)

Acer buergerianum - (Trident Maple)

Hardier oriental maple. Rounded crown with low spreading branches. Coppery red new leaves, green in summer. Autumn leaves of a vivid red, apricot and yellow. Smaller growing, compact shade tree. (Deciduous 7m)

	P18	2.2				
	P28	2.2				
	25L	2.1				
	45L	3				

Acer campbellii "Gwavas" - (Campbell's Himalayan Maple)

Species from Western China. Large deeply lobed leaves emerge bronze purple and mature to olive green with prominent veins. Upright spreading habit with smooth green stems which mature silver with age. Glowing yellow and orange autumn leaves. (Deciduous 6m)

	80L	2				
	100L	3				

Acer campestre - (Field Maple)

Native to much of Europe. The flowers are produced in spring at the same time as the leaves open, yellow-green in erect clusters 4 - 6cm across. (Deciduous 15m)

	P18	1.8				
--	-----	-----	--	--	--	--

Acer capillipes - (Red Snakebark Maple)

Medium sized tree with scarlet shoots and leaf stalks. Bright green and white striped bark. Prolific crop of flowers and keys. Autumn tones of orange and scarlet. (Deciduous 6m)

	60L	3				
	80L	3.2				

Acer cappadocicum "Rubrum" - (Red Coliseum Maple)

Blood red new spring leaves. Large green leaves through summer with bright yellow autumn leaves. Compact rounded crown. Tolerates dry conditions. (Deciduous 8m)

	25L	3				
	35L	3				

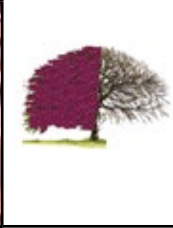

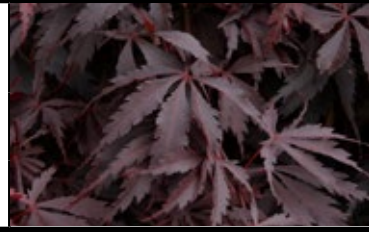

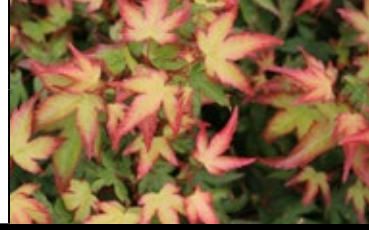

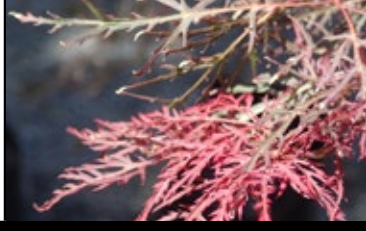

Acer caudatifolium "Summer Surprise"

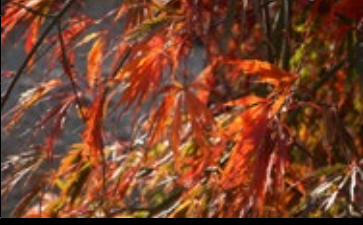

All year round beauty. Bare winter branches glow orange red. Pink new stems with variegated leaves. Orange/red leaves in autumn. Keep moist and avoid strong winds. (Deciduous 5m)

	45L	2.5				
	60L	3				

			Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)				Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)	
Acer cissifolium "Henryi"			P18	2.2					Acer monspessulanum - (Montpelier Maple)		P28	2.2				
A small shade tree. Bronze new leaves turn green. Stunning autumn leaves of red and yellow. Long chains of green seed capsules in the summer are a feature. Protect from strong winds. (Deciduous 5m)			25L	2.7					Small rounded densely branched tree with thick leathery leaves. Yellow autumn leaves. Tolerates hot dry conditions. (Deciduous 6m)							
Acer conspicuum "Esk Flamingo" - (Esk Flamingo Maple)			35L	2.7					Acer negundo "Flamingo" - (Flamingo Box Elder)		35L	2.3				
This is a specular form with its graceful weeping side branches. Green leaves are splashed pink, cream, and white. Red new shoots. Ideal for large containers where branches can cascade over the sides. (Deciduous 3m)			60L	2.4					Upright slow growing tree with vivid carmine pink/white spring leaves. White/green leaves flushed with pink in summer turning red and pink in Autumn. Ideal for smaller gardens. Protect from strong winds (Deciduous 4m)		45L	2.6				
Acer davidii - (Snakebark Maple)			SOLD OUT FOR 2019				SOLD OUT FOR 2019				45L	3				
Erect open spreading form with shiny green bark, striped silvery white. Glossy green leaves with deep red veins. Red, yellow, orange and purple autumn leaves. (Deciduous 8m)											80L	3.2				
Acer gracefield - (Snakebark Maple)			35L	3.3					Acer negundo "Kellys Gold" - (Ash Leaved Maple)		SOLD OUT FOR 2019					
A very showy tree through summer with new growth bright pink. The leaves are a blend of pink, white and green. The branches arch and cascade to form a fountain of colourful foliage. A small tree with a low spreading habit. (Deciduous 5m)			45L	3.1					Species from Western China. Large deeply lobed leaves emerge bronze purple and mature to olive green with prominent veins. Upright spreading habit with smooth green stems which mature silver with age. Glowing yellow and orange autumn leaves. (Deciduous 6m)							
Acer griseum - (Paperbark Maple)			P18	1.2					Acer negundo "Variegatum"		25L	2.5				
A tidy and slender erect growing Chinese maple. Beautiful cinnamon brown smooth bark peels in thin strips. Comes into leaf in November therefore evading a lot of the damaging spring winds. Fiery red autumn leaves. (Deciduous 6m)			P28	1.3					Attractive greyish green leaves are edged with silver, flushed rose pink, when young. Has a neat upright growth habit. A hardy and quick growing North American Maple. (Deciduous 6m)		35L	2.7				
Acer japonicum "Green Cascade"			25L	1.8					Acer negundo "Violaceum" - (Violet Twig Box Elder)		45L	2.7				
A weeping form of japonicum. Large deeply cut leaves with striking autumn colours of yellow, crimson and red leaves. Looks great cascading down a bank. (Deciduous 2m)			35L	2					Striking burgundy tassels adorn bare branches. Young shoots and leaves are purple-maroon. Summer leaves green that turn gold in autumn. A vigorous, round, irregular grower that has smooth bark with a whitish bloom. (Deciduous 6m)		60L	3				
Acer japonicum "Vitifolium" - (Vine Leaf Maple)			SOLD OUT FOR 2019				SOLD OUT FOR 2019				45L	2.6				
The leaves resemble grapevine foliage, but they appear on a tree with a stiff, spreading branch structure. The leaves are light to robust green from early spring through summer, changing in fall to a spectacular display of orange-yellow and bright red. (Deciduous 2m)											60L	3				
Acer japonicum "Atropurpureum" - (Purple Japanese Maple)			25L	2					Acer palmatum - (Japanese Maple)		80L	3.3				
Rich crimson leaves in spring that are bronze-purple in summer then go scarlet in autumn. Deep purple stems. A perfect shade tree. (Deciduous 3.5m)			35L	2.3					Grows into a round headed, open airy tree with slender stems. Green leaves are deeply lobed and dissected. They turn brilliant shades of yellow, orange and red in autumn. The perfect medium sized shade tree. Excellent as a street tree. (Deciduous 5m)		160L	3.7				
			45L	2.4					Acer palmatum "Atropurpureum" - (Purple Japanese Maple)		25L	2.2				
									Rich crimson leaves in spring that are bronze-purple in summer then go scarlet in autumn. Deep purple stems. A perfect shade tree. (Deciduous 3.5m)		35L	3				
											45L	3.3				
											60L					

		Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)			Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)		
Acer palmatum “Beni Otake” - (Japanese Maple)		P28	1.7					Acer palmatum dissectum "Emerald Lace"		35L	1.2	0.9			
A beautiful oriental look with bamboo like leaves. New leaves are bright red all season. Deeply dissected narrow lobed foliage that glows in the sun. Leaves turn scarlet in autumn. A small spreading tree that is perfect for a smaller garden. (Deciduous 3m)			25L	1.8				Very finely cut lime green spring leaves that darken in summer. Dark red leaves in autumn. A strong vigorous grower. Excellent for containers. Graft height will determine height. (Deciduous)			45L	1.3	0.9		
Acer palmatum “Beni Shi En” - (Variegated Japanese Maple)		SOLD OUT FOR 2019						Acer palmatum dissectum "Flavescens"		35L	1.4	1			
One of the few red maples with variegation. Large deeply dissected leaves that are cream, pink and green. Grow in full sun and protect from strong winds. No two leaves are the same. A small tree to lighten up dull areas. (Deciduous 3m)												Unusual yellow lacy foliage with hints of fresh green in spring which darkens over summer. This turns delightful mix of gold and orange in autumn. The pendulous cascading branches form a domed shape weeper. (Deciduous)			
Acer palmatum “Bloodgood” - (Japanese Maple)		25L	1.9				Acer palmatum dissectum "Inaba Shidare"		25L	1.3	L/W				
Large purple-red leaves that hold their colour well through the season. Leaves are a fiery crimson red in autumn. A hardy and vigorous tree that tolerates heat and moderate wind. (Deciduous 5m)			35L	2.2			Vigorous, pendulous form. Intense dark purple leaf which is deeply serrated, retains colour through summer. (Deciduous 1.5m)								
Acer palmatum “Burgundy Lace” - (Japanese Maple)		35L	2.2				Acer palmatum dissectum "Orangeola"		25L	1.1	L/W				
American cultivar with deeply divided leaves like lace. Burgundy wine leaves through the season turning scarlet in autumn. A small spreading shade tree that is perfect for smaller gardens. (Deciduous 4m)			60L	2.7			Leaves weep to the ground in a rounded mound. Orange/green new spring leaves. Mature green through summer with red new growths. Bright orange/ red autumn colours. Performs well in hotter climates. Excellent for container planting. Graft height will determine height. (Deciduous)			35L	1.3	L/W			
Acer palmatum “Chishio” - (Dwarf Japanese Maple)		25L	0.6				Acer palmatum dissectum "Pendulum Julian"		100L	1.3	0.9				
A small grower with multi-branches and twiggly growth. The spring leaves emerge bright carmine pink, changing to a pink red and aging to green over summer. Autumn colours are orange to red. An outstanding dwarf shrub for a sheltered area. Ideal for containers. (Deciduous 1.3m)			45L	1.7	1		A mound forming and wide spreading grower, more wind tolerant than most other weeping maples. Purple spring leaves mature bronze green through summer. Orange and yellow autumn leaves. Graft height determines height. (Deciduous)								
Acer palmatum dissectum "Crimson King"		35L	1.3	0.9			Acer palmatum dissectum "Red Feathers"		SOLD OUT FOR 2019						
Finely cut, large leaves of bright, crimson red during spring becoming a deep purple red over summer, before assuming fiery scarlet, red, and orange autumn tones. (Deciduous 1.5m)			45L	1.3	0.9		Vigorous grower. Finest cut purple-red leaves. Retains colour throughout season. Bright crimson autumn leaves. Small grower, excellent for containers. Prefers partial shade in well-draining soil. Graft height will determine height. (Deciduous)								
Acer palmatum dissectum "Crimson Queen"		25L	1	0.6			Acer palmatum dissectum "Sieryu"		25L	2					
Finely cut deep purplish-red leaves. It retains this colouring throughout the season. Scarlet autumn colours. Hardy grower. Excellent for containers. A weeping specimen. Graft height will determine height. (Deciduous)			25L	0.8	L/W		Upright grower with graceful spreading branches. Finely cut bright green lacy leaves. Autumn tones of gold tinted red. The only upright cut leaf maple. Ideal for a smaller garden. (Deciduous 3m)			35L	2.2				
		25L	1.2	L/W											
		25L	1.3	0.9											

			Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)				Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)	
Acer palmatum dissectum "Stella Rossa"			35L	1.2	0.8				Acer palmatum "Omurayama"			35L	2			
Weeping form with fine lacy leaves. Deep pink-red new growth followed by dark purple to red leaves through summer. Holds this colour well. Bright red autumn leaves. (Deciduous)			45L	1.2	0.8				A small spreading spectacular grower with pendulous side branches. These branches will eventually cascade to the ground. Bright green leaves are deeply cut and lobed. Glowing orange red autumn leaves. Protect from hot drying winds. (Deciduous 2.5m)							
Acer palmatum dissectum "Tamukeyama"			25L	1.2	L/W				Acer palmatum "Osakazuki" - (Japanese Maple)			35L	2			
Crimson red finely cut spring leaves. Purple-red through summer turning scarlet in autumn. A strong mound forming grower. Becoming a real solid beauty. Graft height determines height. (Deciduous)			35L	1.2	L/W				Large lobed leaves. New growth a pinky bronze that turns green. Considered to have the brightest scarlet autumn colours. Moderately wind hardy. A small robust upright spreader. Ben's favourite autumn coloured maple. (Deciduous 4m)			35L	2			
			80L	1.6	1							45L	2.2			
			100L	1.6	1											
Acer palmatum dissectum "Viridis"			25L	1.1	L/W				Acer palmatum "Red Emperor" - (Japanese Maple)			25L	2.2			
Finely cut fresh green spring leaves that retain the colouring well into summer before turning to brilliant yellow and orange leaves in autumn. Vigorous and hardy. Excellent for containers. Graft height will determine height. (Deciduous)			35L	1.2	L/W				Finely serrated purple red leaves. Retains leaf colouring all season. Brilliant red autumn foliage. Small upright spreading grower. Ideal for the smaller garden. Protect from the strong winds. (Deciduous 4m)			45L	2.5			
			35L	1.2	0.9											
			45L	1.3	L/W											
Acer palmatum "Fjellheim" - (Dwarf Senkaki)			25L	1.2	0.8				Acer palmatum "Roseo Marginatum" - (Japanese Maple)			25L	1.7			
Soft lime green, red margined foliage in spring. Mid summer green, and bright gold in autumn. Outstanding brilliant red bark in winter and spring. (Deciduous 1.5m)			35L	1.3	0.5				Small deeply cut lobed leaves that are green and white, margined pink. Autumn leaves are bright carmine and red colours. Dense upright vase shaped tree, perfect for small spaces. (Deciduous 2m)							
Acer palmatum "Katsura" - (Katsura Japanese Maple)			25L	2					Acer palmatum "Scolopendrifolium" - (Japanese Maple)			35L	2.1			
The first maple to unfurl in spring with orange and yellow leaves, that turn lime green in summer. Autumn leaves are shades of yellow and orange. A great small shade tree. (Deciduous 4m)									Bright green leaves that are distinctively long and drooping. A tall and slim elegant grower. Autumn leaves are apricot and orange. Ideal for a narrow space. (Deciduous 5m)			45L	2.4			
												60L	2.9			
												200L	3.5			
Acer palmatum "Mikawa Yatsubusa" - (Japanese Maple)			SOLD OUT FOR 2019						Acer palmatum "Senkaki" - (Coral-Bark Maple)			35L	2			
Dwarf grower which looks like a miniature tree with its tufts of leaves clothing the branches in layers. Yellow spring leaves turn fresh green through summer and glowing scarlet through autumn. Excellent for the rock garden or oriental themed garden. (Deciduous 1.5m)									A year round beauty with spring leaves that are lime green, margined red, that go green through summer and yellow through autumn. Vivid coral red stems a winter feature. Small spreading grower. Requires shelter. New growth flame-pink. (Deciduous 3m)			45L	2.2			
Acer palmatum "Okagami" - (Japanese Maple)			400L	3					Acer palmatum "Shaina" - (Dwarf Japanese Maple)			P28	1.7			
Large intense red leaves in spring that are a glossy purplish black through summer. Fiery scarlet autumn leaves. A small robust upright grower. (Deciduous 4m)									A dwarf Bloodgood sport that makes an excellent container subject, dense, compact and erect growth habit. Bright red new leaves mature into a maroon colour. Intense red autumn leaves. Easily trained into a ball shape. (Deciduous 1.8m)			25L	2			

			Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)				Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)
Acer palmatum “Shindeshojo” - (Japanese Maple)				25L	1.7			Acer platanoides - (Norway Maple)			P28	1.8			
Outstanding flaming scarlet spring leaves that turn into a blended green/pink in summer and go a flaming scarlet again in autumn. A small spreading grower. Ben's favourite spring Maple. (Deciduous 3m)				35L	2										
Acer palmatum "Shirazz"				25L	1.2	1		Acer platanoides "Autumn Red" - (Canadian Maple)			25L	2.4			
A lovely variegated foliage changing through shades of crimson-scarlet to red-orange margins on a green leaf. (Deciduous 3m)				35L	1.4	1									
Acer palmatum “Skeeter’s Broom” - (Japanese Maple)				25L	1.8			Acer platanoides "Columnare" - (Upright Norway Maple)			35L	2			
A narrow dense foliated upright grower with small bright red spring leaves that are burgundy through summer and scarlet in autumn with purple branches. Perfect in a narrow space where height is required. (Deciduous 2.5m)				80L	3.5										
Acer palmatum “Suminagashi” - (Japanese Maple)				35L	1.9			Acer platanoides "Drummondii"- (Harlequin Maple)			35L	2.5			
Large, rich, dark purple leaves that are deep maroon through summer and are crimson red in autumn. A medium, round headed tree with almost black stems. (Deciduous 4m)				45L	2.2										
Acer palmatum “Trompenburg” - (Japanese Maple)				60L	2			Acer platanoides "Globosum" - (Globe Norway Maple)			45L	2.2	1.7		
Finger shaped leaves roll down distinctively. Rich purple-red leaves in summer that are a purplish green until autumn when they go to a bright crimson. An erect round headed tree. (Deciduous 4m)				80L	2.5						60L	2.5	1.7		
		80L	2.5												
		100L	2.5								1.7				
Acer palmatum "Ukigumo" - (Floating Cloud Maple)				P18	1.6			Acer platanoides “Nigrum” - (Purple Leaf Norway Maple)			P18	1.2			
An outstanding variegated Acer cultivar. The light green leaves are softly speckled with a light dusky-pink interspersed with cream. In full sun, Ukigumo tends to turn pink in the upper most exposed leaves. (Deciduous 2.5m)				35L	1.8						25L	2			
Acer pentaphyllum - (Five Finger Maple)				25L	2.2			Acer platanoides “Princeton Gold” - (Golden Norway Maple)			25L	2.5			
Long slim finger like leaflets create a delicate effect. Autumn leaves are yellow. A handsome smaller growing tree. (Deciduous 5m)											35L	2.7			

			Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)				Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)	
Acer pseudoplatanus "Esk Sunset" - (Dwarf Sycamore Maple)				25L	1.7	0.8			Acer rubrum "Autumn Glory" - (Maple)			25L	2.2			
Large pink spring leaves are mottled with white turning deep green through summer. Striking burgundy leaf undersides that should be viewed from beneath. A slow grower. (Deciduous 5m)		35L							2.7							
		45L							2.8							
		60L							2.8							
Acer pseudoplatanus "Leopoldii" - (Sycamore Maple)				35L	2				Acer rubrum "Bowhall" - (Red Maple)			45L	2.8			
Large yellowish/pink spring leaves in summer. They become green and are speckled with cream. A broad growing tree. (Deciduous 6m)		45L		2.2					80L	4						
		Acer pseudoplatanus "Purpureum" - (Sycamore Maple)				35L	3				Acer rubrum "Brandywine" - (Red Maple)			25L	2.4	
Purple leaved with wide spreading branches. Makes a perfect shade tree for animals and as a lawn specimen in larger sized gardens. Withstands moderate coastal and cold winds. Large lobed bronzy green leaves are purple underneath. (Deciduous 6m)		45L	3.5						35L	2.5						
		60L	4						45L	2.6						
		80L	4.5						60L	3.6						
Acer pseudoplatanus "Worley" - (Golden Sycamore Maple)				35L	3				Acer rubrum "Columnare" - (Upright Red Maple)			35L	3			
The three to five-lobed leaves open yellow-green, deepen to golden-yellow, and then mature to green. Happy in almost any well drained soil, tolerates drought & salt spray. Great lawn or park tree. (Deciduous 10m)		45L							3							
		Acer pseudosieboldianum - (Korean Maple)				25L	1.2				Acer rubrum "Red Sunset" - (Red Sunset Maple)			35L	3	
Upright growing small tree which broadens with maturity. Attractive large green leaves are deeply lobed. Purple winged flowers in spring are a feature. Stunning autumn colours of glowing orange and red. Grow in sun or semi shade. Protect from hot, drying winds. (Deciduous 5m)		45L	3													
		Acer rubrum - (Red Canadian Maple)				35L	2.8				Acer rubrum x freemanii "Jeffersred" - (Freeman Maple)			25L	2.2	
Large shining dark green leaves turning a rich scarlet red in autumn. Reddish twigs, branchlets and buds. Red spring flowers on naked branches. Large growing tree perfect for streets, parks or large gardens. (Deciduous 10m)		80L	4						35L	2.5						
		Acer rubrum "Armstrong" - (Upright Red Maple)		35L	3				Acer saccharinum - (Silver Maple)			P28		2.2		
Narrow columnar or fastigiate form. Ideal for avenues, streets and berms. Silvery bark is a feature. Also the red flowers on bare branches in spring. Red, orange and yellow autumn leaves over a long period. (Deciduous 10m)				45L	3.5				Light green lobed leaves with silvery underneath. Leaves look lovely when ruffled by the wind. Orange, scarlet and yellow autumn leaves. Open vase shaped, rapid growing tree. (Deciduous 15m)			25L		2.8		
							35L	3								
								45L				3.5				

								Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)			
Acer saccharum - (Sugar Maple)			P28	1.2											
Source of maple sugar. Large green lobed leaves with spectacular autumn leaves in cold regions of red, orange and yellow shades. Compact crown with upswept branches. (Deciduous 10m)			25L	2											
			35L	2.2											
			45L	2.5											
Acer shirasawanum "Autumn Moon" - (Full Moon Maple)															
Apricot orange spring leaves that are yellow through summer. Autumn leaves are orange and yellow. Grow in full sun for best colouring. Hardy and vigorous grower. (Deciduous 4m)			25L	1.2											
			AESCULUS (CHESTNUT)												
Aesculus carnea - (Pink Horse Chestnut)			45L	2.8											
Round headed and wide growing tree with large dark green fan shaped leaves. Giant pink candles in late spring. Inedible glossy brown nuts in autumn. Great as a shade, avenue or paddock tree. (Deciduous 7m)			60L	3											
			80L	4											
			200L	4.2											
Aesculus carnea "Briotii" - (Red Horse Chestnut)			25L	2.2											
A compact grower with large dark green fan shaped leaves. Giant red candles in late spring. Great as a shade, avenue or paddock tree. (Deciduous 6m)			35L	2.2											
			45L	2.2											
			60L	2.2											
Aesculus hippocastanum - (Horse Chestnut)			25L	1.8											
A tall stately tree with a wide crown. Large deep green fan shaped leaves with giant white candles in late spring. Produces inedible glossy nuts in Autumn. Great in large gardens, parks and paddocks. (Deciduous 15m)			45L	2											
			60L	2.8											
			200L	3.8											
Aesculus hippocastanum "Baumannii" - (Horse Chestnut)															
A smaller compact grower with large dark green fan shaped leaves and giant double white candles in spring. Does not set seeds. Perfect as a shade, avenue and paddock tree. (Deciduous 8m)			35L	1.8											

				Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)	
Aesculus indica - (Indian Horse Chestnut)			80L	3.5					
Large beautiful leaves that are bronze in spring, turning green. Frilly white flower panicles in early summer. Flowers flushed pink, spotted yellow. Magnificent large growing shade tree. (Deciduous 15m)									
Aesculus neglecta "Erythroblastos" - (Yellow Horse Chestnut)			160L	3.5					
Amazing spring leaves of shrimp pink that age to pale yellow/green later. Slow growing small tree. Protect from strong winds. (Deciduous 5m)									
Aesculus turbinata - (Japanese Horse Chestnut)			35L	2					
Huge fan shaped leaves. Large red spotted white panicles. Flowers in late spring. Pear shaped, smooth, inedible nuts. Great as a large shade tree. (Deciduous 15m)			45L	2.5					
			Agathis australis - (Kauri)			25L	2		
Slender, pyramidal tree. Although Kauri trees attain a broad size with age they will suit a confined space for up to 80 years before broadening out. Will tolerate moderate frosts heavy clay soils. Juvenile form with brown leaves lasts around 7 years before changing to green. (Native Evergreen 6m)			45L	2					
			Agathis robusta - (Queensland Kauri)			45L	2.2		
Erect pyramidal tree. Young leaves a bronze colour. Larger leaves than our native Kauri, fast grower in warmer climates. (Evergreen 10 - 15m)									
Agonis flexuosa "After Dark" - (Willow Myrtle)			60L	2.4					
Burgundy to purple coloured narrow leaves. This shrubby small tree becomes semi-weeping. Tolerates dry/poor soils. Small white flowers in early summer. Excellent as a container plant. Looks best contrasted with silvery foliage. (Evergreen 4m)									
Albizia julibrissin "Red Silk" - (Red Silk Tree)			25L	2					
Carmine red, silky fragrant summer flowers, with ferny leaves, on wide spreading branches. Makes a great small shade tree. Tolerates heat and drought. (Deciduous 5m)			35L	2.2					
			45L	2.4					
			60L	2.5					

							Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)
Albizia julibrissin “Rosea” - (Pink Silk Tree)			35L	2							
Silky pink, fragrant summer flowers, with ferny leaves on wide spreading branches. Perfect small shade tree that tolerates heat and drought. (Deciduous 5m)			45L	2.5							
Albizia julibrissin “Summer Chocolate” - (Purple Silk Tree)			SOLD OUT FOR 2019								
Rich chocolate burgundy leaves, with silky pink fragrant flowers. Ferny leaves on wide spreading branches. Perfect as a small shade tree. (Deciduous 3m)											
Alectryon excelsus - (Titoki, NZ Oak)			35L	2.2							
An upright grower with a small rounded head. Glossy olive green pinnate leaves. Shiny black seeds emerge from scarlet fruit during summer. Attractive to seed eating birds. Tolerates light frosts. Great shade tree. Excellent street tree. (Native Evergreen 7m)			45L	2.7							
			60L	2.9							
			80L	3							
											
Alnus cordata - (Italian Alder)			25L	2							
Shining heart shaped green leaves. A quick growing upright form. Will grow in moist swampy soils, useful for erosion control. Great as a street or shade tree. (Deciduous 12m)			45L	3.5							
			60L	3.3							
			200L	4.5							
Alnus glutinosa - (Black Alder)			P28	2							
Pyramidal form. Most salt tolerant of all Alders, will thrive in very wet areas. Vigorous quick grower. Excellent as a shelter tree. (Deciduous 15m)											
Alnus glutinosa “Barbata” - (Turkish Black Alder)			35L	3							
Vigorous broadly conical tree. A tree for wet and windy sites with timber and firewood uses. (Deciduous 20m)			60L	3.5							

							Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)
Alnus glutinosa “Imperialis” - (Cut-leaved Alder)			35L	3							
Elegant small tree with outspreading branches. Fine and deeply cut green leaves. Tolerant of wet soils. Looks great planted next to water. (Deciduous 6m)			60L	5							
Alnus glutinosa “Laciniata” - (Cut-leaved Black Alder)			SOLD OUT FOR 2019								
Conical growing tree with finely cut green leaves. Tolerates wet and windy sites. (Deciduous 8m)											
Alnus incana "Aurea" - (Golden Alder)			60L	3.2							
Aurea is a large, conical, deciduous tree with yellow-green leaves. Conspicuous male catkins, to 10cm long, appear in spring. The smaller female catkins are followed by small, cone-like fruit that turn dark brown in autumn and persist into winter . (Deciduous 8 - 12m)											
Alnus jorullensis - (Evergreen Mexican Alder)			45L	2							
A very fast growing evergreen. Long green leaves are toothed. Can easily pruned to any shape. Papery pale grey bark. Excellent as a dense screen. (Evergreen 6m)			80L	3.5							
Alnus rubra - (Red Alder)			25L	3							
Slender pyramidal form. Red buds reveal green catkins in spring. Green leaves are greyish beneath. Hardy. Tolerates moist soils. (Deciduous 10m)			60L	4.5							
Alnus subcordata - (Caucasian Alder)			35L	2							
The flowers are catkins, with the male catkins being very slender, 8 - 15 cm long, and the female catkins small, maturing into a woody cone-like fruit 2 - 3 cm long. (Deciduous 15 - 25m)			45L	4.5							
			60L	4							
			80L	4							
Amelanchier canadensis - (Shad Bush)			35L	2.8							
Small neat tree with rounded head. Bronze new spring leaves turning stunning red in autumn. Lacy white drooping racemes in spring. (Deciduous 4m)											

							Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)								Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)
Araucaria columnaris - (Cook Island Pine)			45L	3					Astelia nervosa “Westland”				SOLD OUT FOR 2019										
Short horizontal branches grow in tiers to form a slender spire like crown. Great in urban areas where it will grow tall to frame multi-storey buildings but remain extremely narrow. For frost free areas. Excellent for our coastal regions. (Evergreen 20m)																							
Araucaria heterophylla - (Norfolk Island Pine)			45L	1.7					Azara microphylla - (Vanilla Tree)				P28	1.2									
Stately erect tree with a pyramidal form. Ideal hardy coastal tree. Enduring tree for large spaces. Can be kept small in a container. (Evergreen 10m)			60L	2.2						Large dense shrub with arching branches and small glossy dark green leaves. Small vanilla scented greenish spring flowers. Can be shaped into a dense screen. Branches can be espaliered. (Evergreen 3m)													
Arbutus canariensis - (Canary Islands Madrone)			P28	1.6					Bambusa gracilis - (Fairy Bamboo)				25L	1.5									
This tree has bold foliage to 15cm long, and large upright pannicles of white bell shaped flowers throughout the year, followed by red strawberry like fruit. Like gum trees the bark is smooth and sheds annually. Wind and heat tolerant, (Evergreen 6 - 9m)									A beautiful tidy upright bamboo with bright green long fine leaves. This plant will form a clump but does not sucker, great for privacy screens or as feature plantings. The smooth clean culms, lush green foliage and general hardiness has earned this bamboo a spot as one the most popular bamboo species. (Evergreen 3m)														
Arbutus unedo - (Irish Strawberry Tree)			P28	1.5					Banksia integrifolia - (Coastal Banksia)				25L	2									
Large shrub or small tree. Very hardy to adverse conditions including coastal, heat and cold conditions. Small white flowers in spring followed by orange strawberry-like fruit in autumn and winter. Birds love the fruit. (Evergreen 4m)			25L	1.4						Hardy, upright grower when smaller to become open spreading habit. Quick growing and coastal hardy. Large yellow brush flowers from autumn to winter attract tuis and bellbirds. Great for shelter. Can be pruned to any shape and size. (Evergreen 8m)													
Aristotelia "Abigail Gordon" - (Wineberry)			SOLD OUT FOR 2019						Beilschmiedia taraire - (Taraire)				P28	1.8									
Robust, glossy and green-leaved evergreen shrub with pink spring flowers and pink to dark burgundy fruit in fall. Compact form. Full sun in coastal gardens and semi-shade inland. (Deciduous 4m)									Stately, erect tree with smooth brown bark. Young shoots are covered with fine brown hairs. Broad leathery olive green leaves are heavily veined and glossy. Prefers moist soil and tolerates light to medium frosts. Wood Pigeons adore the large purple berries in autumn. (Native Evergreen 8m)														
Aristotelia "Jessie Cockburn" - (Wineberry)			25L	1					Beilschmiedia tawa - (Tawa)				SOLD OUT FOR 2019										
Compact, semi-deciduous native shrub, with rounded habit. Glossy, light green leaves. Produces profuse quantity of pink to dark wine coloured fruit held within the foliage. Attractive, tidy garden specimen, and good for mass landscape plantings. (Deciduous 4m)									A slow growing but enduring tree which ultimately becomes a forest giant. Erect grower with almost black bark. The small pale green willowy leaves hang in a graceful habit. Prefers moist soil and tolerates light to medium frosts. Wood Pigeons adore the large purple berries in winter. (Native Evergreen 8m)														
Astelia chathamica - (Silver Spear)			P18	0.3																			
Ornamental clump-forming plant with broad spiky, silvery-green leaves which droop at their tips. Easily grown in full sun or semi-shade. Will tolerate both moist and dry sites. Dramatic in group plantings. Coastal hardy. Excellent in containers. (Native Evergreen 1.5m)			45L	0.8

 <div>BETULA (BIRCH)</div>																																			
Betula costata - (Korean Birch)								35L	2.8																25L	2.8									
A very distinctive tree with a strong pattern of horizontal striations on the bark which is creamy pinkish to orange. Upright growth habit. Bright green leaves with conspicuous veining. Golden autumn leaves. (Deciduous 8m) 								45L	3																35L	3									
Betula ermanii - (Erman's Birch)								SOLD OUT FOR 2019																											
A graceful vigorous tree with creamy-white and pinkish bark. This imparts a warm hue among darker evergreen trees especially through the winter months. Bright green leaves turn bright yellow in autumn. Conical upright grower which broadens with age. (Deciduous 6m) 																																			
Betula ermanii "Polar Bear" - (Erman's Birch)								SOLD OUT FOR 2019																											
Very white trunked birch which has peeling bark. Green leaf turning butter yellow in autumn. Tidy smaller growing birch. (Deciduous 4m) 																																			
Betula nigra - (River Birch)								25L	2.2																	35L	3.1								
One of the best trees for planting in wet areas. Becomes a strong pyramidal form with distinctive pinkish orange shaggy bark which flakes and curls. Glossy green leaves are glaucous underneath. They turn bright yellow in autumn. (Deciduous 10m) 								80L	4																										
Betula nigra "Heritage" - (River Birch)								35L	2																	35L	3								
Becomes a graceful small tree with pendant branches. Shiny deep green leaves turn yellow in autumn. It bears long striking male catkins in late winter. The silvery white and pinkish shaggy bark flakes and curls. Thrives in both moist and dry position. (Deciduous 10m) 								45L	2.5																										
Betula nigra "Summer Cascade" - (Weeping River Birch)								35L	2.2																	80L	3.5								
A cutting grown selection of the river birch. Great for planting in wet areas. Green leaves turn bright yellow in autumn. (Deciduous 10m) 								45L	2.4	1.5																200L	4	1.6							

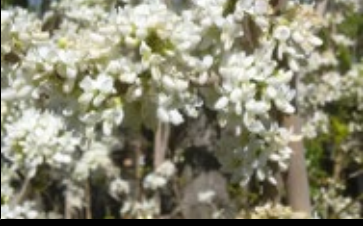

Betula nigra "Uru Tawhai" - (River Birch)								
A cutting grown selection of the river birch. Great for planting in wet areas. Green leaves turn bright yellow in autumn. (Deciduous 10m) 				25L	2.8			
Betula papyrifera "Commutata" - (Western Paper Birch)				SOLD OUT FOR 2019				
One of the largest and fastest growing Birches with an open but less weeping form than silver birches. Smooth white bark peels in layers. Bright yellow autumn leaves. A magnificent specimen subject as a solitary specimen, in groves or avenues. (Deciduous 9m) 								
Betula pendula "Alba" - (Silver Birch)				45L	3			
This is a highly rated birch for its prominent white trunk, lacy leaf texture and graceful pendulous branches. The white trunks develop black fissures with age. The glossy green leaves turn yellow in autumn. Lovely as group plantings. (Deciduous 8m) 				60L	3.3			
				80L	3.6			
				100L	4			
Betula pendula "Black Prince" - (Purple Birch)				SOLD OUT FOR 2019				
Small narrow growing tree with cascading slender branches. The rich purple leaf colouring holds well through the season. Almost black stems and branches are an added feature. Protect from strong winds. (Deciduous 4m) 								
Betula pendula "Dalecarlica" - (Cut-Leaf Birch)								
This Birch has the same graceful habit of the Silver Birch but with more cascading branches. The rich green leaves are deeply cut and serrated giving the tree a light dainty effect. White trunks are a feature on mature trees. Less tolerant of long dry spells. (Deciduous 8m) 				35L	3.1			
Betula pendula "Wades Gold" - (Golden Branch Birch)								
A compact upright birch with lime green leaves through the summer. Brilliant gold autumn leaves. Branch stems are gold changing to pink-red through winter. Develops very white trunks. Excellent planted in groups or as an avenue. Excellent street tree. (Deciduous 5m) 				35L	3			
Betula pendula "Youngii" - (Young's Weeping Birch)				80L	3.5			
Forms a dome of slender weeping side branches which will droop down to the ground from a straight trunk. Small green leaves turn yellow in autumn. (Deciduous) 				200L	4	1.6		

							Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)		
Betula platyphylla "Japonica" - (Japanese White Birch)			P28	2.4				160L	2.2				
This lovely birch has a slender weeping form like the silver birch but with larger more substantial leaves which turn bright yellow in autumn. Very white bark right down to ground level is maintained into old age. Rust resistant leaves. (Deciduous 8m)			25L	2.6				200L	2.4				
			35L	3				400L	3.2				
			45L	3				1000L	3.7				
Betula utilis "Jacquemontii" - (Himalayan Birch)			P18	1.5				25L	1				
Lovely birch with dazzling white powdery bark from top to toe and maintained into old age. Peeling white bark. Neat erect growth habit. Large tapering dark green leaves turn bright yellow in autumn. (Deciduous 7m)			25L	2.5									
			35L	2.8									
			45L	3									
Betula utilis "Jacquemontii Dazzler" - (Himalayan Birch)			60L	3.3			CALLISTEMON (BOTTLEBRUSH)						
This birch is produced from tissue culture so all trees grow uniform and identical. Dazzling white bark on the stems and trunks is maintained into old age. An erect tidy grower. Large green leaves turn bright yellow in autumn. Good for group plantings. (Deciduous 7m)													
		Betula utilis "Jermyns" - (Himalayan Birch)			45L	3				25L	2.3	1.3	
A vigorous medium sized broadly conical tree. Attractive pinky and coppery brown bark which peels in horizontal papery flakes. Dark green leaves turn golden yellow in autumn. (Deciduous 8m)		60L	3.5										
		Betula utilis "Silver Shadow"			35L	2.7				35L	2.2	1	
A medium-sized deciduous tree with a conical crown and clear white bark on trunk and branches. Leaves oval dark green and drooping, turning yellow in autumn. Male catkins conspicuous in early spring, to 15cm in length. (Deciduous 6m)		45L	3				45L	2		1			
		Betula "Whitespire" - (Whitespire Birch)			45L	3				P28	1.6		
This is a grafted birch so all trees grow uniform and identical. The most narrow growing of all Birches. Perfect as a street tree, for avenues or where space is limited. Dazzling white bark from ground level which is maintained into old age. Yellow autumn leaves. (Deciduous 6m)		60L	3.5				25L	2		1			
		Brachychiton acerifolius - (Illawarra Flame Tree)			SOLD OUT FOR 2019							P28	1.1
Becomes a tall stately upright tree with a spreading crown. Large glossy lobed leaves like a maple are a feature. Leaves drop in spring prior to flowering to reveal vivid scarlet bells in hanging trusses. Flowers best in hot, dry climates. (Evergreen 10m)													

		Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)			Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)	
Callistemon "Red Alert" - (Bottlebrush)			35L	1.2				Camellia "Fairy Blush" - (Hybrid)			25L	1.2		
A unique bottlebrush with vivid new red growth for two months in autumn and two months in spring, with lighter new red growth for even more months. An alternative to Photinia that requires less pruning, is very drought and frost tolerant, thrives in windy situations and suits most soil. (Evergreen 2m)							A profusion of deep pink buds open to single white blushed pink around the edges. Strongly scented. Flowers from late autumn to early Spring. Makes a superb small hedge. Full sun or semi-shade. (Evergreen 1.8m)							
Callistemon "Red Cluster" - (Bottlebrush)			25L	1.3				Camellia "Fox's Fancy" - (Hybrid)			25L	1.4		
A vigorous rounded form with pink new shoots. A profusion of crimson red brushes in spring with a second flowering in autumn. Flowers attract nectar seeking birds. Drought tolerant once established. (Evergreen 2.5m)							Large double deep red flowers with creped petals. Flowers winter into spring. Full sun or semi-shade. (Evergreen 2m)							
Callistemon "Western Glory" - (Bottlebrush)			25L	1.6				Camellia "High Fragrance" - (Hybrid)			25L	1.3		
Erect growing bushy shrub or small tree. Pink new shoots mature into slender leathery leaves. Large heads of deep red flowers during late spring into summer. Flowers attract nectar seeking birds. Coastal and drought hardy. (Evergreen 2.5m)							Large peony form. Salmon pink buds open paler and fade to almost white. Delicious spicy fragrance. Flowers for a long period from mid-winter till mid-spring. Vigorous upright grower. (Evergreen 2.5m)				45L	1.6		
							Camellia "Hiryu" - (Sasanqua)			SOLD OUT FOR 2019				
Camellia "Cinnamon Cindy" - (Hybrid)			25L	1.3				Camellia "Kramer's Beauty" - (Japonica)			25L	1.3		
Miniature flowers are semi-double to rose form. A profusion of pink buds open paler. Spicy fragrance. Flowers mid to late season. Strong upright grower, excellent for narrow spaces. (Evergreen 2m)							Deep red buds open to magnificent peony-like, rosy-red flowers with a delightful fragrance. The mid-season blooms create a dazzling contrast against the glossy, dark green foliage, brightening lightly shaded settings. Stunning in woodland borders and foundation plantings, or as a hedge. (Evergreen 2.5m)							
Camellia "Debutante" - (Japonica)			25L	1.2				Camellia "Les Jury" - (Hybrid)			25L	1.2		
Abundant, large, light pink, peony style blooms make a delightful contrast to the glossy, dark green leaves. Erect growth. This shrub also makes a great hedge or privacy screen, blocking out unsightly areas. (Evergreen 2.5m)							Large formal rose to peony form. Deep crimson red flowers over a long period. Mid to late flowering season. Upright vigorous grower. Excellent hedge plant. Flowers drop cleanly. (Evergreen 3.5m)				35L	1.8		
Camellia "Early Pearly" - (Sasanqua)			25L	1.8				Camellia "Mark Allen" - (Hybrid)			25L	1.1		
Small formal double flowers. White with a tinge of pink. Early flowering. Upright growth habit. (Evergreen 2m)			35L	1.7			Large rose to wine red semi-double flowers from late autumn to late winter. Very free flowering. Full sun or semi-shade. (Evergreen 2.5m)							

			Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)				Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)
Camellia "Mine-no-Yuki" - (Hybrid)									Camellia "Superstar" - (Japonica)						
Bears elegant, snow-white double blooms up to 7cm wide, with orange anthers & golden filaments scattered among the petals. It is a medium-sized evergreen shrub which enjoys an upright, willowy habit with arching cascading branches. (Evergreen 1.8 - 2m)			P28	1.3					A pure white semi-double flower with prominent stamens. Weather hardy. (Evergreen 2m)			25L	1.2		
Camellia "Otome-Sazanka" - (Sasanqua)									Camellia "Takanini" - (Japonica)			SOLD OUT FOR 2019			
Large semi-double pure pink flowers over a long from early autumn. A hardy grower, excellent for hedging and screens. (Evergreen 3m)			25L	1.3					Glowing deepest red medium sized anemone formed flowers. One of the first Camellias to flower in the season and still flowering right at the end of the season. Slight fragrance. Strong, bushy but narrow grower. (Evergreen 2.5m)						
Camellia "Rainbow" - (Sasanqua)									Camellia "Tom Knudsen" - (Japonica)						
A medium sized specimen with a strong upright habit. Exceptional tolerance to the cold weather with fragrant flowers. Even though the flowers are smaller than other varieties it makes up for it with the quantity they produce. (Evergreen 2.5m)			25L	1.3					Dark red with deeper veining. Easy to mid season flowering. Formal form. Compact upright grower. (Evergreen 2.5m)			25L	1.3		
Camellia "Roger Hall" - (Japonica)									Camellia "Transnokoensis" - (Species)						
A beautiful formal double red. The flowers contrast well against the handsome glossy green foliage. Outstanding performer which will make a strong statement either in the garden or a container. Happiest in semi-shade with acid soil. (Evergreen 2.5m)			25L	1.2					A dense foliated bush with an upright form. Excellent for screening. A mass of small white single flowers from red buds smother the bush in late winter. Hardy and vigorous. (Evergreen 1.8m)			25L	1.3		
Camellia "Ruby Wedding" - (Japonica)									Camellia "Transtasman" - (Hybrid)						
Large bright red frilly flowers of anemone and peony form. These are very showy and contrast against the large glossy deep green leaves. Flowers from late winter into spring. Dense compact grower with a pyramidal form. (Evergreen 1.8m)			25L	1.3					Masses of tiny pure pink flowers opening from red buds, slightly fragrant. Small leaves with bushy habit. (Evergreen 2.5m)			25L	1.3		
Camellia "Setsugekka" - (Sasanqua)			P28	1					Camellia "Yuletide" - (Sasanqua)						
Medium sized semi-double flowers of purest white. Slight fragrance. Flowers early to mid-season. Upright vigorous grower with deep green leaves. Excellent for hedges. (Evergreen 2.5m)			25L	1.4					A species of Camellia native to China and Japan. It is usually found growing up to an altitude of 900 metres. (Evergreen 5m)			35L	1.6		
Camellia "Spring Festival" - (Hybrid)									Carpinus betulus - (Common Hornbeam)			P28	1.2		
Pure pink miniature rose to semi double flower form. Flowers profusely from mid winter to early spring. Narrow upright grower with dense foliage. (Evergreen 2m)			25L	1.3					Strong pyramidal form. The rich green leaves are heavily ribbed. Yellow/orange autumn leaves then brown through winter. Excellent as a hedge. Very popular for pleaching. (Deciduous 12m)			25L	1.6		
												35L	2.3		
												45L	3		

		Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)			Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)	
Carpinus betulus "Fastigiata" - (Upright Hornbeam)														
A medium sized tree of upright pyramidal form, quite narrow while young. Becomes broader upon maturity. Excellent avenue and street tree. Yellow and orange autumn leaves. Leaves are dropped cleanly end of autumn. Very hardy. (Deciduous 8m)			35L	2.5										
			45L	2.8										
			60L	3										
			80L	3.4										
Carpinus japonica - (Japanese Hornbeam)														
A small tree or wide spreading shrub with beautiful elongated corrugated green leaves. Lime green catkins hang from the branches in early spring along with the newly emerging leaves. Orange and yellow autumn leaves. (Deciduous 10m)			45L	2.5										
Carpodetus serratus - (Putaputaweta, Marbleleaf)														
An attractive small tree or large bush with spreading branches and a flat top. Juvenile leaves are brownish while the adult leaves are larger, dark green with lighter marbling. A profusion of small white summer flowers. Prefers moisture. (Native Evergreen 5m)			P28	1.4										
			35L	1.8										
Castanea sativa - (Spanish Chestnut)														
Forms a tall stately tree with wide spreading branches. Great shade tree for wide open spaces. Deep glossy green leaves with sharply toothed margins. Self-fertile. Prickly burrs fall in autumn to open and spill out up to three shiny brown. (Edible Deciduous 15m)			80L	3.6										
Castanea sativa "1005" - (Edible Chestnut)														
Commercial fruiting variety. Large red brown nuts fall free of the burr. A heavy cropper bearing early in the season. Strong upright grower. Self-fertile. (Edible Deciduous 10m)			45L	3										
			60L	3.3										
Catalpa bignonioides - (Indian Bean Tree)														
Upright growing lawn and avenue tree with tropical appearance. Big green heart shaped leaves. Late spring it has huge clusters of trumpet flowers displayed in erect clusters. Long bean shaped capsules through summer. (Deciduous 8m)			SOLD OUT FOR 2019											
Cedrela sinensis "Flamingo" - (Chinese Toon)														
The slender erect branches bear pinnate leaves of rich warm pink in early spring. Leaves become creamy pink and mature to green by summer. Can be halved in height or pruned to the ground to encourage a profusion of new stems. (Deciduous 4m)			80L	3.3										
Cedrus atlantica "Glauca" - (Blue Atlas Cedar)														
Upright stately tree with silvery blue needles. Large growing variety. (Evergreen 8m)			P18	1.4										
Cedrus atlantica "Glauca Pendula" - (Blue Atlas Cedar)														
An imposing weeping conifer with curtains of silvery blue foliage cascading from a dome shaped crown. Stake initially to get the height required before allowing to weep to the ground. (Evergreen 3m)			SOLD OUT FOR 2019											
Cedrus deodara - (Himalayan Cedar)														
An upright growing conifer with a strong pyramidal form. The evenly spaced branches are gracefully pendulous at their tips giving a soft appearance but shaped this way to shake off snow. The blue grey needles are generously frosted. (Evergreen 8m)			25L	1.2										
			60L	2										
Celtis australis - (European Nettle)														
A straight-trunked tree with a smooth grey trunk. Small beautiful green leaves. A popular city street tree with its upright form. Tolerant of drought and winds. (Deciduous 12m)			45L	3										
Cercidiphyllum japonicum - (Katsura Tree)														
Tolerates wet positions and prefers moist conditions. Purplish pink new leaves and stems. Leaves become bluish-green turn bright orange/pink/purple/scarlet through autumn. Leaves smell like burnt toffee when freshly fallen. (Deciduous 7m)			45L	3.5										
			60L	4										
Cercidiphyllum japonicum "Pendulum" - (Katsura Tree)														
The same tree as above but this one has pendulous weeping branches. A great specimen tree as a feature in your garden. Leaves smell like burnt toffee when freshly fallen. (Deciduous 4m)			35L	2.4	1.8									
			45L	2.5	1.8									
Cercis canadensis - (Eastern Redbud)														
Attractive pink pea-like flowers in clusters along the branches. Broadly spreading. (Deciduous 5 - 10m)			80L	3.3										

		Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)			Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)	
Cercis canadensis "Forest Pansy" - (American Redbud)		25L	2.2					Cercis siliquastrum "Alba" - (Judas Tree)						
Small, round-headed tree with large heart shaped leaves of glowing purple. Leaves turn glowing orange and red in autumn. Mass of pale rose-pink pea shaped flowers on bare branches in spring. Branch patterning in winter is very oriental in appearance. (Deciduous 3.5m)			35L	2.3				A small deciduous tree, noted for its prolific display of deep-pink flowers in spring. The entire tree becomes clothed in pea shaped white flowers. (Deciduous 4m)			45L	2		
Cercis canadensis "Hearts of Gold" - (Golden Redbud)		25L	1.7					Cercis "Texas White" - (Texas Whitebud)						
Small round headed tree with large heart shaped leaves which in spring are golden bronze. Autumn colours are bright yellow/orange. Bare branches in spring are smothered in pale rose-pink flowers. (Deciduous 3m)			45L	1.9				Forms a small round headed tree with large handsome heart shaped leaves of shining green. They turn bright yellow in autumn. A profusion of pure white pea-shaped flowers stud the bare branches in spring. (Deciduous 4m)			35L	2.1		
Cercis canadensis "Merlot" - (Eastern Redbud)		35L	2.2					Chamaecyparis pisifera "Boulevard" - (Blue Moss Cypress)						
Noted for its dark foliage and excellent tolerance to drought and heat. A compact deciduous tree with an upright, dense, vase-shaped habit. This dwarf Eastern Redbud adds elegance to any space, including small gardens. (Deciduous 3m)			45L	2.5				Dense growing pyramidal large shrub with silvery blue leaves which are soft to touch. Outstanding colour and form. (Evergreen 2m)			60L	3		
Cercis canadensis "Ruby Falls" - (Weeping Redbud)		25L	1.1					Chimonanthus praecox - (Wintersweet)			SOLD OUT FOR 2019			
Noted for its unique weeping habit, award-winning Ruby Falls is a compact deciduous tree with profuse pea-like, dark rose flowers that arise before the foliage turns burgundy before maturing to green in late summer. (Deciduous 2m)			35L	1.8				Becomes a multi-stemmed bushy shrub. Bare branches are studded with sulphur yellow flowers mid-winter. These exude the most delicious fragrance of spice and violets. Branches can be picked and taken indoors. Grows best in cold climates and dry summers. Yellow autumn leaves. (Deciduous 2.5m)						
Cercis canadensis "Silver Lining" - (Eastern Redbud)		35L	2.2					Chionanthus retusus - (Chinese Fringe Tree)			45L	2.4		
A tree with variegated foliage. One of the few white spotting shrubs that grows at the sun. Produces many violet flower clusters during spring. This tree is hardy and loves the rich and draining soils. (Deciduous 3m)								Broadly spreading tree. Snow white flowers in summer, male & female on separate trees - followed by deep blue berries on female trees. Rare in NZ. (Deciduous 5m)						
Cercis canadensis "Spring Snow" - (Chinese Redbud)		25L	1.5					Cinnamomum camphora - (Camphor Tree)			60L	2.4		
White flowered Chinese Redbud. Large rich green heart shaped leaves. Masses of white flowers stud the bare branches in early spring. Compact grower. Ideal for the smaller garden. (Deciduous 3m)								A large growing shade tree with a very picturesque form. Pink new leaves contrast against the paler leaves. Smooth bark. All parts of the tree exude a camphor fragrance. Tolerates drought once established. (Evergreen 9m)						
Cercis chinensis "Avondale" - (Chinese Redbud)		25L	1.6											
Dwarf large shrub or small upright growing tree. Large light green heart shaped leaves turn bright yellow in autumn. A profusion of deep cerise pink pea shaped flowers stud the bare branches for an extended period in early spring. Ideal for small spaces. (Deciduous 2.5m)			35L	2	1.6									

						Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)
<div>CITRUS</div>										
<div>Citrus grapefruit "Golden Special" - (Grapefruit)</div>										
NZ-bred with juicy sweet and tangy thin skinned fruit. Few seeds. Heavy bearer which forms a large bushy tree. Cold tolerant. (Edible Evergreen 1.8m)			SOLD OUT FOR 2019							
<div>Citrus lemon "Meyer" - (Lemon)</div>			25L	1.1						
The most popular lemon for home gardens. Cold hardy and quick to commence fruiting, low spreading growth habit which will make a large bush. Large fruit has a high juice content with lower acid level than other varieties. Excellent for containers. (Edible Evergreen 2.5m)			35L	1.2	0.9					
			35L	1.3	1.1					
			45L	1.1						
<div>Citrus lemon "Yen Ben" - (Lemon)</div>			45L	1.3						
This is an improved version of Lisbon lemon with a compact growth habit. The large oval fruits are tangy and considered excellent for culinary use. Bears through winter with few seeds. One of the hardiest lemons. (Edible Evergreen 2.5)										
										
										
<div>Citrus "Lemonade" - (Lemonade)</div>			45L	1.3						
A bit like a lemon with pale yellow look alike fruit. Juicy fruit has a mild, fresh grapefruit like flavour. Very refreshing to eat off the tree. A heavy cropper over winter with fruit through the rest of the year. Excellent for containers. (Edible Evergreen 2m)										
										
										
<div>Citrus lime "Bearss" - (Persian Lime)</div>			25L	1						
A heavier bearing selection of Tahitian lime which is cold hardy. Upright bushy grower. Prolific crops of large sized fruit start green but are ready when the fruit changes to pale yellow. Crops through winter. Has a high juice content. (Edible Evergreen 2m)										
										
										
<div>Citrus lime "Sublime" - (Persian Lime)</div>			25L	1						
Grows more compact and is virtually thornless. In a large pot, reaches around 1.5m x 1m creating the ultimate productive pot plant. (Edible Evergreen 1.5m)										
										
										

						Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)
<div>Citrus lime "Tahitian" - (Lime)</div>										
The most cold hardy Lime for home gardens and quick to commence fruiting. Upright bushy grower. Prolific crops of large sized fruit start green but are ready when the fruit changes to pale yellow. Crops through winter. Has a high juice content. Excellent for containers. (Edible Evergreen 2m)			P28	0.8						
		35L	1.5	1.2						
<div>Citrus mandarin "Miho" - (Mandarin)</div>										
A superior easy peel Satsuma selection with an upright spreading growth habit. Sweet and juicy. Fruit ripens through June, July and August. Excellent for containers. (Edible Evergreen 1.5m)			25L	1						
										
<div>Citrus mandarin "Satsuma" - (Mandarin)</div>										
Easy peel, cold hardy Satsuma mandarin with heavy crops of juicy, mild flavoured seedless fruit. Slower growing and well suited to growing in containers. Very early to ripen. (Edible Evergreen 4m)			25L	1.2						
										
<div>Citrus mandarin "Silverhill" - (Mandarin)</div>										
An early ripening mandarin that has thick skinned, easy peel, sweet, and juicy fruit with segments that easily separate. This variety grows well in cooler areas. (Edible Evergreen 4m)			25L	1						
										
<div>Citrus orange "Carters Navel" - (Orange)</div>										
A sweet and juicy seedless variety of excellent flavour. Remaining juicy for 2 - 3 months if left on the tree. Ripens in August. (Edible Evergreen 2.5m)			45L	1.8						
										
<div>Citrus orange "Fukumoto" - (Orange)</div>										
Sweet juicy seedless fruits. Excellent flavour, ripening in August. Will remain juicy for 2 - 3 months on tree once ripe. Grow in full sun. (Edible Evergreen 2.5m)			45L	1.6						
										
<div>Citrus orange "Harwoods" - (Late Dwarf Orange)</div>										
Produces juicy and flavoursome, thin-skinned Valencia type oranges. A great all round orange that can be either eaten fresh, made into juice, or prefect for marmalade. Suitable for container growing. Fruits from October - April. (Edible Evergreen 1.5 - 2m)			SOLD OUT FOR 2019							
										

		Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)			Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)
Citrus orange "Washington Navel" - (Orange)								Cordyline australis "Albertii" - (Striped Cordyline)					
Popular variety. Medium sized fruit and excellent flavour. (Edible Evergreen 3m)			35L	1.4				A variegated form with green leaves broadly margined with buttery yellow. Just as tough as australis but slower growing and more slender. Particularly lovely as a container plant. (Native Evergreen 2m)			45L	1.9	
Coprosma brockii - (Taupata)								Cordyline australis "Jive" - (Cabbage Tree, PVR)					
Fast growing tree which clips into a nice hedge or screen. Very hardy plants which grow in most conditions. Attractive glossy dark green/brown leaves and purple undersides. Very adaptable to all conditions including dry and exposed sites. (Native Evergreen 2m)			25L	2				Hardy enough to grow in all situations and climates. Green sword shaped leaves are broadly striped with yellow. Stunning creamy flowers are borne in large panicles in later spring and perfume the air with their sweet fragrance. (Native Evergreen 4m)			P28	0.9	
Coprosma "Inferno" - (Taupata)								Cordyline banksii					
The fiery glossy, orange and red leaves are an absolute eye-catcher in the garden, all year long. In autumn, the leaves change colour to dark red shades. A trouble-free shrub that requires little maintenance. An ideal patio plant. (Evergreen 1.5m)			P18	0.6				Smaller growing species with broad leaves. Clump forming, bushy compact habit often multi branched. Beautiful drooping panicles of fragrant white flowers in Summer. (Native Evergreen 2.5m)			35L	1.2	
Coprosma kirkii "Variegata" - (Taupata)								Cordyline "Broadsword"					
A cascade of weeping branches. Small sage green leaves are edged creamy white. A hardy native which can be pruned to keep compact. Eye catching contrast to lighten up areas. Excellent for containers. (Native Evergreen 3m)			45L	1	0.8			Superb native with very wide, shorter sword-like green leaves and compact habit. This plant adds a great tropical addition to the landscape, a great accent plant. Ideal for containers & gardens of all sizes. (Native Evergreen 2.5m)			25L	0.9	
Coprosma repens - (Taupata)								Cordyline "Renegade" - (Cabbage Tree)					
Thick dark green glossy leaves on a wide spreading small tree. Excellent for coastal planting being extremely tolerant of salt laden harsh winds and drought. Use as a screening plant to shelter more tender plants and to filter out sand. (Native Evergreen 4m)			35L	2.7				A cross between Cordyline australis and banksii resulting in broad leaves of glossy dark purple black. A sturdy grower which matures with multi trunks. Produces panicles of small white fragrant flowers in early spring. Excellent for large containers. (Native Evergreen 3m)			SOLD OUT FOR 2019		
Coprosma virescens													
A divaricating large shrub with a tangle of golden coppery stems and tiny leaves. Very tough and tolerant of poor soil and dry conditions. Makes a superb no-trim fairly narrow growing hedge or screen. (Native Evergreen 2.5m)			SOLD OUT FOR 2019										
Cordyline australis - (Cabbage Tree)													
Excellent landscape plant, suitable for group and specimen planting as well as containers. Hardy enough to grow in all situations and climates. Green leaves form large tufts. The stunning creamy flowers are borne in large panicles in later spring and perfume the air with their sweet fragrance. (Native Evergreen 6m)			25L	1.2									
			35L	1.3									
			45L	1.6

Bears huge flat flowers of creamy white with pink tips Red fruits follow which birds soon gobble up Forms small rounded tree well suited to the smaller garden. Stunning red and maroon autumn leaves. (Deciduous 4m)															
Cornus kousa "National" - (Chinese Dogwood)			25L	2				Corokia x virgata "Bronze King" - (Corokia)			P18	1			
Vigorous large growing shrub or small vase shaped tree. Becomes smothered with large flat four petalled ivory-white broad flowers in early summer. Red strawberry like fruit follows, which birds relish. Spectacular red and purple autumn leaves. Excellent street tree. (Deciduous 4m)								P28			1.1				
Cornus kousa "Satomi" - (Pink Japanese Dogwood)			P28	1.3				Corokia x virgata "Cheesemanii" - (Corokia)			25L	1.2			
Vigorous large growing shrub or small tree. Becomes smothered with large flat four petalled pinkish red starry shaped flowers in early summer. Red strawberry-like fruit follows, which birds relish. Spectacular red and purple autumn leaves. Excellent street tree. (Deciduous 3m)			25L	1.2				Forms a slender erect multi branched shrub with dense interlacing branches. Excellent for screening and hedging. Becomes smothered in spring with bright canary yellow flowers. Very hardy for windy and dry positions. (Native Evergreen 2m)							
Cornus kousa "Southern Cross" - (Japanese Dogwood)			25L	1.3				Corokia x virgata "Emerald and Jade" - (Corokia)			35L	0.9			
Becomes smothered with large flat four-petalled creamy white star shaped flowers in early summer. Red strawberry-like fruit follows, which birds relish. Red leaves hold well into winter in cooler climates. Excellent for the smaller garden. (Deciduous 2.5m)								45L			1.1				A very compact and tidy grower with green leaves on silvery stems. Starry yellow flowers in summer followed by yellow orange berries. Excellent as a smaller hedge or screen. Drought and coastal hardy. (Native Evergreen 1.2m)

		Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)			Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)	
Corokia x virgata “Frosted Chocolate” - (Corokia)			25L	1				Corynocarpus laevigatus - (Karaka)		35L	2			
Forms a dense erect growing, multi-branched shrub. The large glossy pinkish chocolate coloured leaves are silvery underneath. Becomes smothered in starry bright yellow flowers during spring, red berries in winter which birds adore. Excellent for formal hedging in dry windy positions. (Native Evergreen 2m)			35L	1.1				Handsome upright growing tree with large glossy and leathery deep green leaves. Grows naturally alongside waterways. Tolerates moderate coastal winds, frosts once established and dry conditions. Large orange fruit in late summer is relished by wood pigeons. (Native Evergreen 8m)		45L	2.4			
Corokia x virgata “Geenty's Ghost” - (Corokia)			P28	0.9				Cotinus coggygria - (European Smoke Bush)		SOLD OUT FOR 2019				
A compact dwarf grower with slender, silvery leaves. Clips into any shape so ideal for containers and for edging gardens. Drought and coastal hardy. (Native Evergreen 1m)								Bushy spreading, multi-branched shrub. A great filler to add interest with panicles of smoky coloured flowers in summer and stunning orange-red autumn leaves. Prune heavily in winter to maintain a tidy bushy shape. (Deciduous 3m)						
Corokia x virgata "Geenty's Giant" - (Corokia)			25L	1.2				Cotinus coggyrgria "Golden Spirit"		25L	1.6			
Hardy bushy native. A taller growing variety-excellent for screening with longer green leaves than Geenty's Green. These turn bronze through the winter months. Masses of small yellow daisy flowers followed by red berries. (Native Evergreen 3m)								Lime and golden foliage throughout the summer, which lightens up dark areas and adds contrast. Beautiful autumn foliage of orange and yellow. Best grown in part shade. Keep moist. (Deciduous 3m)						
Corokia x virgata “Geenty's Green” - (Corokia)			P18	1				Cotinus coggygria “Grace” - (Smoke Tree)		25L	1.5			
Forms a dense erect growing, multi-branched shrub. The large glossy green leaves are silvery underneath. Becomes smothered in starry bright yellow flowers during spring, red berries in winter which birds adore. Excellent for formal hedging in dry windy positions. Can be shaped into any form. (Native Evergreen 2m)			35L	1.1				A spectacular hybrid with large leaves. Colour is green with a purple tinge and crimson purple tips. Large conical purplish pink flower clusters are borne in summer. Vivid scarlet red autumn leaves. A strong upright grower with a rounded head. Excellent street tree. (Deciduous 3m)		35L	1.8	1.3		
Corokia x virgata “Mangatangi” - (Corokia)			SOLD OUT FOR 2019						Cotinus coggygria “Red Spirit”		25L	1.2		
Forms a dense bushy mound of fine silvery leaves. Is smothered in starry bright yellow spring flowers, red berries in winter which birds adore. Excellent for a hedge for dry windy positions. Great for containers. Can be shaped in to balls. (Native Evergreen 1.5m)								A large bush or small tree with rounded glaucous blue leaves. Fluffy heads of purple red flowers cover the bush in early summer. Stunning autumn leaves of orange, red and purple. Can trim into any shape or form. (Deciduous 3m)						
Corokia x virgata “Phantom” - (Corokia)			P18	1				Cotinus obovatus - (American Smoke Bush)		25L	2.4			
A dense bushy grower with dark brown leaves through spring and summer. During the colder month the leaves turn jet black. Tolerates dry and windy sites. Perfect for low hedging. Excellent for containers. Excellent for topiary. (Native Evergreen 1.5m)								Vigorous large shrub with green leaves through summer. Amazing autumn colours of red,orange and purple leaves. Plume like pinkish grey flower heads are borne over summer. (Deciduous 4m)						
Corylus columna - (Turkish Tree Hazel)			35L	2.6				Crataegus laevigata “Paul's Scarlet” - (Hawthorn)		25L	2.9	1.2		
Erect conical grower with a very symmetrical branching habit. Produces edible nuts. Tolerates hot dry climates. Excellent street tree. Has corky bark. (Deciduous 10m)			45L	2.6				Small upright tree with a compact rounded head. Impressive heads double bright crimson red flowers smother the tree in late spring. Tolerant of strong winds. Does not set fruit. Excellent street tree. (Deciduous 5m)		35L	2.4	1.2		

		Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)			Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)	
Crataegus laevigata "Rosea Flore Pleno" - (Hawthorn)								Cupressus "Ovensii" - (Cypress)						
Small upright tree with a compact rounded head. Impressive heads of double salmon pink flowers smother the tree in late spring. Tolerant of strong winds. Does not set fruit. Excellent street tree. (Deciduous 5m)			25L	2.5				Grows well in warmer areas. Very fast growing tree with naturally wide spreading branches. Can be easily pruned into a narrow dense screen. Always has fresh green leaves which are soft to the touch. Tolerant of strong winds, but not coastal winds. (Evergreen 10m)			25L	1.6		
			35L	2.4							45L	2.6		
Cryptomeria japonica - (Japanese Cedar)								Cupressus sempervirens "Gracilis" - (Cypress)						
Quickly grows into a tall stately tree. Foliage grows from the ground to become an excellent shelter tree. Lovely enduring specimen tree with perfect pyramidal form. Tolerant of strong winds. (Evergreen 12m)			P28	1.5				Superior NZ-raised form of upright Cypress. The foliage is more refined and threadlike with a fresh green colour. Grows to a tapering point. Grow in well-drained soil, sun or semi-shade. (Evergreen 3m)			25L	1.1		
			25L	1.4										
			35L	2										
			45L	2.5										
Cryptomeria japonica "Egmont" - (Japanese Cedar, PVR)								Cupressus sempervirens "Stricta" - (Italian Cypress)						
Selected form to ensure consistent hedging. Make a good screen or hedge, can be pruned. Very wind hardy. (Evergreen 30m)			25L	1.6				Ancient classical upright trees from the Mediterranean forming a narrow column of greyish green. Occasional pruning will keep the trees in better shape. Coastal and drought tolerant. (Evergreen 4m)			25L	1.2		
			45L	2			35L			1.5				
Cunonia capensis - (Butterknife Tree)							Cupressus sempervirens "Swane's Gold" - (Italian Cypress)				SOLD OUT FOR 2019			
A multi stemmed large shrub or small tree with beautiful lustrous deep green pinnate leaves and wine red branches. Large fragrant white panicles of flowers resembling candles are borne through summer. Ideal for the smaller garden. (Evergreen 4m)			60L	2.5			Slender erect conical grower with golden leaves. Always retains its perfect form without the need for pruning or tying in. (Evergreen 5m)							
CUPRESSUS (CYPRESS)														
Cupressus glabra "Blue Ice" - (Cypress)							Cupressus sempervirens "Totem" - (Italian Cypress)							
Compact pyramidal growing conifer with frosted blue leaves. Very amenable to pruning into any shape or form. Quick growing and hardy to strong winds and drought. Makes an excellent dense shelter (Evergreen 5m)			25L	1.5			Slender erect form with deep green leaves. The smallest grower of the column conifers. (Evergreen 3m)			P28	1.1			
									25L	1.3				
Cupressus "Leightons Green" - (Cypress)							Cyathea smithii - (Soft Tree Fern)							
Very fast growing tree with naturally wide spreading branches. Can be easily pruned into narrow dense screen. Always has fresh green leaves which are soft to touch. Tolerant of moderate costal exposure. (Evergreen 10m)			25L	1.4			The tree-fern that is most tolerant of cold. Has fronds that are thin and soft in texture. (Evergreen 8m)			80L	1.4			
									100L	1.6				
							Cycas revoluta - (Japanese Sago Palm)							
							Frost tender, slow growing. Leaves are a deep semi-glossy green and grow out into a feather-like rosette. Have small protective barbs that must be avoided. (Evergreen 2m)			25L	0.5			

			Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)				Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)									
Dacrycarpus dacrydioides - (Kahikatea, White Pine)				P18	1.6				Elaeagnus ebbingei - (Silverberry)				25L	1.5										
Handsomenarrow growing tree with soft green leaves on semi-weeping branches. Juvenile foliage is a dead brown colour before turning green. Prefers moist situations next to streams, lakes and ponds. (Native Evergreen 8m)				25L	1.6					A tough fast growing bushy shrub. Ideal for screening and hedging. Tolerates drought and salt laden winds. Makes a very tough hedge. Grow in sun or shade. (Evergreen 2.5m)														
				35L	2																			
				45L	2.2																			
Dacrydium cupressinum - (Rimu)				P28	1.4				Eucalyptus cinerea - (Silver Dollar Gum)				P18	1.5										
A slow growing tree easily accommodated in the home garden for at least 50 years. From the central trunk slender branches droop in a weeping fashion and are covered with bronzy green tiny scale like leaves. (Native Evergreen 6m)				25L	1.5					Attractive ornamental and shelter tree. Rounded silvery leaves on juvenile trees. Mature trees have long leaves. Tolerates dry soils and coastal exposure. (Evergreen 8m)														
				35L	1.9																			
				45L	2																			
Davidia involucrata - (Ghost Tree, Dove Tree)				35L	1.5				Eucalyptus ficifolia - (Red Flowering Gum)				25L	1.7										
Forms a stately specimen tree with robust branches and a rounded crown. Extraordinary flowers resemble white handkerchiefs which hang and flutter beneath the beautiful ribbed leaves in late spring. Shelter from strong winds. (Deciduous 8m)				45L	2					Sturdy single trunked tree with a round headed compact crown. Large thick green leaves. Flowers in mid-summer, variations of glowing red, orange or pink, but occasionally white as trees are produced from seed. Flowers attract nectar seeking birds. Tolerant of high rainfall, droughts and coastal winds. (Evergreen 7m)			35L	2.2										
			80L	2									45L	2.7										
Dicksonia squarrosa - (Wheki, Rough Tree Fern)									One of the hardiest gums tolerating extreme drought and cold conditions. Adult leaves are typical long and greyish. A profusion of deep pink flowers hang from the branches from autumn into winter and is a valuable nectar supply for tuis, bellbirds, and wax-eyes. Tall erect grower. (Evergreen 10m)				100L	3										
Slender black trunk that is usually surrounded by many dead brown fronds. Grows up to 10 - 80cm a year, depending on conditions. (Native Evergreen 6m)				25L	1.9				Eucalyptus "Nicholii" - (Willow Peppermint Gum)				60L	2.7										
				45L	2.2					Graceful weeping tree. Narrow light green leaves exude a Peppermint fragrance when crushed. Ideal for shade and screening. Tolerant of frosts and drought. (Evergreen 10m)			80L	3										
Dodonaea viscosa - (Ake Ake, Hopbush)									Eucryphia moorei - (Eastern Leatherwood)					P18	1.2									
Quick growing upright small tree, bushy to the ground form. Long narrow pale green leaves with pink flowers in early summer. Very tough, tolerating sub-zero temperatures, salt laden winds, drought and polluted atmospheres. Excellent for screening and erosion control. (Native Evergreen 3m)										Small to medium sized erect grower with beautiful pinnate leaves. Bears large fragrant, single white blossom with prominent black stamens in late summer. Excellent for the smaller garden or as a street tree. (Evergreen 3m)														
Dodonaea viscosa "Purpurea" - (Purple Ake Ake)				25L					Eucryphia nymansensis "Nymansay"				P18	1.2										
Quick growing upright small tree, bushy to the ground form. Long narrow purple bronze leaves. Very tough, tolerating sub-zero temperatures, salt laden winds, drought and polluted atmospheres. (Native Evergreen 3m)				45L	2.8					Small to medium sized erect grower with larger leaves and very large pure white fragrant blossom. Flowers late summer to autumn. Prefers to grow in cooler areas. (Evergreen 3m)			P28	1.6										
Dysoxylum spectabile - (Kohekohe, NZ Mahogany)				25L AVAILABLE NOV 2019																				
A handsome upright tree, suited to coastal windy conditions but requiring good soil and shelter from frosts. Spicily scented white flowers in panicles. Large glossy leaves. (Native Evergreen 10m)																								

						Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)
<div>FAGUS (ENGLISH BEECH)</div>										
Fagus sylvatica - (English Green Beech)			25L	1.6						
Tall dense pyramidal tree with lower branches sweeping to ground. New green leaves have a silky sheen. Cinnamon brown autumn leaves which persist through winter and shed prior to the new leaves emerging. Popular tree for hedging and pleaching. (Deciduous 10m)	35L		1.8							
	45L		2							
	60L		2.1							
Fagus sylvatica "Dawyck Gold" - (Gold Columnar Beech)			25L	1.6						
Tall columnar tree which broadens with maturity. Bright golden green leaves with a shiny sheen in spring. Paler yellow leaves through summer. Cinnamon brown autumn leaves which drop cleanly. Ideal where space is limited. Excellent street tree. (Deciduous 7m)	35L		2							
	Fagus sylvatica "Dawyck Green" - (Upright Green Beech)			25L	1.5					
Tall columnar tree which broadens with maturity. Deep green leaves with a bronze tinge and shiny sheen in spring. Deep green through summer. Cinnamon brown autumn leaves which drop cleanly. Ideal where space is limited. Excellent street tree. (Deciduous 8m)	35L	1.9								
	Fagus sylvatica "Dawyck Purple" - (Upright Purple Beech)			25L	1.2					
Tall columnar tree which retains its narrow form. Deep purple red spring leaves have a shiny sheen. Almost black leaves through summer. Cinnamon brown autumn leaves which drop cleanly. Ideal where space is limited. Excellent street tree. (Deciduous 12m)	35L	1.5								
	Fagus sylvatica "Luteo-variegata" - (Variegated Beech)			80L	3					
Tall dense pyramidal tree with lower branches sweeping to ground. Green leaves have yellow green variegations. Hardy. (Deciduous 7m)										
	Fagus sylvatica "Pendula" - (Green Weeping Beech)			SOLD OUT FOR 2019						
Forms a tall narrow magnificent tree with arching side branches that weep to the ground. Glossy light green leaves. They turn yellow and orange through autumn before cleanly dropping. (Deciduous 5m)										

Fagus sylvatica "Purple Fountain" - (Weeping Copper Beech)			25L	1.5			
Grows into a columnar form with cascading side branches. The leaves are purple black becoming greener by summer. The autumn leaves are yellow then orange brown. (Deciduous 5m)			35L	1.8			
		Fagus sylvatica "Purpurea" - (Purple Beech, Copper Beech)			25L	1.5	
Forms a tall dense pyramidal tree with lower branches sweeping to the ground. New spring coppery red leaves have a silky sheen. Summer leaves are deep purple, almost black. Cinnamon brown autumn leaves persist through winter. (Deciduous 10m)		45L	2.2				
		60L	2.4				
		80L	2.3				
Fagus sylvatica "Purpurea Pendula" - (Purple Weeping Beech)			SOLD OUT FOR 2019				
Amazing weeping form creating a mushroom shaped dome. Foliage is a deep purple in spring, turning bronzy green later in summer. Slow growth. (Deciduous)							
		Fagus sylvatica "Red Obelisk" - (Upright Purple Beech)			25L	1	
Narrow upright form. Rich purple leaves on a columnar growing tree. Similar to Dawyck Purple. (Deciduous 3.5m)							
		Fagus sylvatica "Riversii" - (River's Purple Beech)			25L	1.5	
Large dome shaped tree with an open branch structure and smooth grey bark. Larger leaves than the usual Copper Beech. Rich deep purple black shiny leaves in spring. This colouring is held throughout the summer. Leaves drop cleanly in autumn. A magnificent specimen tree. (Deciduous 10m)		60L	2.5				
		80L	2.4				
		160L	3.4				
Fagus sylvatica "Rohanii" - (Fern-leaved Copper Beech)			60L	2			
Tall dense pyramidal tree with lower branches sweeping to the ground. Smooth grey bark. Spring leaves are deep reddish purple with a silky sheen. Leaves become darker by summer. The glorious feature of this variety are the deeply lobed decorative leaves. Autumn leaves drop cleanly. (Deciduous 7m)

Ficus carica "Panache" - (Fig)									Fraxinus griffithii - (Evergreen Ash)									
Fruits late in the season with unusual green and brown striped figs and crimson red- flesh. Although deciduous the large bold, rich green foliage has a tropical appearance over the summer months. (Edible Deciduous 3 - 5m)			25L	1.8				Fast growing small evergreen tree with shiny pinnate leaves. Rounded head but can be shaped into any size and form. Large panicles of white flowers smother the tree in summer. Prefers hot and well drained conditions. Will defoliate through winter in cold climates. Excellent street tree. (Evergreen 4m)			25L	2						
											45L	2.2						
FRAXINUS (ASH)								Fraxinus ornus - (Manna Ash)			25L	1.5						
								A lovely small compact growing tree with a profusion of fluffy scented white flowers in October. Handsome deep green pinnate leaves which turn lavender bronze and yellow in autumn. Excellent street tree. (Deciduous 8m)			45L	2						
											60L	2.4						
											80L	3.5						
Fraxinus excelsior - (Common European Ash)			45L	3				Fraxinus oxycarpa "Raywood" - (Claret Ash)			25L	2.6						
Forms a large tree with a wide rounded head. Ideal shade tree for large areas such as parks and paddocks. Ideal stock shelter. Smooth bark and black buds. Tolerates heavy soils and moist conditions. (Deciduous 10m)			100L	3.5			Elegant neat pyramidal growth habit, popular to use where space is limited but height is required. Bright green handsome pinnate leaves turn claret plum over an extended period from late summer until well into winter. Excellent as an avenue, driveway or street tree. (Deciduous 10m)				45L	3.2						
		35L	2.2			60L					4							
Fraxinus excelsior "Aurea" - (Golden Ash)			45L	2.2			Hardy, fast growing, upright tree which forms a neat oval head with a straight trunk. Excellent lawn, avenue, street or park tree. A seedless variety. Deep green lobed leaves turn clear yellow in Autumn. (Deciduous 10m)				80L	4						
Large yellow pinnate leaves through summer. These deepen bright gold through autumn before dropping to reveal smooth golden bark and fat black buds. Excellent medium sized shade tree. (Deciduous 6m)			45L	2.2							35L	2.8						
			45L	2.2			Fraxinus pennsylvanica "Annesbrook" - (PVR)				45L	3.3						
Fraxinus excelsior "Aurea Pendula" - (Weeping Golden Ash)			45L	2.2			A uniformly erect growing tree. Glossy green pinnate leaves. Fiery orange, yellow, burgundy and red autumn leaves which persist well into winter. Tolerant of drought and high winds. Perfect for lining avenues and driveways. Excellent street tree. (Deciduous 8m)				35L	3.5						
Large yellow pinnate leaves through summer. These deepen bright gold through autumn before dropping to reveal smooth golden bark and fat black buds. Side branches weep gracefully to the ground. (Deciduous 3m)			60L	2.5							45L	3.7						
Fraxinus excelsior "Green Glow" - (European Ash)			35L	2.9			Garrya elliptica - (Silk Tassel Bush)				P18	0.8						
Young leaves are bronze, becoming lush green for the rest of the growing season. Becomes a network of small branches which forms a tight beehive shape. Ideal small specimen tree or for lining avenues. (Deciduous 6m)			45L	3.5			Smaller growing bushy evergreen tree with greyish catkins that are prized for floral arrangements. Grows extensively on the Californian coast. (Evergreen 3m)				25L	2						
			60L	4							35L	2.8						
			80L	4.2							45L	3.2						
			100L	3.5							60L	4						
Fraxinus excelsior "Purple Spire" - (Purple Spire Ash, PVR)			45L	2.7			Ginkgo biloba - (Maidenhair Tree)				25L	2						
Bears glossy fresh pinnate leaves through spring and summer. In late summer the leaves turn purple then glowing orange. Perfect for lining avenues and driveways. Excellent street tree. Tolerates strong winds. (Deciduous 8m)			60L	3			Hardy tree of great beauty. Distinctive leaves are shaped like sections of Maidenhair fern. In autumn the leaves turn bright gold over many weeks before falling to create a carpet of gold. Allow space for this tree to develop. (Deciduous 7m)				35L	2.8						
			80L	3.5							45L	3.2

Ginkgo biloba "Autumn Gold" - (Maidenhair Tree)				25L	2.5					Gleditsia tricanthos inermis "Emerald Cascade"						
Selected male clone with a classically neat broadly conical form. A spectacular sight in autumn when the leaves turn bright gold over many weeks before falling to create a carpet of gold. This male clone is non fruiting. Tolerant of pollution. (Deciduous 7m)				35L	2.7					Deep green pinnate leaves clothe the strong weeping branches which cascade to the ground. Golden yellow autumn leaves. A small weeping tree. Excellent for filling in awkward corners, cascading next to water or as a container plant. Graft height will determine ultimate height. (Deciduous)		45L	1.5			
				60L	4							60L	1.7			
				80L	4											
Ginkgo biloba "Fastigiata" - (Maidenhair Tree)				25L	1.3					Gleditsia tricanthos inermis "Ruby Lace" - (Honeylocust)						
Compact and neat, narrow erect grower, perfect for confined spaces where height and not width is required. A spectacular sight in autumn when the leaves turn bright gold over many weeks before falling to create a carpet of gold. Non fruiting. Tolerant of pollution. Excellent street tree. (Deciduous 7m)										Forms a graceful round headed shade tree. Ideal for the smaller garden. Purplish red ferny pinnate leaves turn bronzy red through summer. The leaves turn intense claret red before falling. Excellent in hot dry climates. (Deciduous 5m)		25L	2.2			
							45L	2.5								
Ginkgo biloba "Jade Butterflies" - (Maidenhair Tree)				25L	1					Gleditsia tricanthos inermis "Skyline" - (Honeylocust)						
Semi-dwarf pyramidal tree with jade green foliage that turns soft creamy yellow in autumn. Stocky habit suited for smaller gardens. (Deciduous 6m)				35L	1.1					Upright in form with a straight trunk and a compact branching structure. Excellent shade or specimen tree where space is limited. Golden autumn leaves in autumn over a long period. Withstands heat, cold and drought. Good street tree. (Deciduous 6m)		35L	2.5			
							45L	3								
Ginkgo biloba "Little Weeper" - (Maidenhair Tree)				25L	2					Gleditsia tricanthos inermis "Sunburst" - (Honeylocust)						
A rare weeping tree. Grows into a medium sized shrub or small weeping tree. The branches grow upwards before arching and allowing the outer branches to cascade on the ground. Soft green leaves in spring turn golden yellow in autumn. (Deciduous 3m)				35L	2.2					Forms a neatly rounded tree with a picturesque branching structure. Superb shade tree, giving dappled light and allowing lawn to grow beneath. Bright yellow new leaves contrast with the fresh lime green older leaves. Vibrant golden autumn leaves. (Deciduous 6m)		35L	2.2			
							45L	2.5								
Ginkgo biloba "Ming Princess" - (Maidenhair Tree)				P18	0.8					Gordonia axillaris - (Fried Egg Tree)						
Miniature form with very fine foliage. Protect from harsh winds. Leaves turn butter yellow in autumn. Ideal for a small garden. (Deciduous 2m)				25L	1.2					Hardy and versatile large multi-stemmed large or small tree. Thick glossy dark green leaves. Bears a profusion of single white flowers with a prominent boss of stamens from autumn to spring. Hardy to cold and wind.(Evergreen 3m)		25L	1.7			
Ginkgo biloba "Pendula" - (Maidenhair Tree)				35L	1.7					Gordonia yunnanensis - (Fried Egg Tree)						
A weeping tree. An extremely graceful specimen tree with beautiful broad fans of fern like foliage. The foliage turns golden yellow in autumn and holds well on the tree until it falls cleanly to the ground. (Deciduous 4m)				45L	1.9					Hardy and versatile large multi-stemmed large or small tree. Reddish new leaves turn dark green. Bears a profusion of single white flowers with a prominent boss of stamens from autumn to spring. Excellent for hedging. Will tolerate shade. Hardy to cold and wind. (Evergreen 3m)		SOLD OUT FOR 2019				
Ginkgo biloba "Saratoga" - (Maidenhair Tree)				25L	2					Gordonia yunnanensis "Moonlight Magic" - (Fried Egg Tree)						
Selected male clone with an upright growth habit. Distinctive long leaves hang from the branches to give a weeping effect. A spectacular sight in autumn. Non fruiting. Tolerant of pollution. (Deciduous 7m)				35L	2.5					Large green leaves and large open white flowers. Requires similar conditions to Camellias. (Evergreen 3m)		25L	1.7			
				45L	3											
				60L	3.2									35L	1.8	

		Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)			Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)		
Gordonia yunnanensis "Red Tips" - (Fried Egg Tree)			25L	2				Griselinia littoralis "Canterbury" - (Kapuka Hybrid)			25L	1.2			
Smaller leaf form, with red new growth which becomes glossy dark green leaves. Large single white flowers with a boss of golden stamens are borne from mid winter into spring. Excellent source of food for bees late autumn to spring. Great for hedging. (Evergreen 3m)								35L			2	1.3			
Grevillea robusta - (Silky Oak)			P28	1.5				Griselinia littoralis "Gecko Green" - (Kapuka Hybrid)			P28	0.7			
Grows quickly into an upright pyramidal tree with large ferny paler green leaves. Mature trees bear amazing large golden spidery flowers in clusters in spring. Nectar seeking birds are drawn to the flowers. Tolerates coastal winds and dry conditions. (Evergreen 8m)			25L	1.7				More compact with smaller, dense, glossy emerald green foliage. Excellent for low hedging due to its tidy and compact growth habit. Wind and coastal tolerant. Needs a well drained site in full sun to semi shade. (Native Evergreen 1.6m)							
 GRISELINIA															
Griselinia littoralis - (Kapuka, Broadleaf)			25L	1.2				Griselinia littoralis "Variegata" - (Kapuka Hybrid)			P28	0.9			
Rich green, oval leathery, glossy highly polished leaves on golden stems. Forms a very dense shrub which can be clipped into many forms. Ideal for hedging, screening and shrubberies. Tough and able to cope with all extremes except wet feet. (Native Evergreen 3m)			45L	1.4				Rich green wavy leaves are blotched and irregularly margined pale gold. Forms a dense shrub which can be clipped into many forms. Ideal for hedging, screening and shrubberies. Will tolerate all but poorly drained soils. (Native Evergreen 2m)			25L	1.2			
Griselinia littoralis "Ardmore Emerald" - (Kapuka Hybrid)			P28	1				Griselinia littoralis "Whenuapai" - (Kapuka Hybrid)			P28	1.2			
Darker green glossy highly polished leaves. Forms a very dense shrub which can be clipped into many forms. Ideal for hedging, screening and shrubberies. Tough and able to cope with all extremes except wet feet. (Native Evergreen 2.5m)			25L	1.2				One of the most popular native shrubs growing happily from coastal lowlands to alpine regions in both Islands. Whenuapai is a selection with a more upright habit and darker glossy green foliage than the species. (Native Evergreen 3m)			45L	1.5			
			35L	1.4											
			45L	1.4											
Griselinia littoralis "Broadway Lime" - (Kapuka Hybrid)			35L	1.5				Griselinia lucida - (Puka, Akapuka, Shining Broadleaf)			25L	1.1			
Small leafed selection with upright growth habit. Fantastic hedge plant that can be clipped to any height for a formal look. Prefers full sun & well drained soils. Hardy. (Native Evergreen 3m)			45L	1.8				A bushy large shrub or small tree with stout erect stems clothed in large fresh green, highly polished leaves. Grows in sun or shade, imparting a luxuriant tropical feel to the garden. Excellent for containers. Coastal hardy. Tolerates light frosts. (Native Evergreen 3m)			35L	1.3			
Griselinia littoralis "Broadway Mint" - (Kapuka Hybrid)			P28	1				Guava "Cattleya Red" - (Red Strawberry Guava)			25L	1.3			
Rich green, oval leathery, glossy highly polished leaves are larger than the type with wavy edges. Golden stems. Forms a very dense shrub which can be clipped into many forms. Tough and able to cope with all extremes except wet feet. Tolerates heavy frosts. (Native Evergreen 3m)			25L	1.2				Guavas are excellent for landscaping, can be grown in large containers and fruit, can also be grown as an ornamental hedge. Fruiting from May through to July. (Edible Evergreen 2m)							
			35L	1.3											
			45L	1.4											

			Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)				Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)	
Hedycarya arborea - (Pigeonwood)																
Attractive erect growing specimen tree with dark green leaves. Small insignificant fragrant flowers are followed by large orange fruit, adored by pigeons. Need to plant more than one tree for fruit. Needs good soil with adequate moisture and shelter from frosts. (Native Evergreen 5m)			35L	1.9							45L	2.2				
Hibiscus syriacus “Snowdrift” - (Syrian Hibiscus)																
Forms a large multi-stemmed shrub. Large single white flowers smother this bush through summer. Grows equally well in cold and hot climates. Prune by half after flowering to promote new stems to flower the following season. (Deciduous 3m)			100L	2.7												
HOHERIA (LACEBARK)																
Hoheria angustifolia - (Narrow-leaved Lacebark)			P28	2.7												
Grows into a slender tree with graceful semi-weeping branches. Forms a columnar tree with narrow elongated leaves and heavily serrated edges. A mass of starry white flowers in mid-summer. Tolerates poor dry soils. (Native Evergreen 5m)			25L	2.2												
			35L	2.6												
			45L	2.7												
Hoheria populnea - (Houhere, Lacebark)			P28	1.8												
Very graceful tree with slender branches. Pretty fresh green leaves are heavily serrated. Great masses of starry white flowers almost obscure the branches in late summer to autumn. Excellent for rapid screening. Tolerates poor dry soils. (Native Evergreen 5m)			25L	2.2												
			35L	2.5												
			45L	2.8												
Hoheria populnea “Alba Variegata” - (Variegated Lacebark)			25L	2.3							SOLD OUT FOR 2019					
Very graceful tree with slender branches. Dark green leaves are heavily and irregularly margined creamy white. A magnificent small shade tree which will lighten up dark areas. Tolerates poor dry soils. (Native Evergreen 3m)			35L	2												
			45L	2.8												
			60L	2.2												
Hoheria populnea “Aurea” - (Yellow Lacebark)											P18	1				
Very graceful tree with slender branches. Larger leaves are dark green with irregular yellow blotches and margins. A magnificent small shade tree which will lighten up dark areas. Tolerates poor dry soils. (Native Evergreen 3m)			45L	2.3								25L	1.8			
Hoheria populnea “Purple Wave” - (Purple Lacebark)																
A small erect growing native. Dark green leaves are purple underneath. These shimmer in the wind. Bears a profusion of white blossom like flowers through summer. A quick hardy grower, excellent as a screen or small specimen tree. (Native Evergreen 4m)			45L	2												
Hoheria sexstylosa - (Long-leaved Lacebark)			P28	1.8												
Graceful tree with slender branches forming an erect columnar shape with weeping branches. Dainty pointy green leaves are heavily serrated. Large clusters of starry fragrant white flowers almost obscure the branches in late summer to autumn. Tolerates poor dry soils. (Native Evergreen 5m)			25L	2.3												
			35L	2.5												
			45L	3												
Hoheria sexstylosa “Purple Lace” - (Lacebark)																
Very graceful tree with slender branches forming an erect columnar shape with weeping branches. Dainty pointy green leaves are purple underneath. Large clusters of starry fragrant white flowers almost obscure the branches in late summer to autumn. Excellent for rapid screening. (Native Evergreen 4m)			P28	1.8												
Hymenosporum flavum - (Australian Frangipani)																
Small tree with an erect and graceful open form. Very fast grower. Glossy dark green leaves. Clusters of honey scented yellow tubular flowers are borne from late spring through summer. Tolerant of dry and windy conditions. Ideal for the smaller garden. (Evergreen 6m)			25L	2												
Idesia polycarpa "Female" - (Female Igiri Tree)																
Large growing tree with a tiered horizontal branch structure and a broad crown. Grafted female form to give berries but you still require a male for pollination. (Deciduous 7m)			80L	4.5												
Idesia polycarpa "Male" - (Male Igiri Tree)											SOLD OUT FOR 2019					
Large growing tree with a tiered horizontal branch structure and a broad crown. Handsome heart shaped leaves. Untouched by birds and remain on the tree until spring. Clear yellow autumn leaves. (Deciduous 7m)																
Ilex crenata “Sky Pencil” - (Japanese Holly)											P18	1				
Narrow columnar grower with small dark blue- green spineless leaves. Perfect as a small screen which doesn't need side pruning. Excellent for containers and to use as focal points in the contemporary garden. (Evergreen 2.5m)			25L	1.8												

		Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)			Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)			
Ilex "Hendersonii" - (Smooth Leaved Holly)			SOLD OUT FOR 2019					Juglans regia "Shannon" - (Walnut)			45L	2.2				
Upright pyramidal form with spineless leaves. Clusters of red berries through winter. Excellent for screening and hedges. Trims into any shape. (Evergreen 3.5m)	A top quality Walnut bearing large crops of well flavoured nuts. Easy to crack. Prefers free draining soils. (Edible Deciduous 15m)								60L		2.6					
Ilex largo - (Holly)			35L	1.6				Juglans regia "Wilsons Wonder" - (Grafted Walnut)			35L	2.5				
Dark green foliage on an upright bushy shrub. Great for topiary and hedging. Easy to trim into shapes. Best in full sun. (Evergreen 3m)							An old English variety that is vigorous and bears from a young age. Large thin shelled nuts are sweetly flavoured. Prefers free draining soil. (Edible Deciduous 15m)		45L		2.5					
Ilex meserveae "Blue Angel" - (Female Blue Angel Holly)			25L	1.4				Juniperus chinensis "Kaizuka" - (Hollywood Juniper)			SOLD OUT FOR 2019					
Dark blue green soft spiny leaves with purple black stems. A slow growing dense upright shrub. Profusion of small white spring blossom. Plant in combination with Ilex Blue Prince to attain scarlet red berries. Tolerates semi-shade and cold conditions. (Evergreen 2.5m)							Bright green leaves in dense clusters cover the long, gracefully curving branches. They are held at all angles giving an oriental appearance. An architectural focal point. Tolerates strong winds. (Evergreen 4m)									
Ilex meserveae "Blue Prince" - (Male Blue Prince Holly)			35L	2				Knightia excelsa - (Rewarewa, Honeysuckle)			P28	1.4				
Dark blue-green spiny leaves and purple black stems are a feature of this slow growing dense bushy shrub. A profusion of small white spring flowers. Grow as a companion pollinator to Ilex Blue Angel. Excellent hedging plant. Tolerates semi-shade and cold conditions. (Evergreen 2.5m)							Poplar-like tree with its narrow column form. Ideal for areas where height is required in a restricted area. Large long leathery leaves are heavily serrated. Spidery red flowers in early summer attract nectar seeking birds. Tolerates poor soils, frosts and strong winds. Excellent street tree. (Native Evergreen 7m)		25L		2					
Jacaranda mimosifolia - (Blue Jacaranda)			25L	1.7				Koelreuteria paniculata - (Golden Rain Tree)				35L	2.2			
This is a tree for warm sunny climates where temperatures don't fall below -4 degrees. Soft ferny leaves cover the spreading branches which radiate from the single trunk. Large mauve blue trumpet like flowers are borne in racemes from early summer. Excellent shade tree. (Semi-evergreen 7m)							Small tree with open spreading form clothed in pinnate leaves. Soft pink spring leaves mature green and then yellow in autumn. Panicles of golden yellow flowers are followed by dangling rosy red papery capsules. Grows best in hot summers/cold winters. Excellent street tree. (Deciduous 5m)		45L			2.2				
Juglans regia - (Common English Walnut)			60L	2.7				Kunzea ericoides - (Kanuka, White Tea-tree)			25L	1.2				
A slow growing tree of medium size with a wide spreading rounded head. Perfect tree for paddock planting. Easy to crack walnuts are produced around 15 years from planting. (Edible Deciduous 12m)							Forms a large bush of weeping stems. Small narrow dark green aromatic soft leaves and sprays of white flowers glisten on the bushes in early summer. Very tough tolerating frosts, drought and poor soils. Excellent for screening or sheltering more tender plants. Attracts bees. (Native Evergreen 4m)		60L		3.2					
Juglans regia "Meryic" - (Grafted Walnut)			45L	2.5				Laburnum alpinum "Pendulum" - (Weeping Golden Chain)			35L	1.8				
NZ Tree Crops Association selection. Large walnuts on a large growing tree. Prefers free draining soil. (Edible Deciduous 15m)			60L	2.7				Weeping standard tree with beautiful golden-yellow blossoms. Grows best with full sun in soil that won't dry out over summer. (Deciduous 2.5m)								

							Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)
Laburnum x watereri “Vossii” - (Golden Chain Tree)			25L	2							
Forms a small tree with a compact rounded head. Fragrant 60cm long racemes of clear yellow flowers hang from the branches in November. Branches are pliable enough to train over high arches. Sets no seeds. Excellent street tree. (Deciduous 3m)			35L	2.2							
LAGERSTROEMIA (CREPE MYRTLE)											
Lagerstroemia indica “Bergerac” - (Crepe Myrtle)			35L	2.4							
Small tree with a compact rounded head and smooth mottled bark. Lime green spring leaves age green through summer and brilliant red, orange and yellow colours through autumn. (Deciduous 3.5m)			45L	2.7	1.2						
Lagerstroemia indica “De'Puard” - (Crepe Myrtle)			35L	2.2	1.2						
Small tree with a compact rounded head and smooth mottled bark. Lime green leaves in spring turn green through summer and brilliant red, orange and yellow colours during autumn. Large cone shaped panicles of lilac-mauve flowers. (Deciduous 3m)			45L	2.2	1						
Lagerstroemia indica “Saint Emilion” - (Crepe Myrtle)			35L	2.4	1						
Small tree with a compact rounded head and smooth mottled bark. Lime green spring leaves age green through summer and brilliant red, orange and yellow colours through autumn. Large cone shaped panicles of reddish crimson flowers in autumn. (Deciduous 3.5m)			45L	2.4	1.2						
Lagerstroemia indica "Sioux" - (Crepe Myrtle)			25L	1.8							
Creating quite the visual impact over a lengthy period, this variety offers masses of intense, pink flowers over summer, followed by stunning, rich foliage colour in tones of yellow, red and orange through autumn, before shedding its leaves. (Deciduous 5m)											
Lagerstroemia indica “Soir D'ete” - (Crepe Myrtle)			SOLD OUT FOR 2019								
Small tree with a compact rounded head and smooth mottled bark. Lime green leaves in spring turn green through summer and brilliant red, orange and yellow colours during autumn. (Deciduous 3m)											

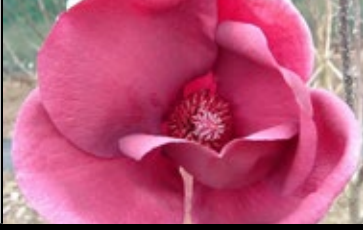

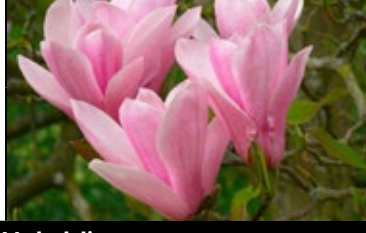

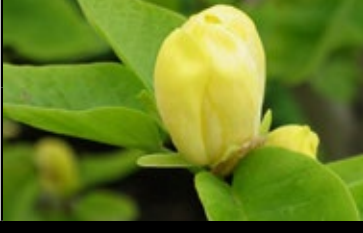

Lagerstroemia indica “Townhouse” - (Crepe Myrtle)			25L	1.7				
Small tree with a compact rounded head and smooth mottled bark. Lime green leaves in spring turn green through summer and brilliant red, orange and yellow colours during autumn. Large cone-shaped panicles of pure white flowers in summer. (Deciduous 3.5m)			35L	2.3				
Lagerstroemia indica "Tuscarora" - (Crepe Myrtle)			SOLD OUT FOR 2019					
An upright, wide-spreading, multi-stemmed,small tree. Best grown in average, medium moisture, well-drained soils in full sun. Does well in loamy, clay soils with good drainage. Long bloom period, exfoliating bark and superb fall color. (Deciduous 3m)								
Lagerstroemia indica “Yangtze” - (Crepe Myrtle)			P28	2				
Small tree with a compact rounded head and smooth mottled bark. Lime green leaves in spring turn green through summer and brilliant red, orange and yellow colours during autumn. Large cone-shaped panicles of bright pink/red flowers. (Deciduous 3.5m)			25L	2				
Lagunaria patersonii - (Primrose Tree, Norfolk Island Hibiscus)			P18	1.2				
Handsome erect and stately pyramidal growing tree. Clothed with thick olive green leaves. A profusion of miniature Hibiscus shaped pink flowers through summer and autumn. Excellent as a dense screen or hedge, clips well. Very tough, enduring coastal winds and drought. (Evergreen 8m)			25L	1.6				
Larix kaempferi - (Japanese Larch)			P18	1.3				
Soft bluish green leaves turn whitish in autumn before dropping. The bare reddish branches are a winter feature. Very amenable to pruning and shaping to keep this a small sized tree. Makes an excellent container plant. Is the perfect shape as a living Christmas tree. (Deciduous 6m)			45L	2.5				
Laurelia novae-zealandiae - (Pukatea)			35L	2.6				
A slow growing handsome tree with a dense bushy habit and columnar form for many decades. Glossy deep green leaves have serrated edges and complement the red new stems. Will fit into the home garden easily. Site on the edge of ponds and streams as loves a moist position. (Native Evergreen 6m)								
Laurus nobilis - (Sweet Bay, Bay Laurel) [Bushy]			P28	1.3				
A famous tree from the Mediterranean. It forms a compact pyramidal shape with leathery dark green leaves, used for flavouring food. Very amenable to pruning and shaping into any form. Can make a dense aromatic hedge. Excellent for coastal gardens. (Evergreen 4m)			25L	1.2				
			35L	1.4				
			60L	1.8

Magnolia "Brixton Belle" - (Vance Hooper Hybrid)			SOLD OUT FOR 2019								35L		1.7												
Large cup and saucer bright pure pink flowers with creamy a inner. Flowers from the first year in tremendous abandon. A neat spreading tree, suited to the smaller garden. Mid-season flowering, sometimes having a second summer flower. (Deciduous 4m)																									
Magnolia "Burgundy Star" - (Jury Hybrid)			SOLD OUT FOR 2019								25L		2												
Glowing burgundy red tulip shaped buds which open out to large star shaped flowers. Very floriferous variety which flowers from an early age and for a prolonged period. Narrow erect grower. Perfect where space is limited. Mid-season flowering. Excellent street tree. (Deciduous 6m)																									
Magnolia "Butterflies" - (Hybrid)			SOLD OUT FOR 2019								SOLD OUT FOR 2019														
One of the best yellow hybrids. Very free flowering with a mass of creamy yellow starry flowers that sit atop the branches like butterflies. Forms a small rounded tree. (Deciduous 4m)																									
Magnolia "Cameo" - (Vance Hooper Hybrid)			SOLD OUT FOR 2019								35L		2												
Elegant sculpted blooms of a rounded form. The outer side of the petals is reddish purple/inner surface white blushed rose. Wind tolerant blooms are produced in abundance from the first year. (Deciduous 4m)																									
Magnolia campbellii "Alba" - (Species)			SOLD OUT FOR 2019								35L		2.7												
Large upright growing tree with wide spreading branches. A glorious show of huge, pure white cup and saucer flowers in mid-winter. Deliciously scented flowers. This tree takes around 10 years to commence flowering but it is well worth waiting for. (Deciduous 7m)																									

			Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)				Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)							
Magnolia campbellii "Charles Raffill" - (Campbellii Hybrid)			35L	2.7					Magnolia "Deryk" - (Hybrid)			35L	2									
Large upright growing tree with wide spreading branches. A glorious show of huge, deep pink, cup and saucer flowers with white interiors, in early spring. This tree takes around 5 years to commence flowering but is well worth waiting for. (Deciduous 7m)					An unusually dark hybrid. It is a rich glowing velvet red. One of the first features of the variety to catch our attention is that it sets flowers on all the tips, this means it will tend to be slower growing. (Deciduous 4m)																	
Magnolia campbellii "David Clulow" - (Todd Gresham Hybrid)			35L	2.2					Magnolia "Felix" - (Jury Hybrid)			35L	2.7									
Large cup and saucer shaped flowers of pure white with a hint of pink at the base. Flowers from an early age. A delightful spreading tree suited to smaller gardens. Early spring flowering. (Deciduous 5m)												Huge 30cm across cup shaped, heavily textured flowers of rosy salmon pink to red flowers. Large hairy buds split open to reveal the wondrous fragrant flowers. Flowers from an early age. Medium sized upright grower with spreading branches and large leaves. Flowers mid-season. (Deciduous 5m)										
Magnolia campbellii "Sir Harold Hillier" - (Hybrid)			45L	2.2					Magnolia "Galaxy" - (Kosar Hybrid)			25L	2									
Huge white campbellii selection from England. Trees grow to be broadly conical and settle to flower about 3 years from planting. (Deciduous 5m)												Large reddish purple slender tulip shaped flowers in late spring. Ideal in areas that get late frosts. Very sweetly fragrant flowers. Formal upright pyramidal grower. Will fit into small spaces. Flowers from an early age. Excellent street tree. (Deciduous 5m)										
			60L	2.2								45L	2.3									
												60L	3									
Magnolia "Charisma" - (Ian Baldick Hybrid)			35L	2.6					Magnolia "Genie" - (Vance Hooper Hybrid)			35L	2.2									
NZ hybrid. Very large cup and saucer shaped flowers of red. Upright grower. (Deciduous 8m)																	An outstanding small growing conical Magnolia. Goblet shaped flowers are burgundy red all the way through. Flowers for 10 weeks through spring with a second summer flowering. Produces healthy leaves and is proven to be frost hardy. Ideal where space is limited. (Deciduous 4m)					
			45L	3								60L	2.5									
Magnolia "Cleopatra" - (Vance Hooper Hybrid)			25L	2.2					Magnolia "Gold Star"			35L	2.3									
Upright conical grower, well suited to areas where space is limited. Flowers from an early age with a profusion of flowers. Cup shaped blooms are glowing reddish purple with a sheen. Early spring flowering with a second summer flowering in warm summers. Excellent street tree. (Deciduous 4m)									An upright grower with spreading branches. Bears a profusion of fragrant large multi-petalled star shaped flowers of soft buttery yellow which fade to creamy white. Mid-season flowering. Bronze coloured spring leaves. (Deciduous 4m)													
			35L	1.8					45L	3												
																		60L	3			
Magnolia denudata - (Yulan Magnolia Species)			35L	2.5					Magnolia grandiflora "Blanchard" - (Southern Magnolia)			25L	1.9									
Goblet shaped pure white lemon scented flowers, with broad fleshy petals, glisten on the bare branches in August. Broad pyramidal form with wide spreading branches of oriental appearance. Flowers from an early age. (Deciduous 5m)												Strong compact columnar form. Large glossy green leaves have a thick under coating or felting of cinnamon brown. Produces large white single flowers through the warmer months. Will grow in most soils. Great avenue or driveway specimen. (Evergreen 7m)										
			45L	2.8								80L	3									
												160L	3									
Magnolia denudata "Gere" - (Hybrid)			25L	1.9					Magnolia grandiflora "Ferruginea" - (Southern Magnolia)			25L	1.6									
The same beautiful flowers as denudata but flowers 3 weeks later. Useful to grow in areas that get frosts in August. Forms an upright pyramidal habit. Flowers from an early age. Excellent street tree. (Deciduous 4m)												Large handsome deep glossy green leaves, rusty-brown felted beneath. Pure white, thickly textured flowers are produced in summer and autumn. They are strongly scented of citrus. Forms an elegant round-headed specimen shade tree. Tolerant of poorly drained positions. (Evergreen 7m)

Magnolia grandiflora "Jade Emperor" - (Southern Magnolia)									Magnolia "Honey Tulip" - (Jury Hybrid)							
Handsome large evergreen tree with a broad conical shape. Large glossy green leaves (no russetting underneath the leaves). Huge creamy white fragrant blooms in summer. Quite wind hardy, prefers moist soil. (Evergreen 5m)			25L	1.6				Golden form of Black Tulip with the same heavily textured and goblet shaped flowers and smaller growth habit. Retains its yellow colouring without fading. Perfect for the smaller garden. Flowers from an early age. Excellent street tree. (Deciduous 3.5m)			35L	3				
											45L	3				
Magnolia grandiflora "Kay Parris" - (Southern Magnolia)									Magnolia "Ian's Red" - (Ian Baldick Hybrid)							
Seedling from Little Gem. Very compact upright grower which responds well to pruning. Makes a great hedge. Large white flowers over a long period in the warmer months. Shiny green wavy leaves, with orange-brown fuzzy undersides. Bright pink new leaves and shoots. (Evergreen 4m)			25L	1.4				Large glowing clear red heavily textured cup and saucer shaped flowers in late winter. Flowers prolifically from an early age. Forms a round headed small tree. (Deciduous 6m)			45L	2.5				
			35L	1.7							60L	2.7				
											80L	3.3				
											400L	4				
Magnolia grandiflora "Little Gem" - (Southern Magnolia)									Magnolia "Iolanthe" - (Jury Hybrid)							
Small compact, narrowly columnar tree. Smaller glossy deep green leaves with some rusty felt underneath. Citrus scented flowers smaller pure white flowers are borne through summer and autumn. Excellent for the smaller garden and as a street tree. Tolerant of poorly drained positions. (Evergreen 5m)			25L	1.4				Rich deep pink buds open to large heavily textured delicate pastel rose pink flowers with creamy pink interiors. They open like large bowls. Flowers from an early age and over a five week period from early spring. Forms a neat rounded tree with open airy branching habit. (Deciduous 6m)			25L	2				
			45L	2							35L	2.3				
			80L	2.2							45L	2.4				
			135L	3							60L	2.4				
Magnolia grandiflora "Main Street" - (Southern Magnolia)									Magnolia "J C Williams" - (Caerhays Hybrid)							
Narrow upright columnar growth habit. Very compact form makes this an ideal selection as a street or avenue tree. Handsome large glossy green leaves are heavily rusted with felt underneath. Large creamy lemon scented flowers through summer. Prefers a moist soil. (Evergreen 10m)			60L	3				Large blackish red buds open to very large bowl shaped glowing rosy purple flowers with pink interiors. Flowers prolifically from an early age. Mid spring flowering. Large upright spreading tree with an open airy form. (Deciduous 10m)			35L	2.5				
			80L	3.5							60L	2.7				
Magnolia grandiflora "Teddy Bear" - (Southern Magnolia)									Magnolia "Kaira" - (Deryk Lawrence Hybrid)				SOLD OUT FOR 2019			
Smaller narrow columnar grower, slower but neater than other evergreen forms, with a tight branch structure. Glossy green leaves have fuzzy brown undersides. Large fragrant white flowers through summer. Ideal for large containers, paths and almost anywhere requiring height not width. (Evergreen 5m)			25L	1.2				A compact conical upright grower. Pale pure pink flowers are tulip shaped in bud and open out in a starry shape. Flowers mid-September. (Deciduous 5m)								
			45L	1.6												
Magnolia "Heaven Scent" - (Gresham Hybrid)									Magnolia "Koban Dori"							
Erect pastel lavender pink tulip shaped blooms, paler towards the tips and with white interiors. A unique colour among Magnolias and strongly fragrant. Upright rounded grower. Mid spring flowering. Flowers from an early age. Excellent street tree. (Deciduous 4m)			25L	1.9				A deciduous, multi branched tree with a pyramidal form. Cup shaped blooms are bright yellow and appear as the leaves emerge. Excellent choice for providing colour in a mixed garden or a dull corner. (Deciduous 4m)			25L	2				
			35L	2.4							35L	2.1				
Magnolia "Holywell"- (Ian Baldick Hybrid)									Magnolia "Lanarth" - (Species)							
Large soft pink blooms of firm texture open out to reveal a white inner. Delicious delicate fragrance. Small to medium sized tree. (Deciduous 4m)			35L	2.8				A magnificent Magnolia which tantalizes with large woolly buds that open to reveal large, cupped, deep magenta blooms with attractive prominent stamens. May take a few years to flower but worth the wait. Plant in a sheltered spot in acid soil for best results. (Deciduous 7m)			35L	1.8				
											45L	2

Malus "Barbara Ann" - (Crabapple)			SOLD OUT FOR 2019						Malus "Jack Humm" - (Crabapple)			35L	2.6			
Fragrant double violet pink blossom contrasts with the new red spring leaves. An upright open grower very suited to training such as espaliering. Small dark red purple crab apples persist on the tree until devoured by birds in winter. (Deciduous 4m)									Rounded tree with masses of white apple blossom from red buds in mid spring. One of the best varieties for large production of brilliantly coloured crab apples which are bright crimson flushed yellow and orange. Great for jelly making. Fruit will persist well into winter until devoured by birds. (Deciduous 4m)			45L	3			
Malus "Coronet Peak" - (Crabapple)								Malus "Jelly King" - (Crabapple, PVR)			45L	2.5				
A neat growing shade tree with horizontal spreading branches to form a flat top. Pink buds open out to pure white blossoms in spring. Produces a mass of golden crab-apples. (Deciduous 3m)			35L	1.8	1.5			Upright compact small tree. In mid spring becomes covered with large fragrant pure white blossom over a long period. Huge crops of medium sized orange pink crab-apples follow. Fruit will make a colourful display all winter as birds don't eat them. Excellent street tree.(Deciduous 3m)			60L	2	1.2			
Malus "Echtermeyer" - (Weeping Crabapple)								Malus "Kaitoke" - (Weeping Crabapple)			35L	2.2	1.5			
Forms a graceful wide-spreading canopy of blue black stems. Red tinted new leaves change to purple, then a bronze green over summer. Rosy crimson flowers smother the weeping branches in spring. Small reddish purple Crab apples follow. Height is dictated by graft height. (Deciduous)			35L	1.8	1.2			Attractive purplish red new leaves in spring. By summer the leaves turn green. Masses of crimson flower buds open to carmine red blossom in spring. A small weeping tree well suited to the smaller garden. (Deciduous 2.5m)			45L	2.2	1.8			
Malus "Ellerslie" - (Crabapple, PVR)								Malus lambada - (Crabapple)			25L	2				
Excellent weeper for a narrow space. Red new leaves turn bronze through summer. Dark red buds open to soft crimson, followed by small red crabapples. These persist until eaten by birds in winter. (Deciduous 2.5m)			35L	2	1.5			A small flat topped tree with wide spreading horizontal branches making it an ideal choice as a small shade tree. Rosy red buds open paler pink and sit amongst the emerging bronzy new spring leaves. Height of tree will be determined by standard height. (Deciduous 2.7m)			60L	2.2				
Malus "Floribunda" - (Japanese Crabapple)								Malus "Mt Aurum" - (Crabapple)								
Strong growing small tree which can be trained to form a horizontal canopy of arching branches. In early spring a mass of crimson red buds open to white flowers with a hint of pink. Small orange crab apples develop over autumn but are soon devoured by birds. (Deciduous 3m)			35L	2.2	1.5			Upright pyramidal habit. Pink buds opening to white flowers. Large golden-yellow fruit in heavy clusters. Good for jelly. (Deciduous 2.5m)			35L	3				
Malus "Gorgeous" - (Crabapple)								Malus "Mt Earnslaw" - (Crabapple)								
Round headed small tree. Branches are festooned with white apple blossom in spring. Spectacular crops of bright crimson red fruit hang like cherries on long thin stalks to weigh down the outer branches. Crabapples make superb jelly. Fruit will persist on the trees till winter until eaten by birds. (Deciduous 3m)			35L	2	1.5			Upright pyramidal growth habit. NZ selection. Pure white spring blossom. Heavy clusters of oval shaped fruit are soft red, flushed with yellow. Neat growing, small sized tree. (Deciduous 3m)			35L	2.8				
Malus ioensis "Plena" - (Betchel Crabapple)								Malus "Profusion" - (Crabapple)								
Small vase shaped tree. Late spring a profusion of large soft pink semi-double flowers. Lovely yellow and orange autumn leaves. Excellent street tree. (Deciduous 4m)			25L	1.7	L/W			Small round headed tree. Mid spring is smothered with clusters of slightly fragrant vivid wine red flowers. Coppery crimson spring leaves. Small blood red fruit follow and persist until eaten by birds. Yellow and orange autumn leaves. (Deciduous 4m)			25L	2.2				
			35L	2

Weeping tree with wide spreading branches that will cascade to the ground. Clusters of pink buds open white, blushed pink. Small scarlet crab apples. Yellow autumn leaves. Height of tree will be determined by standard height. (Deciduous)			35L	2	1.7			A spectacular fruiting crab apple tree with large crimson red fruit, which holds on the tree through most of winter. Forms a spreading canopy of branches. (Deciduous 3m)			25L	2.2		
			45L	2	1.7									
Malus "Red Top" - (Crabapple, PVR)								Melia azedarch - (Indian Bead Tree)						
Compact upright grower. A profusion of semi double dark pink blossom emerges with the bright red new leaves which turn green through summer. Little red crabapples follow and persist until eaten by birds. Excellent street tree. (Deciduous 5m)			35L	2.7	1.4			Quick growing tree with a stout upright trunk. Open form with wide spreading branches to give light shade. Pinnate leaves appear with the caramel scented panicles of lilac flowers in late spring. Clear yellow autumn leaves. Withstands strong winds and drought. Excellent street tree. (Deciduous 7m)			35L	2.5		
			45L	3.4	1.5						45L	2.8		
Malus sieboldii "Snowbright" - (Crabapple)								Melicope ternata - (Wharangi)						
Small round headed tree with arching branches. Pale salmon pink buds open to pure white blossom which smothers the branches in mid spring. Marble sized crimson red crab apples appear over summer and persist into winter. Showy yellow/ orange autumn leaves. Ideal for the smaller garden. (Deciduous 3m)			60L	2.8				Forms a rounded large bush of shiny lime green fresh leaves. Always looks great in the landscape, helps to brighten darker green foliage. Grows well in sandy soils sheltered from the worst of the coastal winds. Tolerates light frosts. Shining black seeds in clusters are a feature over late summer. (Native Evergreen 4m)			25L	1.3		
			80L	3							45L	1.8		
Malus "Strathmore" - (Crabapple)								Melicytus chathamicus - (Chatham Island Mahoe)						
Narrow growing, upright columnar tree, perfect for areas where space is restricted but height is required. Red buds open to large dark pink flowers with the emerging bronze red leaves. Red cherry-like fruit persists on the tree until eaten by birds. Excellent street tree. (Deciduous 4m)			25L	2	1			Large, oval, green, leaves with toothed margins. Small yellow flowers in spring. Tolerates cold, windy, coastal conditions. (Evergreen 6m)			SOLD OUT FOR 2019			
			45L	2.2	1									
Malus trilobata - (Crabapple)								Melicytus ramiflorus - (Mahoe, Whiteywood)						
Erect, pyramidal grower with stout stems clothed in beautiful, deeply lobed, maple shaped leaves. Glossy green through summer, turning brilliant red, orange and scarlet in autumn. Large single white spring blossom. Few fruit. Excellent street tree. (Deciduous 5m)			25L	1.7				A small multi stemmed bushy tree. Ideal for quick screening. Hardy for dry conditions in sun or semi-shade. Attractive green leaves and purple berries in autumn. (Native Evergreen 5m)			25L	1.5		
			45L	2.4							45L	2.2		
Malus tschonoskii - (Upright Japanese Crabapple)								Meryta sinclairii - (Pukanui, Puka)						
Beautiful pyramidal grower with silvery white felted spring leaves. Bright green leaves through summer, felted white underneath. Glorious show in autumn with yellow, orange, red and purple leaves. Few fruit. Excellent street tree. (Deciduous 8m)			25L	2.4				A striking tree with a tropical appearance with its large paddle shaped leaves of glossy lighter green. Prefers a sunny position which is frost free. Tolerates coastal exposure. When grown on the coast grows a lot more bushy and lower. Excellent for containers. (Native Evergreen 4m)			P28	0.9		
			35L	2.5							45L	1.8		
			45L	2.6										
			60L	2.7										
Malus "Van Eseltine" - (Crabapple)								Metasequoia glyptostroboides - (Dawn Redwood)						
Small columnar tree with erect branches. Large, rose-pink, semi-double flowers open from scarlet buds. Yellow fruit. Ideal for smaller gardens. A good street variety tree. (Deciduous 3m)			35L	2.8				A handsome tree through all the seasons with a slender pyramidal to conical form. A upright specimen tree in the landscape. Soft ferny leaves are bright green through summer. Grows best in moisture retentive soil. (Deciduous 12m)			25L	1.8		
											80L	4		
											200L	5.5		
											400L	5.7		

							Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)
Metasequoia glyptostroboides "Gold Rush" - (Dawn Redwood)											
Conical grower with a soft ferny form. Cypress-like timber is moderately durable. Prefers damp to wet sites. Foliage soft golden yellow turning buff orange in autumn. (Deciduous 6m)			25L	2.2							
Metasequoia glyptostroboides "Spire" - (Dawn Redwood)											
A rapidly growing deciduous conifer variety with a very delicate, ferny appearance, and a taller and narrower pyramidal form than the species; shaggy, attractive reddish bark; airy light and dark green foliage changes to a lovely copper fall color. (Deciduous 15m)			35L	2.7							
			45L	3.6							
 <h1>METROSIDEROS</h1>											
Metrosideros excelsa - (Pohutukawa, NZ Christmas Tree)											
Thrives in coastal situations. Slowly forms a large broad headed tree with thick greyish green leaves. A profusion of red stamens make up the glowing crimson red flowers borne during December. They attract nectar seeking birds. Can be pruned as hedges and screens or left as a specimen. (Native Evergreen 7m)			25L	1							
			35L	1.8							
			45L	2							
			80L	2.5							
Metrosideros excelsa "Maori Princess" - (Pohutukawa)											
Selected for its more upright narrow growth habit. Just as tough as excelsa with scarlet red flowers through December which attracts birds. We have this available as bushes or clear trunked standards. Excellent street tree. (Native Evergreen 7m)			35L	2							
			45L	2.1							
			80L	2.7							
			200L	4.5							
Metrosideros excelsa "Vibrance" - (Hybrid Pohutukawa)											
Selected for it's more upright, dense and compact form. Just as tough as excelsa with very large vibrant orange red flowers, borne over a long period through summer. Nectar seeking birds love the flowers. A good choice for suburban gardens. Excellent street tree. (Native Evergreen 5m)			35L	1.8							
			45L	2.3							
Metrosideros kermadecensis "Variegata" - (Pohutukawa)											
Green leaves are broadly margined with creamy yellow. Compact grower. Red flowers at Christmas time. Coastal hardy. Excellent for containers or as a street tree. (Native Evergreen 3m)			45L	2.2							

							Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)
Metrosideros "Maungapiko" - (Southern Rata Cross)											
Pohutukawa and Southern rata cross. This narrow growing erect tree is clothed with shiny pointed fresh leaves. A profusion of clear scarlet flowers, which attract birds cover the tree in early January. Excellent tough coastal tree, withstanding a lot more frost than excelsa. Excellent street tree. (Native Evergreen 5m)			P18	1.1							
			P28	1.2							
			35L	1.5							
			45L	1.5							
Metrosideros "Mistral" - (Northern Rata Cross)											
Pohutukawa and Northern rata cross. Smaller denser growing tree finally forms a neat canopy of thick olive green leaves. A profusion of deep rusty red flowers from mid-December attract nectar seeking birds. Excellent tough coastal tree. Superb as a screen. Excellent street tree. (Native Evergreen 5m)			25L	1.5							
			35L	1.6							
			45L	2							
			60L	2.3							
Metrosideros robusta - (Northern Rata)											
A very bushy tree with small dark olive green leaves. Quite cold hardy and tolerant of moderate coastal exposure. Superb as a screen and very adaptable to pruning into any shape or form. We offer bushes and clear trunked standards. Rusty red flowers are borne in mid-December. Excellent street tree. (Native Evergreen 5m)			35L	2.4							
			45L	2.5							
			60L	2.7							
			80L	3							
Metrosideros robusta "Kawa Copper" - (PVR)											
Northern Rata Selection. Selected for its bushy stocky growth habit and coppery red new leaves. Potentially this will be an excellent variety for hedging. Has small leaves that will clip to any shape or form. Quite cold hardy and tolerant of moderate coastal exposure. (Native Evergreen 3m)			60L	2.7	1.8						
Metrosideros umbellata - (Southern Rata)											
Most cold hardy of this family. Very slow growing with a bushy multi-stemmed habit of growth. Red new stems and leaves are a feature. Mature leaves are glossy, leathery and pointed. Glowing scarlet flowers in mid-January. Requires a moist cooler position. (Native Evergreen 3m)			P28	0.6							
			45L	1							

		Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)				Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)
														
Michelia “Bubbles” - (Blumhardt Hybrid)									35L	1.8				
Forms a wide spreading smaller pyramidal tree with glossy deep green leaves. Velvet buds open to slightly fragrant creamy white rounded flowers with pink edges in spring. (Evergreen 4m)									45L	1.9				
Michelia doltsopa - (Sweet Michelia)									P18	1.8				
Strong growing, large, neatly formed pyramidal tree. Mid-winter produces highly perfumed, large, creamy white Magnolia-like blooms from showy brown, furry buds. Glossy rich green leaves. Drops leaves when flowering but quickly refoiliates. (Evergreen 6m)														
Michelia doltsopa “Silver Cloud” - (Sweet Michelia)									25L	2				
A selected grafted variety of doltsopa which flowers from its first years. Large creamy white flower have many petals and is a smaller grower. Otherwise same attributes as doltsopa. (Evergreen 4.5m)									35L	2.4				
Michelia “Fairy Blush” - (Jury Hybrid, Fairy Magnolia, PVR)									P28	1.2				
A dense bushy shrub with shining paler green leaves. From early spring bears a profusion of long russet buds which open to fruity fragrant lilac pink flowers with creamy interiors. Ideal for hedging, amenable for pruning into any shape, or grow as a small specimen tree. (Evergreen 3m)									25L	1.6				
Michelia “Fairy Cream” - (Jury Hybrid, Fairy Magnolia, PVR)									35L	2				
Large shrub or small tree with shining paler green leaves. Has a strong horizontal branching structure which makes it ideal for training, especially pleaching. From early spring bears long russet buds which open to star shaped fragrant cream flowers. Will grow as a small specimen tree. (Evergreen 3m)									45L	2.2				
Michelia “Fairy White” - (Jury Hybrid, Fairy Magnolia, PVR)									25L	1.8				
Large shrub or small tree with shining paler green leaves. Has a strong horizontal branching structure which makes it ideal for training, especially pleaching. From early spring bears long russet buds which open to star shaped fragrant flowers of pure white. (Evergreen 3m)									35L	2				
Michelia figo - (Port Wine Magnolia)									P28	1				
Dense multi-stemmed bush with glossy pale green leaves right down to the ground. Small yellow and pink flowers hide among the leaves but impart a fruity fragrance from late spring through summer. Ideal for hedging, amenable for pruning into any shape, or grow as a small specimen tree. (Evergreen 3m)									25L	1.2				
Michelia gracipes									P28	1				
Form of yunnanensis with rounded leaves. A small neat large bush, pyramidal grower, with deep green leaves. Produces a mass of pure white starry flowers over a long period from early spring. Ideal for hedging, amenable for pruning into any shape or to grow as a small specimen tree. (Evergreen 4m)									25L	1.4	1.2			
Michelia “Inspiration”									25L	1.4				
Upright vertical dense growth habit, ideal where space is limited or pruned as a hedge. Dark shiny green leaves. Velvety brown buds open to porcelain white starry flowers from early spring and over many weeks. Delicious fragrance. Will grow in partly shaded areas. Frost tolerant and top seller. (Evergreen 2m)									35L	1.8				
Michelia “Lemon Fragrant” - (Thirkettle Hybrid)									P28	1				
A small neat large bush, pyramidal grower, with attractive fresh green leaves. Produces a mass of large lemon scented creamy white starry flowers over a long period from early spring. Ideal for hedging, amenable for pruning into any shape or form or grow as a small specimen tree. (Evergreen 4m)									25L	1.7				
Michelia “Melody” - (Hybrid)														
Beautiful small tree of pyramidal form. Large broad thickly petalled flowers which open out wide and smother the branches in late winter. Highly scented. For a sheltered garden free from late frosts. (Evergreen 4m)									25L	1.9				
Michelia “Mixed Up Miss” - (Blumhardt Hybrid)									35L	2				
Forms a wide spreading smaller pyramidal tree with shining paler green leaves. Velvet buds open to deliciously fragrant creamy white rounded flowers with purple edges in spring. Leaves drop as the flowers emerge but quickly refoiliate once flowering has finished. (Evergreen 3.5m)									45L	2.5				
Michelia “Paton Pink ” - (Thirkettle Hybrid)									25L	1.6				
Excellent dark green leaves densely cover this small pyramidal growing tree. During spring bears pink tulip shaped flowers with deeper picotee edge. Flowers open wider. Healthy easy grower which retains its leaves well. (Evergreen 3.5m)									35L	1.8				

			Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)				Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)	
Michelia "Snow Dove"				SOLD OUT FOR 2019					Muehlenbeckia astonii - (Shrubby Tororaro)			SOLD OUT FOR 2019				
Grows into a small to medium sized bushy upright tree with bluish green leaves. In early spring bears a profusion of ice white flowers that open out. Delicious sweet and spicy fragrance. (Evergreen 3m)																
Michelia "Star Bright"				25L	2				Myoporum laetum - (Ngaio, Mousehole Tree)			P18	1			
Large crisp white open starry flowers emerge from long velvety brown buds. They smother this small growing tree in late winter. Beautiful dark green leaves. Horizontal branches radiate from the pyramidal form. Excellent for clipping into any form such as pleaching. (Evergreen 4m)																
Michelia "Touch of Pink"				80L	2.5				Myrsine australis - (Red Matipo, Mapou)			P28	1.1			
An attractive tree with long glossy green leathery leaves. The lovely scented flowers, with a touch of pink, are medium sized and cup shaped. Great to have as a specimen tree in the garden as it brings colour in late winter and early spring. (Evergreen 4m)																
Michelia yunnanensis				25L	1.2				Myrsine salicina - (Toro)			P18	1.1			
A small neat large bush, pyramidal grower, with deep green shiny leaves. Produces a mass of small creamy white starry flowers from velvet buds, over a long period from early spring. Ideal for hedging, amenable for pruning into any shape or form or grow as a small specimen tree. (Evergreen 4m)																
Michelia yunnanensis "Velvet & Cream"				P28	1.4				Nectarine "Goldmine" - (Nectarine)			45L	2.5			
Perfumed white flowers in spring 8 - 10cm across. Clips well into a hedge. Prefers moist acidic soil. (Evergreen 4m)																
Morus alba "Pendula" - (White Mulberry)				45L	1.8	1.7			Nerium "Dr Golphin" - (Oleander)			25L	1.3			
Medium sized tree. Large heart shaped leaves. Edible sweet fruit. Graft height determines ultimate height. (Edible Deciduous 2m)																
Morus nigra - (Black Mulberry)				25L	2											
Medium to eventually large spreading tree. Thick dark green foliage. Ripe fruit are black and will fall with little effort to remove them. (Edible Deciduous 7m)																

			Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)				Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)		
Nerium "Madonna" - (Oleander)				25L	1.3					Nothofagus solandri var. cliffortiodes - (NZ Mountain Beech)			25L	1.5			
Hardy, small evergreen tree. Excellent for warm sunny regions. Quick growing screen. Summer flowers of semi-double purest white. Leaf toxic to livestock. (Evergreen 2.5m)										35L	2.3						
Nerium "Mrs Roeding" - (Oleander)				25L	1.5					Nothofagus truncata - (NZ Hard Beech)			SOLD OUT FOR 2019				
Small bushy tree ideal for warm sunny conditions. Double flowers of salmon orange all summer and autumn. Best in full sun with good drainage. Leaf toxic to livestock. (Evergreen 2.5m)																	
Nerium "Punctatum" - (Oleander)				25L	1.7					Nyssa sinensis - (Chinese Tupelo)			P18	0.8			
Small bushy tree ideal for warm sunny conditions. Single bright pink flowers all summer and autumn. Best in full sun with good drainage. Leaf toxic to livestock. (Evergreen 3m)										25L	1.8						
				35L	2.7												
				45L	2.8												
Nestegis cunninghamii - (Black Maire)				45L	2.8					Nyssa sylvatica - (Black Tupelo, Black Gum)			P18	0.8			
Develops a thick straight trunk with coarse corky bark. Long leathery dark green leaves on a dense headed tree. Produces bunches of bright red berries in October. Considered the best firewood amongst our native timbers, sadly most of our established trees ended their lives this way. (Native Evergreen 10m)				60L	3.2				25L	1.6							
									35L	2.2							
									45L	2.4							
Nothofagus fusca - (NZ Red Beech)				P18	1.6					Nyssa sylvatica "Autumn Cascade" - (Weeping Tupelo)			25L	2			
Forms an erect pyramidal narrow growing tree for decades before forming a larger sized tree. Small crinkly leaves are brownish green to deep bronzy red, this colour intensifies towards winter. Prefer cooler climates. Grows in warm climates as long as has adequate moisture and shelter from hot winds. (Native Evergreen 5m)				35L	2.3				35L	2.2							
				45L	2.4												
				80L	3.2												
Nothofagus menziesii - (NZ Silver Beech)				P18	1.2					Nyssa sylvatica "Sheffield Park" - (Tupelo)			25L	1.8			
Forms an erect pyramidal narrow growing tree for decades before forming a larger sized tree. Small deep green leaves. Young spring growth is pale green against the silvery white trunk. Prefer cooler climates. Will grow in warm climates as long as has adequate moisture and shelter from hot winds. (Native Evergreen 5m)																	
Nothofagus solandri - (NZ Black Beech)				25L	1.6					Nyssa sylvatica var. biflora - (Twin Flowered Tupelo)			P18	1.8			
Decorative, glossy dark-green leaves which colour in winter. Black bark and a slow tiered growth. (Native Evergreen 5m)										25L	1.1						

		Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)				Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)
 <div>OLEA (OLIVE)</div>														
Olea europaea "Ascolano" - (Hybrid Olive)			P28	2										
Dual purpose selection from Italy with large fruit to pit ratio. Excellent for pickling. Tall bushy grower. Excellent for hedges, screens, lining avenues and drive-ways. Cold hardy. Requires the pollinator Frantoio or Leccino for fruit set. Excellent street tree as no fruit without a pollinator. (Edible Evergreen 4m)			45L	2.4										
Olea europaea "Barnea" - (Hybrid Olive)			SOLD OUT FOR 2019											
Vigorous upright, fairly narrow grower developed in Israel. High yielding oil. Pickles well when going black. Requires the pollinator Picholine or Manzanillo for fruit set. Excellent street tree as no fruit without a pollinator. (Edible Evergreen 4m)														
Olea europaea "El Greco" - (Hybrid Olive)			P28	1.6										
A smaller growing, dense bushy tree. NZ selection. Ideal for hedging, screening training into pillars, balls, etc. Excellent as a street tree. Great for containers. (Edible Evergreen 3.5m)			35L	2										
			45L	2										
			60L	2.4										
Olea europaea "Frantoio" - (Hybrid Olive)			P28	1.8										
Main Tuscan oil variety. Exceptionally high quality and quantity yielding oil. Pickles well when green. Taller variety suitable for lining avenues and driveways. Cold tolerant. Self-fertile. (Edible Evergreen 4m)			45L	2.5										
Olea europaea "J5" - (Hybrid Olive)			P28	1.7										
This is suited to warmer areas where no chilling is required for fruit set. Heavy yield of Olives on a large tree. Excellent for hedges, screens. Lining avenues and driveways. Self-fertile. (Edible Evergreen 4m)			45L	2.4										
Olea europaea "Koroneiki" - (Hybrid Olive)			P28	1.7										
Bears large crops of high yielding oil from small olives. This is suited to warmer areas where no chilling is required for fruit set. Excellent for hedging and screening. Well suited to coastal areas. Self-fertile. (Edible Evergreen 4m)														

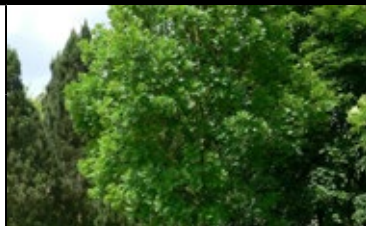

Olea europaea "Leccino" - (Hybrid Olive)						P28	1.8			
Superb Tuscan oil selection. Especially tolerant of the cold once established. Excellent for lining drive-ways and avenues. Requires the pollinator Frantoio. Excellent street tree as no fruit without a pollinator. (Edible Evergreen 4m)						25L	2			
Olea europaea "Manzanillo" - (Hybrid Olive)						25L	2			
Famous Spanish dual purpose variety. Excellent texture and great eating. One of the best pickling Olives. Small spreading tree. Great possibilities for pleaching as the branches spread outwards Not for cold areas. Requires the pollinator Frantoio. Excellent street tree as no fruit without a pollinator. (Edible Evergreen 4m)						45L	2.6	1		
Olea europaea "Mission" - (Hybrid Olive)						P28	2			
A vigorous upright grower. Bears a heavy crop of smaller sized Olives which are best pickled. Grows well in the cooler regions. Self Fertile. (Edible Evergreen 5m)						45L	2.4			
Olea europaea "Picual" - (Hybrid Olive)						25L	1.6			
Spain's number one oil variety with high quality and quantity oil production. Excellent for screening and hedging, lining avenues and drive-ways. Cold hardy and tolerant of poorly drained soils. Not for humid regions. Self-fertile. (Edible Evergreen 3.5m)						45L	2.4			
Olea europaea "Verdale" - (Hybrid Olive)						35L	2.5			
A dual purpose French Olive. Good for pickling at the green fruit stage. A small compact grower well suited for hedging and screens. Self-fertile. (Edible Evergreen 4m)						45L	2.5			
Olearia albida - (Tanguru)						45L	2			
Vigorous with an erect bushy growth habit. Thick dark green leaves are white underneath. Large white daisies in panicles through summer. Tolerant of dry sandy conditions and coastal exposure. (Native Evergreen 4m)						200L	3			
Olearia paniculata - (Akiraho, Golden Ake Ake)						P28	1			
An excellent coastal hardy large bush or small tree. Vigorous with an erect habit suitable for screening or hedging. Lemon green coloured tough leaves are white underneath and have wavy margins. Needs perfect drainage. (Native Evergreen 3m)						25L	1.4			

		Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)			Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)

Peach "Black Boy" - (Peach)			35L	1.5				Phyllocladus trichomanoides - (Tanekahaha, Celery Pine)			P28	1	
Peach "Golden Queen" - (Peach)			35L	1.5				Picea mexicana - (Mexican Spruce)			25L	1	
			45L	1.7									

		Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)
Picea pungens "Baby Blue" - (Colorado Blue Spruce)			25L	1		
Seed produced from selected blue grey needled trees. A more dense and smaller growing Spruce. Performs better in colder climates. Makes a superb Christmas tree. (Evergreen 2.5m)						
Picea pungens "Glauca" - (Colorado Blue Spruce)			P28	0.6		
A narrow pyramidal form densely covered with rich blue green needle-like leaves. New growth is bright blue. Slow growing, enduring conifer. (Evergreen 3m)			25L	1		
Picea sitchensis			25L	1		
Narrowly conical, green 18mm needles and yellowish-brown cones. Used as a Christmas tree in NZ. (Evergreen 10 - 40m)						
Picea smithiana - (Himalayan Weeping Spruce)			25L	1		
A large vigorous spruce. Narrow growing with weeping branches. Healthy grower with branches to the ground. (Evergreen 6m)						
Pinus pinea - (Stone Pine)			25L	1.3		
This tree has been used and cultivated for its edible pine nuts since prehistoric times. They are widespread in horticultural cultivation as ornamental trees, planted in gardens and parks around the world. (Evergreen 6m)						
Pistacia chinensis - (Chinese Pistachio)			P28	1.8		
Handsome small tree with elegant glossy green pinnate leaves. Upright grower with spreading branches make a perfect small shade tree. Vivid scarlet, crimson and orange leaves in autumn. Tolerant of alkaline soils. Excellent street tree. (Deciduous 6m)			45L	3		

		Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)
PITTOSPORUM						
Pittosporum colensoi - (Rautawhiri)			SOLD OUT FOR 2019			
A small erect growing tree with large thick leathery green leaves and black stems. Vigorous and hardy tolerating a wide range of growing conditions. Purple flowers fragrance the air through spring. Excellent as a specimen tree, screen or hedge. (Native Evergreen 6m)						
Pittosporum crassifolium - (Karo, Turpentine Tree)			P28	1.2		
Forms a large shrub or small erect growing tree. White felted new shoots are covered with a dense layer of silver hair. Mature leaves are dark green and leathery. Purple flowers fragrance the air through mid-summer. Very tough coastal hardy specimen tree, screen or hedge. (Native Evergreen 3m)			25L	1.9		
			35L	2		
			45L	2.8		
Pittosporum eugenoides - (Tarata, Lemonwood)			35L	2		
Forms a large rounded small tree with large pale green leaves. They emit a lemony fragrance when crushed. Pale yellow flowers scent the air through late spring into summer. A quick growing hardy screen or shelter tree providing foliage right to the ground. (Native Evergreen 5m)			45L	2.4		
Pittosporum eugenoides "Variegatum" - (Variegated Tarata)			35L	2		
Forms a large rounded bush with large pale green leaves irregularly margined with creamy white. They emit a lemony fragrance when crushed. Pale yellow flowers scent the air through late spring into summer. Easily grown, making a nice compact specimen tree with foliage right to the ground. (Native Evergreen 3m)						
Pittosporum ralphii - (Ralph's Kohuhu)			SOLD OUT FOR 2019			
Forms a large shrub or small erect growing tree. White felted new shoots are covered with a dense layer of silver hair. Mature leaves are large, paler green and leathery. Moderately coastal hardy. Excellent trimmed as a screen. (Native Evergreen 3m)						
Pittosporum tenuifolium - (Kohuhu, Black Matipo)			45L	2		
Slender erect narrow pyramidal form with black branches and stems. Small glossy green leaves with wavy margins. Quick and easy to grow in sun or shade. Can be clipped into any size or form. Excellent as a screen. (Native Evergreen 5m)			60L	2.4		

			Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)				Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)			
Pittosporum tenuifolium "Limelight" - (Kohuhu Cultivar)				P28	1.3				Pittosporum tenuifolium "Stephens Island" - (Kohuhu)				P28	1.5				
Bushy erect grower with pyramidal form. Glossy green leaves with lime yellow centre. Excellent for screening. (Native Evergreen 3m)	25L								1.2									
	35L								1.3									
	45L								1.5									
Pittosporum tenuifolium "Little Anita" - (Dwarf Kohuhu)				P18	0.4							25L	2.2					
The only dwarf pittosporum which grows wider than taller. Forms a very compact cushion of leaves. Ideal for garden edging and for container planting. (Native Evergreen 0.3m)	35L			0.6														
	Pittosporum tenuifolium "Miracle" - (Kohuhu Cultivar)				35L	1.4				Pittosporum tenuifolium "Variegatum" - (Kohuhu Cultivar)				35L	2			
A hardy grower with greyish green oval leaves that have creamy margins. Easy rapid grower. Excellent as a specimen or for shelter. (Evergreen 2m)	45L	2.4																
	Pittosporum tenuifolium "Mountain Green" - (Kohuhu Cultivar)				35L	1.5				Pittosporum tenuifolium "Wai Iti" - (Kohuhu Cultivar)				25L	1.2			
Bushy erect grower with a rounded form. Small glossy fresh green leaves are tightly packed along the erect stems. Bright purple spring flowers scent the air with their sweet fragrance. Quick and easy to grow in sun or shade. Can be clipped into any size or form. Excellent as a screen or hedge. (Native Evergreen 2.5m)	45L	2								Erect bushy tree. The shimmering oval leaves are clear jade green contrasting with wine-red stems. Great as a feature tree or a hedge. Dark maroon, almost black flowers in spring. Hardy to most soil conditions, avoid wet ground. (Native Evergreen 2m)								
	Pittosporum tenuifolium "Mountain Jade" - (Kohuhu Cultivar)				45L	2.2				Pittosporum tenuifolium "Wrinkle Blue" - (Kohuhu Cultivar)				25L	1.6			
Bushy erect grower with a pyramidal form. Small glossy fresh green with a lime edge are tightly packed along the erect black stems. Quick and easy to grow in sun or shade. Can be clipped into any size or form. (Native Evergreen 2.5m)	35L	1.9																
	60L	3																
	80L	3.2																
Pittosporum tenuifolium "Silver Pillar" - (Kohuhu Cultivar)				35L	1.8				Plagianthus divaricatus - (Ribbonwood)				SOLD OUT FOR 2019					
Small silver green leaves with a cream edge. An upright narrow grower which rarely requires trimming. Ideal for narrow spaces and containers. (Native Evergreen 2m)	Bushy tangled shrub with wide-angled thin twigs bearing small very narrow clusters of leaves and small drooping flowers inhabiting estuary areas. Twigs with star-shaped hairs. (Native Evergreen 3m)																	
	Pittosporum tenuifoilum "Silver Sheen" - (Kohuhu Cultivar)				35L	2				Plagianthus regius - (Ribbonwood)				25L	2.8			
Slender erect narrow pyramidal form with black branches and stems. Small glossy pale silvery green shimmering leaves. Quick and easy to grow in sun or shade. Can be clipped into any size or form. Excellent as a screen. (Native Evergreen 3m)	45L	2								Forms a graceful small tree of slender and upright habit. Fresh green new spring leaves and lime green blossoms. Tolerates exposed conditions. (Native Evergreen 5m)

Planchonella costata				P28	1.6				Platanus orientalis "Alford Flame" - (Oriental Plane)				25L	2.5						
<div><div>Small tree with leathery leaves that are paler underneath and with straight veins radiating from central vein more visible on the upper surface inhabiting coastal forest in the upper North Island. Small flowers. Red fruit ripening to black. (Native Evergreen 3.5m)</div></div>									<div><div>A hardy select form of oriental plane found in Canterbury. Deep green leathery leaves that colour up a brilliant red, orange and bronze early autumn with a clean leaf drop later in the autumn. Suitable for avenue, group and specimen planting. (Deciduous 7m)</div></div>				45L	3						
													PLATANUS (PLANE)							
Platanus acerifolia - (London Plane)				25L	2.5				Platanus orientalis "Autumn Glory" - (Oriental Plane)				45L	2.7						
<div><div>Grows rapidly to form a large round headed tree. Smooth mottled bark peels off in large flakes. Large palmate leaves. Perfect for large lawns, parks, avenues, and streets. Can be pruned heavily. Able to survive extreme conditions of poor soil, limited moisture, and pollution. (Deciduous 15m)</div></div>				35L	2.7				<div><div>Grows rapidly to form a dense and compact round headed tree. The bark peels off in large flakes to give a dappled appearance. Smaller leaves are deeply lobed. Gold and orange autumn leaves. Forms a handsome shade tree. Tolerant of pollution. (Deciduous 6m)</div></div>				60L	3						
				45L	3															
				60L	3.3															
Platanus acerifolia "Pyramidalis" - (Upright London Plane)				45L	3.6				Platanus orientalis "Fitzherbert" - (Oriental Plane)				60L	2.6						
<div><div>A more tidy and erect growing form of the above noted for its more symmetrical shape. Fits into tighter spaces avenues and streets. (Deciduous 10m)</div></div>				60L	4				<div><div>Developed for planting in the Manawatu and is now the feature tree in Fitzherbert Ave, Palmerston North. Wind hardy. Develops into a compact upright pyramidal grower with deeply cut fingered leaves. Disease-resistant. (Deciduous 7m)</div></div>				80L	3						
			Platanus acerifolia "Suttnerii" - (Variegated London Plane)				25L	2.2							Podocarpus gracilior - (Fern Pine)				35L	1.7
<div><div>Very handsome tree with rounded and branched head, attractive mottled flaking bark. Large leaves are heavily striped and splashed with white. Attractive shade tree. (Deciduous 13m)</div></div>			<div><div>Grows rapidly to form a large round headed tree. Bark peels off in large flakes to give a dappled appearance. Where space permits it forms a shade tree, perfect for large lawns, parks, avenues, streets, etc. Can be pruned heavily. Tolerant of pollution. (Deciduous 9m)</div></div>				45L	2				Podocarpus henkelii - (Yellowwood)				25L	1.2			
						Platanus orientalis - (Oriental Plane)				35L	3.5								<div><div>South African species forming a large pyramidal growing tree. Shiny dark green narrow leaves clothe the pendent branches. Spring new shoots are a bright salmon pink. Protect from heavy frosts. (Evergreen 5m)</div></div>	
<div><div>Grows rapidly to form a more upright form. Large leaves are deeply divided. Golden autumn leaves. Forms a handsome shade tree, perfect for large lawns, parks, avenues, and streets. Can be pruned heavily. Tolerant of pollution. (Deciduous 9m)</div></div>			45L	3				<div><div>An upright grower with pale green slender leaves. Can make very narrow and dense hedges and screens. Tolerant of semi-shade. Excellent street tree. (Evergreen 3m)</div></div>			PODOCARPUS									

		Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)			Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)		
Podocarpus macrophyllus "Maki" - (Fern Pine)			P28	1.4				Populus "Chiba" - (Columnar Poplar)			25L	2.5			
Moderately slow-growing, large evergreen shrub with a strongly-columnar growth habit. Can be pruned into a small tree. Features dense-growing medium to deep-green foliage that takes very well to shearing, making it an ideal selection for use as a hedge, screen, background, column or topiary. (Evergreen 3m)	35L							3							
Podocarpus mannii			SOLD OUT FOR 2019				Poplar "Crows Nest" - (Lombardy Poplar)			25L	2.5				
A dense growing tree which trims well as a hedge. Long leaves are fresh green when young. Quick vigorous grower. (Evergreen 10m)	80L						4.5								
Podocarpus parlatorei - (Parlatore's Podocarp)			35L	2.2				Prumnopitys ferruginea - (Miro)			P28	1.4			
A fast growing conifer, native of South America. Makes an excellent hedge or screen as responds well to trimming. Light green new leaves mature shiny deep green. (Evergreen 10m)	Prumnopitys taxifolia - (Matai)														
Podocarpus totara - (Green Totara)	45L	2.6													
This tall straight pyramidal tree is covered with olive green to bronze needle like leaves. New leaves are a fresh green. Reddish brown bark peels in long strips. Very tough tree tolerating dry and windy conditions. Easily trimmed as a screen or hedge. Excellent street tree. (Native Evergreen 6m)	60L	2.4													
	80L	2.4													
Podocarpus totara "Aurea" - (Golden Totara)			35L	1.8							P28	1			
Similar growth habit to totara but with more graceful branches. The golden yellow leaves are softer to touch and impart a beautiful glow in any garden. Very tough tree tolerating dry and windy conditions. Easily trimmed as a screen or hedge. Excellent street tree. (Native Evergreen 5m)	45L														
Podocarpus totara "Matapouri Blue" - (Blue Totara)			35L	2.3							25L	2			
Steely blue-grey leaves are a feature of this totara selection. Slow growing and smaller in stature, making it ideal for the smaller garden. Can be clipped into any shape and size. Ideal as a smaller screen. (Native Evergreen 3m)	45L														
Poliothyrsis sinensis - (Chinese Pearl Beauty)			25L	2.5							45L	2.5			
A broadly conical tree. Attractively tinted leaves with cream coloured flowers in large panicles. A beautiful small tree suited to the home garden. (Deciduous 4m)	35L														

			Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)				Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)	
Prunus avium "Lapins" - (Cherry)									Prunus "Purple King" - (Plum)							
Large dark red firm fruit with a good flavour. Fruit ripens from early January and is resistant to cracking. Self-fertile. (Edible Deciduous 4m)			60L	2.7					Very large, purple skinned fruit with yellow flesh. Sweet and juicy. Fruits mid season. Cross pollinates with most other plums. An excellently performing plum for warmer regions. (Edible Deciduous 3m)			35L	2			
Prunus "Billington" - (Plum)									Prunus "Reine Claude de Bavay" - (Plum)							
The first plum with a dark red skin and flesh to ripen. Heavy cropper around Christmas time. Fruit has a good flavour. (Edible Deciduous 4m)			25L	2					Self fertile. A heavy cropper which produces sweet and juicy smaller sized green plums. Fruits mid-season. Well suited to warmer districts. (Edible Deciduous 4m)			35L	2.4			
			35L	2.4												
Prunus "Black Doris" - (Plum)									Prunus "Ruby Queen" - (Plum)							
Medium to large very dark black purple skin with firm dark red flesh. Fruits from late February into March. A vigorous upright tree with heavy crops of fruit. Excellent all-purpose plum, for eating, jams, and sauces. Pollinators are Billington, Elephant Heart and Santa Rosa. (Edible Deciduous 4m)			25L	2					Dark red black skin and sweet and juicy red flesh. A highly productive producer with good disease resistance. Recommended for organic growing and for growing in areas with high humidity. Ripens late in the season. Best production with Prunus Santa Rosa. (Edible Deciduous 3m)			25L	1.5			
			35L	2								35L	1.8			
Prunus domestica "Fortune" - (Plum)									Prunus salicina "Burbank" - (Plum)							
Very large, round, bright red plum with aromatic amber flesh. Very meaty, sweet and juicy. Fruits mid season. Pollinator is Santa Rosa. (Edible Deciduous 3m)			35L	2					Large, round, dark red skin. Sweet, juicy, yellow flesh. Heavy cropper mid season. White blossom in spring. Partially self-fertile. (Edible Deciduous 3m)			35L	2			
Prunus domestica "Lusia" - (Plum)									Prunus salicina "Santa Rosa" - (Plum)							
Large yellow skinned and fleshed juicy plum. Fruit is shaped like a Mango and is very aromatic and sweet. Ripens late Jan/early Feb. Easy to grow and manage in the home garden. Self fertile. (Edible Deciduous 3m)			35L	1.8					Medium to large round crimson red plum. Yellow flesh is stained with pink. Sweet and juicy with excellent flavours. Ripens from end of January over a long period. All-purpose plum, for eating, jams, and sauces. Partially self-fertile. Better crops when planted with Black Doris or Omega. (Edible Deciduous 3m)			35L	2			
			45L	2								45L	2.2			
Prunus mume "Sundrop" - (Apricot)									Prunus salicina "Shiro" - (Plum)							
Large yellow oval freestone fruits that are sweet and juicy. Fruits over a long season. Eat fresh or preserve. Suitable for most regions. Partially self-fertile. Pollinator is Trevatt. (Edible Deciduous 3m)			35L	2.2					Large, golden, sweet and juicy plums. Fruits early in the season. Smaller growing tree. Pollinator is Santa Rosa. (Edible Deciduous 3m)			35L	2			
Prunus mume "Trevatt" - (Apricot)									Prunus "Tangshi" - (Sour Cherry)							
Vigorous tree producing medium sized, richly flavoured golden apricots. Matures mid to late season. Good for warmer climates. (Edible Deciduous 3m)			35L	2					Medium sized fruit are pale pink with a red cheek. A self-fertile variety which bears well in warmer climates. Smaller upright grower. Ripens late October. (Edible Deciduous 4m)			35L	2			
			45L	2.2

<div>Prunus “Accolade” - (Flowering Cherry)</div>								45L	2.8	1.5			<div>Prunus campanulata “Superba” - (Taiwan Cherry)</div>								35L	2.5	1.5			
<div>Small tree with vase shape form and spreading branches. Yellow and orange autumn leaves. Semi double frilled rich pink flowers hang in clusters. Early September flowering. Excellent street tree. (Deciduous 5m)</div>								45L	2.8	1.7			<div>Hybrid which flowers from late August. Profuse display of deep rose red single blossom in pendulous clusters. Blossom is full of nectar to the delight of birds. Forms a small pyramidal upright tree. Perfect for the smaller garden and lining drive-ways. Excellent street tree. (Deciduous 4m)</div>								45L	2.7	1.7			
<div>Prunus “Amanogawa” - (Milky Way Cherry)</div>								35L	2				<div>Prunus cerasifera “Thundercloud” - (Flowering Plum)</div>								35L	2.5				
<div>Fragrant clusters of fragrant semi-double pale pink flowers with deeper margins. Flowers late October. Orange and yellow autumn leaves. A tree for narrow spaces where height is required. Also for lining avenues and drive-ways. Excellent street tree. (Deciduous 5m)</div>								45L	3	0.8			<div>Ornamental plum hybrid with year round interest. Black stems and branches are revealed through winter. Stems are wreathed in dainty pink blossom in early September. Leaves emerge smoky red and darken to purple-black. Colour persists all season. Upright grower. Excellent street tree. (Deciduous 4m)</div>								45L	2.7				
<div>Prunus campanulata “Felix Jury” - (Taiwan Cherry)</div>								45L	2.6	1.7			<div>Prunus cerasus "Rhexii"</div>								60L	3.5	1.8			
<div>Flowers early September. Profuse display of larger deep rose red single blossom in pendulous clusters. Blossom is full of nectar to the delight of birds. Autumn leaves are a rich blend of red, gold and orange. Forms a small pyramidal upright tree. Excellent street tree. (Deciduous 5m)</div>								60L	3	1.7			<div>Upright spreading tree with double white flowers. Beautiful gold, orange, and red autumn leaf colour. Hardy. (Deciduous 6m)</div>								80L	5				
<div>Prunus campanulata “Felix Jury” - (serrula interstem)</div>								35L	2.6	1.5			<div>Prunus hillieri “Spire” - (Flowering Cherry)</div>								45L	3.2	1.7			
<div>Shining red peeling bark is an added feature. Felix Jury has been grafted onto a Prunus serrula interstem which will add an interesting red peeling bark and reduce the overall height of the tree. (Deciduous 3.5m)</div>								45L	2.6	1.5			<div>Densely branched narrow upright form with smaller leaves. Bronze spring leaves become green and turn red and orange in autumn. Becomes a cloud of dainty soft pink blossom in September contrasts against the reddish shoots. Perfect for small spaces, lining drive-ways. Excellent street tree. (Deciduous 5m)</div>								60L	3	1.7			
<div>Prunus campanulata “Mimosa” - (Felix Jury Hybrid)</div>								35L	2.7	1.2			<div>Prunus “Kiku-Shidare Sakura” - (Cheal’s Weeping Cherry)</div>								45L	2.2	1.7			
<div>Flowers in august with a profusion of rich pink blossom. The flowers are bunched in distinctive ball shaped clusters. The flowers attract nectar seeking birds. Coppery summer leaves. A small neat growing shade tree, well suited to the smaller garden. Does not set seeds. (Deciduous 4m)</div>													<div>Branches arch before cascading to ground. Large double and frilly deep pink flowers are borne in clusters in early October. Bronze spring leaves are green through summer and scarlet in autumn. Graft height will determine ultimate height. (Deciduous 3m)</div>													
<div>Prunus campanulata “Okame” - (Taiwan Cherry)</div>								35L	2.7				<div>Prunus laurocerasus - (Cherry Laurel)</div>								P28	1.2				
<div>Small tree with a compact rounded head and smaller leaves. Mass of bright carmine rose bell shaped single blossom hang in pendant clusters. Flowers early September. Bright orange autumn leaves. Perfect for the smaller garden. Excellent street tree. (Deciduous 3m)</div>								80L	3	1.7			<div>Vigorous hardy evergreen shrub with large shiny leaves. Long panicles of white flowers in spring. Dense growing screen or hedge, popular in formal gardens. If left unpruned, will form a wide spreading small tree. (Evergreen 5m)</div>								35L	1.6

			25L	1.3						160L	5	1.8	
Prunus lusitanica - (Portugal Laurel) [Standard]								Prunus sato-zakura "Kanzan" - (Flowering Cherry)					
Native to Spain and Portugal this small tree forms a pyramidal shape, with dark green leaves and reddish stems. Panicles of scented white flowers during summer. An excellent subject to prune into any shape, form and size. (Evergreen)			P28	1.4	0.8			Narrow erect vase shaped grower. Maroon buds open to large fully double purplish pink flowers held in drooping clusters. Bronze leaves emerge with the flowers to contrast nicely. Flowers late October. Red, orange and yellow autumn leaves. Perfect for lining avenues and drive-ways. (Deciduous 6m)		45L	2.9	1.7	
			45L	1.8	1.2					60L	2.9	1.7	
Prunus mume "Peggy Clarke" - (Flowering Japanese Apricot)								Prunus serrula - (Paperbark Cherry)					
One of the first blossom trees to flower in mid-winter. Delightfully fragrant semi-double rose pink flowers on the bare branches. Very oriental looking and a great cut flower. Forms a small rounded bush. (Deciduous 3m)			45L	2.5	1			Prized for the glistening, polished, reddish brown, and mahogany-like peeling bark. Long, narrow, serrated green leaves appear with the single white blossom in mid spring. Stunning yellow autumn leaves. Bare branches glow in the winter sun. Forms a small upright tree. (Deciduous 6m)		35L	2.6		
										45L	2.6		
Prunus mume "The Geisha" - (Flowering Japanese Apricot)								Prunus "Shimidsu-Sakura" - (Flowering Cherry)					
One of the first blossom trees to flower in mid-winter. Delightfully fragrant claret rose single flowers with numerous central stamens appear on the bare branches. Very oriental looking and a great cut flower. Forms a small rounded bush. (Deciduous 3m)			25L	1.5				One of the loveliest flowering cherries which grows into a small spreading tree with gracefully arching branches to form a flat top tree. Late October flowering. Pink buds open to fully double flowers of palest pink which fade to white, in pendulous clusters. Orange and red autumn leaves. (Deciduous 4m)		35L	2.5	1.8	
			35L	1.8						45L	2.5	1.7	
										60L	2.6	1.8	
										80L	2.9	1.8	
Prunus padus - (Bird Cherry)								Prunus "Shirotae" - (Mt Fuji Cherry)					
Tidy, upright grower. Masses of small, white, almond scented flowers in pendulous clusters. Glossy black summer fruit. (Deciduous 5m)			45L	3.5				Strong growing, wide spreading, flat top cherry with tiered horizontal branches. Grows as wide as its height. Large fragrant, pure white single and semi-double flowers. Flowers in early October. Serrated green leaves turn yellow and orange in autumn. A superb shade tree. (Deciduous 5m)		35L	2.5	1.7	
										45L	2.5	1.7	
										60L	2.8	1.7	
										80L	3	1.7	
Prunus "Pink Perfection" - (Flowering Cherry)								Prunus subhirtella "Autumnalis Rosea" - (Flowering Cherry)					
Erect spreading vase shaped tree. Bronze new leaves are green through summer and orange in autumn. Fully double flowers with frilled margins are bright rosy pink in bud, open clear pink. Flowers late October into November. Perfect for lining drive-ways, avenues. Excellent street tree. (Deciduous 6m)			45L	2.8	1.7			Compact tree with upright growing branches. Semi-double scented flowers are borne in dainty clusters from autumn to spring. Small flowers open paler from deep pink buds. Small deeply serrated leaves turn red and orange in autumn. Perfect for smaller gardens, Excellent street tree. (Deciduous 5m)		35L	2	1.5	
			60L	3	1.7					45L	2.4	1.3	
Prunus puddum - (Himalayan Cherry Tree)								Prunus subhirtella "Falling Snow" - (White Weeping Cherry)					
Flowers late winter. Bears a mass of deep pink, single flowers full of sugary nectar. Compact grower. (Deciduous 4m)			45L	3.5				Slender weeping tree, building up tiers of arching and gracefully pendant branches. Branches are smothered in mid spring with pink buds opening to small single blush pink flowers. Yellow and orange autumn leaves. Height of graft will determine ultimate height. (Deciduous 3m)		35L	1.3	1.2	
										35L	2	1.5	
										45L	2.2	1.8

			Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)
Prunus subhirtella "Peggy Wilson" - (Flowering Cherry)			SOLD OUT FOR 2019				
A smaller vase shaped tree with spreading branches, well suited to the smaller garden. Flowers very well in warmer climates. Becomes smothered with large palest blush pink blossom in mid-September. Orange and yellow autumn leaves. (Deciduous 4m)							
Prunus subhirtella "Pendula Rosea" - (Rosebud Cherry)			35L	1.3	1.2		
Slender willowy arching branches build up in tiers to create a wide spreading fountain effect. Branches are smothered in mid spring with deep pink buds opening to small single pink flowers. Yellow and orange autumn leaves. Height of graft will determine ultimate height. (Deciduous 3m)			35L	1.8	1.7		
			45L	2.1	1.8		
			60L	2	1.5		
Prunus subhirtella "Southern Gem" - (Flowering Cherry)			45L	2.8	1.7		
Small, upright cherry. Dainty semi-double pale, blush-pink blooms in autumn. Tolerates root confinement. (Deciduous 4m)			60L	2.8	1.7		
Prunus "Tai Haku" - (Great White Cherry)			45L	2.8	1.7		
Tall spreading tree with a rounded crown. The very large pure white, slightly fragrant flowers are borne in large clusters in early October. The large leaves mature deep green through summer, turning yellow and orange in autumn. Spectacular blossom tree. (Deciduous 8m)			60L	2.8	1.7		
Prunus "Ukon" - (Green Flowering Cherry)			35L	3	1.7		
Vase shaped tree with upright spreading branches. Soft pink buds open lime green and age to an antique green and pink colouring. Large double flowers are very unique and nestle among the bronze coloured emerging leaves. Flowers late September. Orange red to plum red autumn leaves. (Deciduous 5m)							
Prunus x blireana - (Flowering Cherry)			SOLD OUT FOR 2019				
Beautiful hybrid between an ornamental plum and apricot giving a profusion of fragrant rose pink double blossom in late August. Rich claret red leaves persist though summer. A small rounded grower. Perfect for smaller gardens. Excellent street tree. (Deciduous 3.5m)							
Prunus yedoensis - (Yoshino Cherry)			35L	2.5	1.7		
Small graceful upright tree with arching branches. In early September becomes smothered with almond-scented blush white single blossom. Spectacular in full flower. Orange-red autumn leaves. Excellent street tree. (Deciduous 5m)			45L	2.6	1.7		
			60L	2.8	1.8		
			100L	3	1.7		

Prunus yedoensis "Awanui" - (Hybrid Yoshino Cherry)			35L	3.1			
Erect vase shaped spreading grower. In mid-September becomes smothered in fragrant, blush pink single blossom, from deeper buds. An avenue of this cherry in full flower is an unforgettable sight. Yellow and orange autumn leaves. Excellent street tree. (Deciduous 6m)			45L	2.6	1.5		
			60L	3.5			
			80L	4			
Prunus yedoensis "Awanui" - (serrula interstem)			35L	2.2	1.7		
Shining red peeling bark is an added feature. Awanui has been grafted onto a Prunus serrula interstem which will add an interesting red peeling bark and reduce the overall height of the tree. (Deciduous 4.5m)			45L	2.7	1.7		
			60L	3	1.7		
			100L	3.5	1.7		
Prunus yedoensis "Mountain Haze" - (Flowering Cherry)			45L	2.9	1.5		
Masses of small pink flowers with deeper centres cover this dome shaped tree in early spring. Autumn colours orange, red and yellow. Hardy. (Deciduous 4 - 5m)			45L	3	1.7		
			60L	3	1.5		
			80L	2.5	1.7		
Prunus yedoensis "Purpendens" - (Weeping Yoshino Cherry)			45L	2.1	1.7		
Quickly forms an umbrella shape with masses of single pearly white blossoms smothering the branches in mid spring. Good autumn colour. (Deciduous 5m)			60L	2.1	1.7		
Prunus yedoensis "Te Mara" - (Flowering Cherry)			60L	2.8			
NZ raised hybrid. Large bunches of scented shell pink single flowers. Flowers early spring. Attracts nectar seeking birds. Upright grower which holds its leaves well into winter before falling. (Deciduous 8m)			80L	3			

							Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)				
<div><h1>PSEUDOPANAX</h1></div>															
Pseudopanax adiantifolius										60L	2.3				
Glossy three lobed leathery green leaves. Shrubby growing habit. Protect from heavy frosts. (Native Evergreen 3m)															
Pseudopanax arboreus - (Puahou, Five Finger)										35L	1.4				
Forms a small rounded tree with an open habit and spreading framework of slender stems. Large glossy handsome leaves. Decorative bunches of black berries which birds relish. A very versatile plant which is very hardy. Can be pruned to any size. (Native Evergreen 3m)										60L	2				
Pseudopanax crassifolius - (Horoeka, Lancewood)										25L	1.8				
Narrow growing small tree with a tall erect trunk. Juvenile leaves are long and narrow and hang from the main trunk. After many years the foliage changes to a small head of leaves. Focal point where a hardy dramatic tree is required where there is very little space. (Native Evergreen 4m)										35L	2				
Pseudopanax crassifolius "Fiddlesticks" - (Lancewood)										35L	1.2				
Long narrow leaves adorn the upright slender stems. Leaves are brilliantly coloured orange, gold and pink. A very hardy shrub creating a vertical accent in the landscape. Slow sturdy grower. (Native Evergreen 3m)															
Pseudopanax ferox - (Horoeka, Toothed Lancewood)										25L	1.2				
A narrow growing small tree with a tall erect trunk. Juvenile leaves are short and narrow, distinctly toothed and hang from the main trunk. After many years the foliage changes to a small head of leaves. Excellent focal point where a hardy dramatic tree is required where there is very little space. (Native Evergreen 3m)										35L	1.4				
Pseudopanax laetus - (Five Finger)										P18	1.2				
A tropical looking large multi stemmed shrub. Is clothed in large leathery glossy deep green leaves. Decorative bunches of black berries in spring which birds relish. A very versatile plant which is very hardy. Can be pruned to any size. (Native Evergreen 3m)										P28	1.1				
										35L	1.9				
										60L	2.3				

Pseudopanax lessonii - (Houpara, Coastal Five Finger)						25L	1.6				
A dense bushy shrub with tough leathery green leaves. Prefers a dry position and is coastal hardy. Excellent as filler or as a dense screen. Can be pruned to any size. (Native Evergreen 3m)											
Pseudopanax lessonii "Cyril Watson" - (Hybrid Houpara)						P18	0.6				
Distinct low growing hybrid with a compact bushy habit. Very thick and leathery broad leaves. Prefers a dry position and is coastal hardy. Excellent as filler or in a container. Slow growing, never out grows its position. (Native Evergreen 2m)						P28	0.7				
						35L	1				
						45L	1.2				
Pseudopanax lessonii "Dark Star" - (Hybrid Houpara)						25L	1.5				
Handsome narrow growing shrub with erect stems. Very dark green leathery leaves are margined with bronze. A great choice for small spaces. Excellent hardy filler which will grow anywhere including coastal. (Native Evergreen 2m)						45L	2.6				
Pseudopanax lessonii "Dreamtime" - (Hybrid Houpara)						SOLD OUT FOR 2019					
Erect grower with long fingered and heavily serrated leaves. Leaves are bronze green in summer turning purple through the colder months. A very hardy shrub, creating a vertical accent in the landscape. (Native Evergreen 3m)											
Pseudopanax lessonii "Gold Finger" - (Hybrid Houpara)						25L	1.3				
Bright gold/yellow new growth appears on thin three fingered leaves and fades away to a lush bright green. Great as back drop in the garden or in pots for a short time. Benefits from sun keeping the intensity of the gold/yellow growth. Keep trimmed for a bushy form. (Native Evergreen 1.8m)											
Pseudopanax lessonii "Linearifolius" - (Hybrid Houpara)						100L	2.4				
A handsome shrub with an erect narrow form. The tough leathery green leaves are divided into narrow segments giving the bush a light airy appearance. Prefers a dry position and is coastal hardy. Excellent as filler or as a dense screen. Can be pruned to any size. (Native Evergreen 3m)											
Pseudopanax lessonii "Moas Toes" - (Hybrid Houpara, PVR)						45L	2				
Leathery leaves are strongly lobed to resemble Moas toes. Colour is a blend of green and purple. Upright bushy grower. Coastal and drought hardy. Protect from heavy frosts. (Native Evergreen 3m)											

			Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)
Pseudopanax lessonii "Purpurea" - (Hybrid Houpara)			35L	1.5			
A dense bushy compact growing shrub with glossy purple palmate leaves. The older leaves are very dark green. Prefers a dry position and is coastal hardy. Excellent as a filler or as a dense screen. Can be pruned to any size. (Native Evergreen 2.5m)			45L	1.8			
Pseudopanax lessonii "Sabre" - (Hybrid Houpara)			25L	1.2			
An erect narrow grower with long lance shaped leaves. The leaves point downwards from the purplish stems. Dark green leathery leaves have an orange midrib and reddish brown edges. Prefers a dry position and is coastal hardy. Excellent as a focal point or in narrow spaces. (Native Evergreen 3m)			35L	1.6			
Pseudopanax lessonii "Telstar" - (Hybrid Houpara)			45L	2			
A dense bushy shrub with tough leathery green palmate leaves which are finely cut. Prefers a dry position and is coastal hardy. Excellent as filler or as a dense screen. Can be pruned to any size. (Native Evergreen 3m)							
Pseudopanax lessonii "Trident" - (Hybrid Houpara)			45L	3			
An erect shrub with a small trunk from which arises many upward growing branches. Is densely clothed with three lobed tough leathery green leaves. Prefers a dry position and is coastal hardy. Excellent as filler, to line driveways or as a street tree. Can be pruned to any size. (Native Evergreen 3m)			100L	2.7			
Pseudowintera colorata - (Horopito, Pepper Tree)			P18	1			
Erect growing bushy shrub. Tolerates sun and shade. Frost hardy. (Native Evergreen 3m)							

			Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)
PYRUS (EDIBLE PEAR)							
Pyrus communis "Conference" - (Pear)				25L	2		
Long necked green pears with some russetting. Excellent juicy flavour. Moderately vigorous and slightly spreading. Self fertile. Excellent choice for the home gardener. (Edible Deciduous 4m)				45L	2.7		
Pyrus communis "Doyenne du Comice" - (Pear)				25L	1.8		
Large classic gourmet pear. Green skin flushed red with white, melting juicy flesh of rich flavour. Tastes like sweetened cinnamon. Mid to late season. Upright and vigorous habit. High chilling hours needed to set fruit. (Edible Deciduous 4m)							
Pyrus communis "Red Bartlett" - (Pear)				45L	2.7		
Bright red skin when fully ripe. Very aromatic pear with melty flesh and good flavour. Mid season all purpose pear for eating fresh, preserving, baking, and poaching. Pollinators in North Island are Packams or Winter Nellis. In South Island, Conference or Doyenne du Comice. (Edible Deciduous 4m)							
Pyrus communis "Seckel" - (Pear)				35L	2.2		
Small to medium sized gourmet fruit are golden with a red blush. Yellowish flesh is finely grained, juicy and melting with spicy overtones. Excellent quality eating fruit. Fireblight resistant. (Edible Deciduous 4m)				45L	2.6		
Pyrus communis "Williams' Bon Chretien" - (Pear)				45L	2.6		
Large green/yellow fruit, perfect for eating or bottling. Good pollinator. Early season. Fruit keeps well. Pollinators include Beurre Bosc, Winter Nellis, Conference, and Doyenne du Comice. (Edible Deciduous 4m)							
Pyrus communis "Winter Cole" - (Pear)				25L	2		
Small dessert pear-russet over green skin. Ripens mid to late season A prolific and reliable fruiter, with a spreading growth habit. A good keeper with fruit lasting well into winter. Pollinators are Beurre Bisc, Packhams Triumph and Williams Bon Chretien. (Edible Deciduous 4m)				35L	2.2		

		Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)
Pyrus pyrifolia "Reddy Robin" - (Nashi Pear)						
Looks and tastes like a red apple, with skin and texture of a pear. Very sweet and juicy. Also known as a Papple. Healthy, delicious fruit to snack on. (Edible Deciduous 4m)			25L	2		
PYRUS (ORNAMENTAL PEAR)						
Pyrus betulifolia "Autumn Leaves" - (Birchleaf Pear)						
Slender smaller growing tree with graceful weeping side branches. They are clothed with shimmering green leaves, the effect being a cascade of leaves. Mass of fragrant white Hawthorn like flowers in early spring. Scarlet autumn leaves. (Deciduous 5m)			45L	2.2	1.5	
			60L	2.2	1.5	
Pyrus calleryana "Aristocrat" - (Ornamental Pear)						
Pyramidal growing tree with an open form and spreading branches that can be trained to grow horizontal. Profusion of white flowers in early spring. Reddish purple new spring leaves mature glossy green and turn red in autumn. Tolerant of poor drainage and pollution. Excellent street tree. (Deciduous 7m)			25L	2.4		
			35L	2.7		
			60L	3.3		
			80L	3		
Pyrus calleryana "Bradford" - (Ornamental Pear)						
Pyramidal growing tree with densely packed branches, can be easily trained into standard forms. A profusion of early spring blossom is a stunning feature. Glossy green leaves turn red, orange and maroon in autumn. Excellent street tree. (Deciduous 7m)			35L	2.8		
			45L	3		
Pyrus calleryana "Candelabra" - (Ornamental Pear, PVR)						
One of our top sellers. A dense columnar growth habit making it ideal for avenues, streets and smaller spaces. Lustrous dark green leaves turn vibrant shades of red and orange through autumn. Very wind tolerant. Grows in both dry and poor soils plus heavy intermittently wet soils. (Deciduous 6m)			35L	2.5		
			45L	3		
			80L	3.8		
			160L	4		
Pyrus calleryana "Kea" - (Ornamental Pear)						
A smaller growing multi branched tree with a dense bushy growth habit. Glossy green leaves turn to a blend of burgundy and green over summer. This colouring intensifies to red through autumn. Tolerates both dry and heavier wet soils. (Deciduous 5m)			35L	2.2		
			45L	2.4		

		Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)
Pyrus salicifolia "Pendula" - (Weeping Silver Pear)						
Slender weeping stems with silvery grey bark. Willow-like leaves are silvery white in spring, becoming grey green in summer. Forms tiers of weeping branches and can be easily clipped. Withstands strong winds and drought conditions. (Deciduous 3m)			25L	2		
			35L	2.1	1.5	
			45L	2.2	1.5	
			60L	2.2	1.5	
QUERCUS (OAK)						
Quercus acutifolia - (Mexican Species)						
Small thin leaves are a feature of this oak. Dense grower which can be clipped as a screen or hedge. Cold hardy in temperate climates. (Evergreen 6m)			45L	3		
Quercus acutissima - (Sawtooth Oak)						
A medium sized pyramidal shaped tree. Beautiful polished long leaves are margined with bristle teeth. Yellow autumn leaves turn golden brown by winter and persist as a jacket on the tree until late winter. Very quick grower. Produces bitter acorns. (Deciduous 10m)			45L	3.6		
			80L	3.8		
Quercus afares - (Algerian Oak)						
Tough vigorous, broadly spreading Oak from Northern Africa. Develops corky bark and bears plentiful crops of acorns. Tolerates dry coastal sites. Semi-evergreen in warm climates. (Deciduous 10m)			45L	3.5		
			80L	4		
Quercus bicolor - (White Swamp Oak)						
An easily grown medium sized rounded tree. Glossy leaves are felted with grey beneath. Copper coloured autumn leaves. Produces acorns. Tolerant of moist soils. Grows well on the edge of water. (Deciduous 10m)			35L	2		
			80L	3.5		
Quercus canariensis - (Mirbeck's Oak)						
A handsome large fast growing tree. Grey deeply fissured bark. Glossy green leaves turn yellow and brown through autumn. Can be semi-deciduous in warm climates. Large crops of acorns. Grows equally well on light and heavy soils. Tolerant of dry coastal sites. (Deciduous 10m)			25L	3		
			60L	3.5		

		Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)			Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)		
Quercus canariensis x robur - (Mirbeck's English Oak)			25L	3				Quercus kelloggii - (Californian Black Oak)			SOLD OUT FOR 2019				
One of the hardiest oaks tolerating strong winds and drought conditions,once established. Think glossy green leaves through summer,turning yellow in autumn. Produces copious quantities of acorns (Deciduous 10m)			35L	3											
			45L	3.3											
			60L	3.5											
Quercus cerris - (Turkey Oak)			25L	1.8				Quercus laurina - (Mexican Species)			35L	2.5	1.6		
Fast growing oak is coastal hardy. Makes a wide spreading tree of noble proportions. Rich green oblong lobed leaves turn yellow in autumn. Excellent for both shelter and as a specimen tree. Produces large crops of acorns. (Deciduous 10m)			45L	2.5											
			60L	3											
			80L	2.7											
Quercus coccinea - (Scarlet Oak)			25L	2.6				Quercus mexicana - (Mexican Species)			35L	2			
North American species, considered the most brilliantly coloured oak with its fiery scarlet autumn leaves which persist well into winter. Forms a stately specimen with an open branching structure which allows lawn to grow underneath. More narrow growing than most oaks. (Deciduous 10m)			35L	2.8											
			45L	3											
			100L	5											
Quercus crassifolia - (Mexican Species)			35L	2				Quercus palustris - (Pin Oak, Swamp Spanish Oak)			35L	2.7			
Has long thick green leaves, heavily felted white on the undersides. Bright red new spring leaves are a startling feature. A compact upright grower. Coastal and drought hardy. (Evergreen 10m)			45L	2.5											
Quercus ellipsoidalis - (Northern Pin Oak)			25L	2				Quercus petraea x robur - (Hybrid English Oak)			45L	2.5			
A member of the red oak family. Grows into a medium sized tree with a cylindrical form and rounded head. Glossy green deeply cut leaves turn scarlet, yellow and bronze in winter. Tolerant of strong prevailing winds. Suits dry, and poor sandy soils. (Deciduous 10m)			35L	1.8											
Quercus furfuracea - (Mexican Species)			45L	2.5				Quercus robur - (English Oak)			35L	3			
Is clothed in thick leathery olive green leaves. Coastal hardy. (Evergreen 6m)															
Quercus ilex - (Holm Oak)			P18	0.6				Quercus robur "Fastigiata" - (Columnar English Oak)			25L	2.6			
Forms a large tree with a dense wide spreading crown. Small leathery leaves are dark green with grey undersides. Coastal and drought hardy. With its dense form and smaller leaves can clip into a tough hedge or screen. Excellent for training into topiary forms. (Evergreen 10m)			25L	1.6											
			35L	2											
			45L	2.2											

		Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)			Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)	
Quercus rubra - (Northern Red Oak)		P28	2.7					Robinia "Bella's Gold"		35L	2	1.5		
Large broad headed tree. Red new leaves mature to large deep green leaves. Ruddy red and yellow autumn leaves. Becomes a high-branched, wide spreading tree with a deep rooting system allowing lawn and other plants to be grown underneath. Produces acorns. Not for alkaline soils. (Deciduous 10m)			25L	2.8										
			35L	3										
			45L	3.2										
Quercus rubra "Maxima" - (American Oak)								Robinia "Casque Rouge" - (Pink Cascade)		35L	2.7			
Grows into a large broadly columnar form with horizontal wide spreading branches. Large leaves are rich red in spring, green in summer and turning dark ruddy red to brown in autumn. (Deciduous 6m)			60L	4										
			45L	2.8										
Quercus suber - (Cork Oak)								Robinia pseudoacacia "Frisia" - (Golden Locust)		35L	2.7			
Medium sized with a dense crown. Thick fissured corky bark is a feature. Small oval toothed leaves are dark green with grey undersides. Coastal and drought hardy. Smaller leaves can clip into a tough hedge or screen. Ideal for training into topiary forms. Excellent street tree. (Evergreen 6m)			25L	1.8										
			35L	2	1									
Radermachera sinica - (China Doll, Emerald Tree)								Robinia pseudoacacia "Hillieri" - (Pink Acacia)		SOLD OUT FOR 2019				
A handsome tree from China. Erect stems are covered in bipinnate glossy green leaves. Excellent quick growing narrow screen. Can be cut back severely to renew growth quickly. Tolerates only moderate frosts. Excellent container plant. Has white trumpet like hanging flower in late summer. (Evergreen 3m)			45L	2.4										
			Rhopalostylis cheesemanii - (Kermadec Island Nikau Palm)			SOLD OUT FOR 2019								
Differs from the Nikau by having larger and longer fronds and larger flower heads. Frost tender. (Native Evergreen 3m)														
Rhopalostylis sapida - (Nikau Palm)								Robinia pseudoacacia "Lace Lady" - (Twisty Baby Locust)		25L	1.5	1.2		
Elegant and graceful slow growing palm. Grows best in a shady sheltered spot in moist soil but will grow out in the open (the leaves won't be as lush). Looks best planted in groups. Frost tender. (Native Evergreen 4m)			P28	0.6										
			45L	2										
Rhopalostylis sapida v. chathamica - (Chatham Island Nikau)								Robinia pseudoacacia "Umbraculifera" - (Mop Top)		35L	2.2	1.7		
World's most southern palm. Hardy to frost and drought. Will handle coastal and exposed conditions. Broader leaves than mainland varieties. (Native Evergreen 4m)			45L	1.2										
			80L	1.5										

		Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)			Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)	
Salix babylonica - (Weeping Willow)		SOLD OUT FOR 2019						Sequoia sempervirens "Korbel" - (Californian Redwood)						
Arching wide spreading branches that weep to the ground. Branches are polished brown and are covered with slender deep green leaves with blue-grey undersides. Slender catkins appear with new spring leaves. Wonderful paddock or park shade tree, or for wet areas next to water. (Deciduous 9m)								A selection which is more compact and smaller growing. Forms a bushy conical tree. Quick growing. Well suited for growing as a shelter belt. Prefers damp soil in a sheltered area. (Evergreen 10m)			P28	2		
Salix caprea "Pendula" - (Kilmarnock Willow)														
A weeping umbrella form that is grafted on a stout trunk. Excellent small tree for moist areas and small gardens. Large silver Catkins adorn the bare branches in late winter. Large green coarse leaves are blue green underneath. Leaves turn yellow in autumn. (Deciduous 2m)			45L	2	1.6			Sequoiadendron giganteum - (Redwood)						
								Very tall evergreen, suitable as a specimen tree or for use in wide spaced shelter belts. Prefers well drained soils tolerates exposed dry sites. (Evergreen 15m)			P28	1.2		
Salix matsudana "Pendula" - (Weeping Hankow Willow)		SOLD OUT FOR 2019												
A gracefully pendulous, fast growing weeping tree with fine cascading branches covered in slender green leaves. A large spreading adaptable tree which will grow almost anywhere including waterlogged soils. (Deciduous 10m)														
Salix matsudana "Tortuosa" - (Corkscrew Willow)								Sophora chathamica - (Coastal Kowhai)						
Branches and stems are twisted and contorted. Great for year round interest. Cut stems are popular for floral work. Attractive ornamental tree for damp soils. Golden autumn colours. (Deciduous 7m)			25L	2.5				Bears a profusion of golden yellow flowers from late winter to spring. Does not go through a juvenile tangle of shoots. Larger leaves are more densely packed on the stems. Very hardy, tolerant of dry and windy positions. (Native Evergreen 6m)			P28	1.8		
Salix vitellina "Pendula Aurea" - (Golden Weeping Willow)														
Graceful tree with arching wide spreading branches that weep to the ground. Golden yellow branches are covered with slender soft green leaves. Wonderful paddock or park shade tree, or for wet areas next to water. (Deciduous 8m)			25L	2				Sophora chathamica "Milligold" - (Weeping Kowhai)						
			35L	2.2				Wide spreading bushy grower with strong weeping branches clothed in dark green leaves that will weep to the ground. Bears a profusion of short lemon yellow flowers in spring which attracts nectar seeking birds. Excellent for espaliering and cascading from a large container. (Native Evergreen 2m)			25L	1.8		
Schinus molle - (Pepper Tree)		SOLD OUT FOR 2019												
Wide spreading shade tree for temperate areas. Bright green pinnate leaves with a distinctive peppery fragrance cover the graceful willowy branches. Solid heavy limbs are safe to climb and build tree huts in. Adaptable enough to tolerate both drought and poorly drained soils, also light frosts. (Evergreen 6m)								Sophora fulvida - (West Coast Kowhai)						
								A smaller growing Kowhai with a neat spreading form, making a perfect small shade tree for a suburban garden. Small greyish-green leaves tolerate moderate coastal conditions and dryness. Large golden-yellow spring flowers attract nectar seeking birds. Excellent street tree. (Native Evergreen 3m)			25L	1.4		
Sequoia sempervirens - (Coastal Redwood)								Sophora godleyi - (Rangitikei Kowhai)						
A stately tree of pyramidal form, one of the most handsome conifers. Noted for its longevity. Quick growing this conifer likes adequate moisture in free draining soil. Straight towering trunks are covered in thick reddish brown bark. (Evergreen 8m)			P28	1.3				A distinctive grower with an upright form and pendulous side branches. From a distance the leaves appear greyish. Becomes smothered with golden flowers in September. (Native Evergreen 5m)			25L	1.6		
			25L	1.6										
			35L	1.7										
			45L	2										

			Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)				Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)	
Sophora japonica "Pendula" - (Japanese Pagoda Tree)				35L	1.7	1.2				Sorbus aria "Lutescens" - (Silver Whitebeam)			25L	2.2		
Unique stiffly weeping form with branches cascading to the ground. Fine light greenish yellow leaves turn deep green then yellow. Branches dark velvety green. Impressive specimen tree. (Deciduous 6m)		45L		1.7	1.2			Compact small upright tree with a pyramidal form. Bold rounded leaves are covered with a dense layer of white hairs to give the leaves a silvery look. Grey green leaves through summer, turning yellow in autumn. Excellent street tree. (Deciduous 4m)			35L		2.5			
Sophora longicarinata - (Kowhai)				35L	2.3				Sorbus aucuparia "Scarlet King" - (Rowan)		25L		2			
A distinct kowhai found on the limestone hills of Takaka in the Nelson province. Forms a slender small tree with tiny fresh green leaves. Large pale yellow flowers which nectar seeking birds adore. Excellent street tree. (Native Evergreen 3m)		35L							2.1				Erect growing tree with a compact oval crown. Grey green pinnate leaves turn light orange in autumn. White flowers in late spring develop into large bunches of bright red oval fruit from late summer. Grows best in climates with cold winters. Excellent street tree. (Deciduous 5m)		60L	2.7
Sophora microphylla - (South Island Kowhai)				P28	1.7				Sorbus devonensis - (Devon Whitebeam)			25L				
Has a tangled mass of branches when young but develops into a medium sized tree with gracefully arching and spreading branches and small leaves. Golden yellow spring flowers attract nectar seeking birds. Grow in sun or semi-shade, not too dry. Looks lovely sited overlooking water. (Native Evergreen 5m)		25L		2						25L		3.3				
		35L		2												
		45L		2.2												
Sophora microphylla "Sun King" - (Kowhai)				45L	2				Sorbus folgneri - (Whitebeam)			SOLD OUT FOR 2019				
A Chilean species with glossy deep green leaves on arching branches. Short yellow bell shaped flowers are borne in profusion in spring. They attract nectar seeking birds. Suits a smaller garden as more erect growing. (Evergreen 3m)		Graceful small tree with spreading branches. Narrow green leaves are grey underneath. Vivid autumn leaves of amber, orange and red. Dark red berries hang in clusters from late summer, well into winter, until devoured by birds. Grows best in climates with cold winters. (Deciduous 4m)														
Sophora molloyi - (Cook Strait Kowhai)				P28	1.6				Sorbus "Ghose" - (Naga Mountain Ash)			25L	2			
A bushy, spreading to decumbent shrub that is usually wider than high. It grows in the North Island and South Island new Cook Strait. Its habitat is coastal scrub on exposed maritime sites. (Native Evergreen 3m)		A beautiful small tree of erect habit. Beautiful heavily cut green leaves have silvery undersides. Small rose red fruit are borne in large bunches from late summer and persist well into winter until devoured by birds. Grows best in climates with cold winters. Excellent street tree. (Deciduous 4m)								35L		2.2				
Sophora molloyi "Dragon's Gold" - (Stephens Island Kowhai)				P18	0.7				Styrax japonica - (Japanese Snowbell)			25L	1.2			
A wide spreading bushy grower with dense foliage. Bears a profusion of lemon yellow flowers in mid-winter which attract nectar seeking birds. Will stand cold conditions and coastal winds. (Native Evergreen 2m)		P28		0.8				Small oriental tree with a slender trunk and wide spreading fan-like branching structure. Can be used for pleaching. Fragrant white bell shaped flowers with golden stamens hang gracefully beneath the branches in early Summer. Yellow Autumn leaves. (Deciduous 4m)		45L		1.5				
Sophora tetraptera - (Large-leaved Kowhai)				P28	2				Syagrus romanzoffiana - (Queen Palm)			45L	1.5			
Larger leaves and larger flowers than microphylla. A slender small tree with an airy graceful form. Golden yellow spring flowers attract nectar seeking birds. Grow in sun or semi-shade, not too dry. Looks lovely sited overlooking water. (Native Evergreen 4m)		25L		2				A tall elegant quick growing Palm for temperate areas. The trunk remains narrow to give wonderful height with a canopy of deep green upright and spreading fronds. Soft leaves. Tolerant of strong winds and some coastal. (Evergreen 15m)		60L		2				
		45L		2.7												
		60L		2.8												

			Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)				Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)
Sycoparrotia semidecidua									Thuja occidentalis "Pyramidalis" - (Pyramidal White Cedar)						
Broadly spreading tree with exfoliating bark. Small flowers with red stamens on bare branches in winter. Leaves turn yellow, orange, and red in autumn. Can be pleached for a colourful hedge. (Deciduous 4m)			25L	1					Very erect columnar growth with flattened fan-like sprays. Reliable, enduring and quick growing conifer with deep green leaves. Makes a superb narrow screen that never requires trimming. Great as a focal point or to line avenues and driveways. Superb container plant. (Evergreen 5m)		35L	2			
Syzygium australe "Resilience" - (Lilly Pilly)									Thuja occidentalis "Smaragd" - (Emerald Thuja)						
Compact upright growth. Excellent for hedging and screening. A superior variety-selected for its better growth habit and resistance to predations from Psyllid sucking insects. Requires well drained soils free from hard frosts. (Evergreen 3m)			45L	2.2					A shorter and finer leafed version of the above. Leaves are fresh green. Densely forms a narrowly conical habit. Is very reliable and quick growing. Excellent for screens and focal points. Superb container plant. (Evergreen 3m)		25L	1.1			
Taxodium distichum - (Bald Cypress, Swamp Cypress)									Thuja plicata - (Western Red Cedar)						
Shapely pyramidal tree with soft green feathery spring leaves. The leaves turn russet and gold in autumn and persist well into winter. Will grow in up to 60cm depth of water. But will thrive in all marshy ground and in ordinary garden soil as well. (Deciduous 15m)			25L	1.5					Great shelter tree providing permanent shelter and privacy. Bronzy green leaves. Quick growing with a nice pyramidal bushy form that requires little pruning. Hardy to wind and drought. Canker resistant. Cattle can eat the foliage without coming to any harm. (Evergreen 12m)		25L	1.4			
Taxodium distichum "Cascade Falls" - (Bald Cypress)			SOLD OUT FOR 2019								Thuja plicata "Green Giant"				
A small weeping tree with branches that weep straight down to the ground. Soft green feathery new leaves turn russet in autumn. Perfect for the smaller garden. Useful for damp low spots to soak up moisture. Graft height will determine ultimate height. (Deciduous)											An excellent shelter belt which has proven to be successful worldwide. Disease free, this hedging tree will provide a fantastic shelter or a wonderful dark green ornamental backdrop. Fast growing. (Evergreen 12m)		25L	1.4	
Taxodium distichum "McLaren Falls" - (Bald Cypress)									Tilia cordata - (Small Leaved Lime)						
A beautiful weeping Swamp Cypress. A variation discovered at McLaren Falls in the Kaimai Ranges. These are very tolerant of wet conditions. Pendulous side branches. (Deciduous 3m)			35L	2.2	1.2				Green through summer, yellow in autumn. Forms a dense pyramidal tree with masses of pale yellow sweetly scented flowers in summer that attract bees. The pliable branches can be trained along wires for pleaching. Also can be grown as a hedge. (Deciduous 8m)		P28	1.3			
Taxus baccata - (English Yew)									Tilia europaea - (Common Lime)						
Almost black green glossy leaves on a slow growing, but enduring small tree. Perfect for formal plantings as can be clipped into any topiary shape, be it a screen, ball, sphere, column, animal or whatever takes your fancy. (Evergreen 3m)			25L	0.9					Forms a large umbrella shaped tree with green heart shaped leaves. They turn yellow in autumn. Produces a mass of pale yellow flowers in summer which bees are attracted to. Perfect park tree and for large avenues. Can be used for pleaching. (Deciduous 8m)		P28	1.6			
Taxus baccata "Fastigiata" - (Irish Yew)									Tilia platyphyllos - (Broad Leaf Lime)						
Erect columnar growth which slowly forms a narrow upright column of closely packed branches. Small blackish green leaves. Remains narrow without the need for clipping. The perfect formal specimen column. (Evergreen 3m)			25L	0.9					Forms a large umbrella shaped tree with broad green heart shaped leaves. Produces a mass of pale yellow flowers in summer which bees are attracted to. Perfect park tree, for large avenues and driveways. Can be used for pleaching. (Deciduous 8m)		35L	2.7

Ulmus hollandica "Lobel" - (Upright Elm)															
Vigorous hybrid Elm with striking upright growth habit. Bronze new leaves mature deep green, then yellow in autumn. Resistant to Dutch Elm disease. Coastal and drought hardy. Perfect hardy screen tree for lining large avenues. Excellent street tree. (Deciduous 15m)			25L	3					Viburnum japonicum			SOLD OUT FOR 2019			
		35L	3												
		45L	3												
		60L	3.5												
Ulmus hollandica "Wredei" - (Fastigate Golden Elm)															
A narrow growing selection of the golden elm which holds its stunning large yellow leaves through the growing season. Ideal for restricted areas. Superb street tree. Protect from coastal winds. (Deciduous 5m)			35L	2.5					Viburnum opulus "Sterile" - (Snowball Tree)			P28	1		
		80L	3				35L					1.2			
Ulmus parvifolia - (Chinese Elm)															
Forms a rounded head with graceful pendulous branches, slender trunk and peeling bark. Smaller dark green leaves turn orange and yellow in autumn. Tolerant of moderate coastal winds and drought. Perfect shade tree for the smaller garden. Excellent street tree. First elm to leaf. (Deciduous 6m)			P28	2					Viburnum tinus			P28	0.8		
		35L	3												
		60L	3.7												
		80L	3.8												
Ulmus parvifolia "Frontier" - (Hybrid Chinese Elm)															
Forms a vase shaped tree with a small rounded head. Small dark green leaves turn glowing burgundy in autumn and persist well into winter. Tolerant of moderate coastal winds and drought. Perfect shade trees for the smaller garden. Does not produce seeds. Excellent street tree. (Deciduous 6m)			25L	3					Viburnum tinus "Eve Price"			P18	0.8		
		35L	3												
		45L	3.2												
		60L	4												
Ulmus procera "Louis Van Houtte" - (Golden Elm)															
Vase shaped tree with a large spreading canopy. Large soft golden leaves maintain their show until autumn when they become brighter before falling. Hardest golden-foliaged trees to winds. Profusion of double lime green blossom on bare spring branches. Excellent specimen tree. (Deciduous 6m)			35L	2					Vitex lucens - (Puriri)			P18	1.3		
		45L	2.5	1.5			25L					1.6			
		60L	3	1.5			45L					2.4			
		80L	3				135L					3.8			
Viburnum davidii "Female" - (Female Chinese Viburnum)															
Compact growth habit forming a low wide spreading mound. Terminal clusters of white spring flowers mature as electric blue berries which are held through autumn into winter. Needs a male for cross pollination. (Evergreen 0.8m)			P18	0.4					Washingtonia robusta - (Mexican Fan Palm)			80L	2.6		
												1000L	3.5		
Viburnum davidii "Male" - (Male Chinese Viburnum)															
Compact growth habit forming a low wide spreading mound. Terminal clusters of white spring flowers. Large leathery leaves. One plant will pollinate a group of females. (Evergreen 0.8m)			P18	0.4					Wisteria "Lavender Lace"			35L	2.5		
			25L	0.5											

		Grade	Height (m)	STD (m)	Price (1-5)	Price (5+)
Yucca elephantipes - (Spineless Yucca)						
<p>Long shiny mid green spear shaped leaves encircle the erect stems which towers upwards. New stems emerge to form the base to form a thicket of stems. White bell shaped flowers in late summer. Grows in temperate regions with light frosts. (Evergreen 3m)</p> 		25L	0.6			
		60L	1.8			
Zelkova serrata - (Japanese Zelkova)						
<p>Forms a vase shaped tree with a spreading crown of branches which weep at their tips. Narrow pale green leaves turn yellow orange and scarlet in autumn. Tolerant of drought, once established and withstands strong winds. (Deciduous 8m)</p> 		P18	1.6			
		25L	2			
		35L	2.5			
		45L	2.7			
Zelkova serrata "Kiwi Sunset" - (Japanese Zelkova)						
<p>Showy large shrub or small tree with handsome golden leaves. New leaves emerge wine red to bronze. Pruning to keep this plant a bush will encourage the long branches to weep in a striking effect. (Deciduous 4m)</p> 		25L	2.5			
		35L	2.2

TREE ACCESSORIES

<p>Coir Square Helps retain moisture and restricts weed growth around base of tree. \$3.50+GST each</p>	
<p>Easy Green Fertiliser Work into top of soil and water in. \$25+GST per 5kg bag</p>	
<p>Fertiliser Tables Place under root ball when planting. \$17+GST per 1kg bag (approx. 100 tablets)</p>	
<p>Gypsum Clay breaker and soil conditioner for improving quality of heavy soils. \$22+GST per 8kg bag</p>	
<p>Root Blast Grows bigger roots, improving nutrient absorption, creating a larger plant. \$30+GST per 0.5kg bottle</p>	
<p>Root Director (750mm) Protects pavements by diverting root growth downward. Contact us for pricing.</p>	
<p>Root Director (1m) Protects pavements by diverting root growth downward. Contact us for pricing.</p>	
<p>ReRoute Ribbed Root Barrier (300mm x 30m & 600mm x 30m) Continuous root management barriers with vertical ribs. Contact us for pricing.</p>	
<p>RootStop Root Barrier (500mm x 50m) Continuous, recycled, and non-ribbed root management barriers. Contact us for pricing.</p>	
<p>Tree Stakes (1.7m x 0.05m x 0.05m) Pointed and untreated pine stakes. \$3.90+GST per stake</p>	
<p>Tree Ties Small Black Tie: \$20+GST per 30m roll Large Black Tie: \$55+GST per 50m roll Hessian Tie: \$14+GST per 30m roll</p>	

STREET TREE WATERING SYSTEM

Leafland recommend an in-ground automatic watering system for street trees. Using this system, trees could be planted any time of the year, and would save time watering while protecting the planting investment.

An inconspicuous and cheap system could easily water up to 100 trees at once, activated by a simple battery operated valve (which has a non-return valve) that feeds a 16mm pipe. The pipe would be laid under the grass verge beside the footpath prior to soil being brought in. As trees are planted, a shallow trench is dug to the tree watering feed pipe and a 6mm lateral tube installed with a dripper installed on the end by the tree. This should last for at least 10 years. Our recommended system will save time and money while improving the consistency of trees in the street.

UNDERSTANDING LATIN NAMES

Latin Name	Meaning
alba	white
america	from America
angustifolia	narrow-leaved
argentea	silvery
aurea	golden, yellow
australis	from the south (not necessarily Australia)
autumnalis	of autumn
azurea	blue
barbata	bearded, hairy
campanulata	campanulate, like a bell
campestris	of the field
canadensis	from Canada
canariensis	from the Canary Isles
capensis	from the Cape, South Africa
coccinea	red
decidua	deciduous
digitata	(leaves) like a hand, with five lobes
edulis	edible
ficifolia	like a fig leaf
flava	yellow
flore plena	with double flowers
glabra	smooth
glutinosa	sticky
grandiflora	large-flowered
incana	grey
integrifolia	entire, undivided (leaves)
japonica	from Japan
lanceolata	lance-shaped (leaves)

Latin Name	Meaning
longiflora	with long flowers
lutea	yellow
macro-	large- (e.g. macrorhiza = large-rooted)
macrocarpa	large-fruited
macrophylla	with large leaves
maxima	biggest
mexicana	from Mexico
microphylla	with small leaves
minor	smaller
odorata	perfumed
ovalifolia	with oval leaves
palustris	from marshes
parvi	small- (e.g. parivflora = small-flowered)
parviflora	small flowered
parvifolia	with small leaves
pauci-	few- (e.g. pauciflora =few-flowered)
pendula	hanging
-phylla	-leaved (e.g. macrophylla = large-leaved)
pinnata	with pinnate leaves
poly-	many (e.g polyantha = many-flowered)
pumila	small
purpurea	deep pink
rosea	rose pink
rotundifolia	round-leaved
rubra	red
sativa	cultivated
semperviva	perennial

COMMON AND BOTANICAL NAMES OF TREES

TREE PLANTING GUIDE

It is crucial to plant a tree correctly, to ensure that it will grow well for years to come. In the past, we have seen too many trees planted out incorrectly. In many instances the trees were planted too deep. This will cause most trees to slowly shut down and die because of the lack of warmth and air. Also, the phloem and cambium layers of the trunk (which are the layers of cells that transport the food supply up the tree) will slowly die, and effectively starve the whole tree of nutrients. Only a few trees like Poplars and Willows will survive this sort of treatment.

Over 80% of customers tree failures are due to the tree being planted too deep.

We at Leafland recommend the following steps for planting out trees:

- 1. Planting:** Dig the hole a little larger than the bag. If in heavy wet soils it may be best to mound up the site so water doesn't pond around the trunk. Place the tree in the hole, teasing the roots out and firming up the soil around the root ball. In an avenue or street tree situation, we recommend burying a short section of nova-flow pipe in the ground beside the root ball, leaving the top protruding so you can water the root zone directly in the future. Ensure that the tree is planted with the top of the root ball at the same level as the surrounding soil.
- 2. Staking:** For larger trees we recommend three stakes positioned beyond the root ball. Use something soft and non-abrasive to hold the tree (old tyre tubing is very good). Ties should be positioned about 1m high and the top of the tree left to sway in the wind which will strengthen it. I believe staking is very important for at least the first year, as it is necessary to hold the root ball from movement to allow new roots to establish themselves in the surrounding soil.
- 3. Watering:** After planting, water in with a good bucket of water. In summer we recommend a good bucket every third day or so - more or less depending on the weather. In winter a deciduous tree hardly requires any water, so don't drown it! A simple watering system with an automatic timer and drippers is a very cheap and worthwhile investment.
- 4. Mulching:** It has been recorded that a square metre of bare soil will lose around 2L of water on a hot day. Cover the root zone with 3-4 inches of bark/mulch (not lawn clippings). If you have your own chipper, this would be a very good way to use it. Also, mulching will suppress weeds around the tree and save weed spray in the long run.
- 5. Fertilizer:** We sell long term fertilizer tablets which can be placed in the root zone of the tree at planting, and will feed the tree for around 15 months. We also recommend Easy Green, Lawn and Garden as an all-purpose top feed fertilizer. Sprinkle a handful round the base of the tree at six week intervals between October and mid-January.

See page 148 for tree accessories that we supply.

TERMS OF TRADE

This list cancels all previous lists. Prices quoted exclude GST.
GST will be shown separately on each invoice.
Prices shown are net at nursery and are subject to change without notice.

Delivery or Freight: Leafland has a great network of freighting companies who deliver trees New Zealand wide. See page 145 for pricing details.

Claims: All trees are dispatched uninsured and at buyer's risk. Claims for losses or damage in transit should be lodged immediately. Any returns or complaints must be made within three days of receiving the trees.

Returns: Once an order is completed and dispatched, if a customer then changes their mind, the trees must be returned to Leafland, and the customer will pay the cost of transport in both directions. A return to stock charge may be added to cover the costs before a refund is issued.

Payment: For customers who have completed a credit application with Leafland, payment is due on the 20th of the month following dispatch. For non-account customers payment is to be made either when the order is collected or before the order is freighted.

Deposits to Secure Stock: Trees may be held for future planting with a 50% prior deposit. If trees are not collected by the agreed date, Leafland reserves the right to charge a monthly holding fee at our discretion.

Credit Application: Please complete the application form on page 144 and scan and email it back.

Forward Orders: Leafland encourage forward orders to ensure you get the stock you require. Selected stock can be labeled and held provided the customer pays a deposit which will be negotiated.

Ownership: Goods remain the property of Leafland until paid for in full.

Interest at 2% per month may be charged on overdue accounts. Leafland may, at its discretion, forward details of any amounts outstanding and overdue for payment, to a recovery agent for the purpose of effecting collection of any monies owing. Should Leafland utilize the service of a recovery agent, you, the customer, undertake to make payment of all debt collection costs in regard to any monies owed by you.

Placing an order with Leafland constitutes full acceptance of the above terms of trade.

Leafland take the greatest care to have all trees dispatched true to name but will give no warranty as to growth or description. As we have no control over the environment the trees are to be planted in we do not undertake to replace any failures. For more information please see our planting guide on the opposite page.
